There are women who imagine that carrying news gives them an air of importance, in fact, the moment they loom in sight, ears are pricked up and mouths stand agape in acticipation of a real tickling sensation that may mean ruin to the reputation of another. Remember it is safer to trust to the one who is slandered than the one who slanders. - Big Run Tribune.

"A Break for Liberty," the drama written on the escape of the Biddle brothers from the Allegheny county jail a couple of years ago, was booked for the Reynolds opera house last Saturday night, but Burgess L. Filling Road.

James V. Young, who has the contract for a four foot fill on the public road from bridge at foot of Fifth street to railroad siding near silk mill, is getting well along with the work. There is only one opening in the fill and that is near the silk mill end of road, and it is our opinion that this is a mistake. There should be at least two openings. However, the first big flood we have will show whether one opening is sufficient or not.

Ex-Sheriff D. G. Gourley, Sylvester Truman and County Surveyor James B. Caldwell, all of Brookville, who were appointed to view the bridge across Sandy Lick creek, at foot of Fifth street, in this borough, were here Monday morning to perform their duty. They will report that a new bridge is needed and that it should be built by the county, according to law. The bridge will be 90 feet long, wide enough for two teams to pass on it and have a foot bridge at one side.

False Report.

A report was sent out from Sykesville that Robert Coulter, a railroad paymaster, was held up near Sykesville Thursday evening, his horse was shot dead and that Mr. Coulter only escaped being shot to death by falling behind his dead horse, that the robbers poune-ed upon him and beat him insensible with butts of their revolvers and then took \$30,000 out of his pockets. There was no triffe in the report. Some of the Sykesville boys concocted the story and told it to a barbershop and it soon spread like wildfire over the town and over telephones to other towns.

It Rained Shot.

While a number of persons wer crossing the upper iron bridge, which spans Mahoning creek, yesterday at about 11.30 o'clock a. m., they were pelted with a shower of shot, which rained down from the sky for a period of more than ten minutes. Those who witnessed the strange phenomenon were at first inclined to the belief that a hail storm was in progress, but on picking up the missiles they were found to be No. 6 bird shot. Dr. McTaggart who was one of the witnesses, brought some of the shot to the Spirit office He declared that for several minutes he was in the midst of the shower and that he had been pelted with shot that came straight down from the clouds, some of the leaden missiles having struck between his neck and collar and passed down inside of his clothing. Whether this leadenlike visitation was of meteoric origin or whether a passing balloonist, hidden from view by the clouds, dumped over part of his ballast at a point directly over the iron bridge. is yet a mystery which Dr. McTaggart and several others, whom he did not know, are anxious to have solved .-Punxsutawney Spirit.
