## Hot Blast

This is one of the stoves that some may call an imitation, but we can prove to you beyond a doubt that it is one of the

Latest Improved and All-Round Up-to-Date Hot Blasts on the Market To-day.

It has many features that the so-called originals have not. Ask the housewife about the ASH PAN and she will tell you that a stove is not complete without it. Ask yourself, is a stove complete without a cast lining—one that extends nearly to the top, to protect the polished body from coming in contact with the fire? The

ash pit door and screw draft thereon can be made perfectly air-tight.

The Feed Door and Draft Slide are so Arranged that you need not Remove the Dome to Manipulate Either.

## We Guarantee It

To burn any kind of coal and will hold fire as long as any other stove made, and will surely last a great deal longer than a stove that has no lining and with proper care will last twelve or fifteen years.

### How to Treat Measles.

Editor THE STAR:—At present an epidemic of measles prevails at Rathmel. Very probably a total of 200 or more cases. Under circumstances of this kind a few suggestions through the medium of THE STAR as to the general management of patients afflicted with this disease may be of some good to some one. When possible the patient should be placed in a large, darkened, well ventilated room, with uniform temperature, night and day, of 68 to 74 degrees, and when properly managed should be kept in bed from the appearance of the first symptoms of the disease until the temperature, or fever, has been normal for one week. The patient should then be kept in warm room during cold weather for three weeks, or until every vestige of the scaling of the skin has disappeared. While the fever lasts the patient should be restricted to a liquid diet, milk broths and a little bread, &c. Great care should be exercised to protect the child during changeable weather for months. XYZ.

### Who is to Blame?

We think the citizen of our community who will not lift his mail from his own postoffice, nor send his children to school, nor take any paper, nor work out his road taxes, nor keep his dumb brutes from starving and perishing from want of care and feed in the winter, is down near the lower neck of the scale of human existence. It is such men who cry down their whole community; everybody is a rascal and dishonest, friends are treated so cussedly mean that he has none. Well we truly pity such a one, but who is to blame?—Kittanning Press.
