Charley Spencer, who is a No. 1 performer on the piano and makes a violin almost talk, is now 79 years old. He came to this country from across the water many years ago, in fact when he was but a boy. He started on foot from Philadelphia to wander the country with but a dollar in his pocket to hunt work. He did not care which direction he went as he was alone in the world and knew no man. Work he got until the war broke out in the sixties, when he left his place and fought with the boys from the north. He made a good soldier and gets a pension. Mr. Spencer is a great reader and reads the finest print without glasses. He holds the paper at the regulation distance from the eye, which is remarkable for a man 79 years of age. He owns a property or two in West Reynoldsville and with his pension takes life easy. He is very active and you would take him for a man about sixty years old. He is certainly what you would call a gentleman and a scholar.-Reynoldsville Cor. to DuBois Searchlight.

The ornamental iron and sheet metal shop, of structural steel, is up and one-third of the roof on, but the work of roofing had to be suspended on account of bad weather. Mr. McSherry expects to have the entire plant in operation early in the spring. About forty men are now working at the plant. In the foundry and machine shop is a
