Very Close Call. Frederick K. A. Alexander, cashier of The Peoples National Bank, had a very close call from serious injury, if not instant death, about 5.00 p. m. last Wednesday. Mr. Alexander was sitting on a chair under the skylight in Seoley, Alexander & Co. bank and was alone when his son, Kenneth, entered front office of bank on an errand. Mr. Alexander got up to give his son what he wanted and was not off the chair a half minute until a portion of the thick glass skylight crashed down on the chair he had been sitting on and would have struck him on top of head had he remained in the chair. Banking building is only one story high where skylight is located and the front part of building is two stories high. Snow and ice had slid off the two story part of building on to the skylight and smashed it. Diets on the hardwood chair were proof sufficient that Mr. Alexander had a narrow escape.

MEMBERS OF PROTECTED HOME CIRCLE BANQUET.

A Six Months' Literary Contest Ended and the Victors were Given a Banquet by the Vanquished.

Five months ago the membership of the Protected Home Circle of Reynoldsville was evenly divided into two classes for the purpose of conducting a contest, the prime object of which was to increase the membership of the Circle and to create a greater interest in the meetings of the Circle. The contest closed last week. Albert Strouse was captain of the one half and Mrs. D. W. Atwater was captain of the other. The side receiving the largest number of points in the contest was to be given a banquet by the other side. The captains took week about in preparing program in Circle and for each recitation, song, &c., a certain number of points were allowed. Every new member counted 100 points. Mrs. Atwater's class got the largest number of votes during the contest and Albert Strouse's class gave them a banquet in the L. O. O. F. hall on Monday evening of this week. The banquet was fine and everybody had a good social time. Prof. S. C. Hepler, editor of the New Bethlehem Leader, and wife were present. Short and spicy addresses were made by Prof. Hepler, Rev. Dr. A. J. Meek, Rev. E. S. Kilpatrick and others.

Direct from Mr. Butler. We observe that several of the papers in "this neck of the woods" have identically the same articles in recent issues as correspondence from "away down south." They are good reading, but what bothers us is to know in which paper they are original. When the Volunteer has anything original in it you may just bet a sweet apple that it isn't shared by any other paper at the same time.—Reynoldsville Volunteer.

There is a mean and broad insinuation in the above statement that some newspaper is stealing its southern letters from some other newspaper, and THE STAR is, evidently, one of the several papers referred to we feel called upon to make a statement. The letters THE STAR has been publishing are received by mail direct from the writer, Bion H. Butler, and we pay Mr. Butler for the letters. We presume the other newspapers get their letters the same way. If Mr. Butler wants to sell his productions to various newspapers he has the same privilege as the American Press Association, from which the Volunteer boys news every week and the same news is published in a number of other papers the same week it appears in the Volunteer.

Flag Day Exercises. Last Wednesday afternoon more than a hundred guests were present at the Flag Day exercises held in the auditorium of the public school building. Two programs were rendered, the first given by the pupils of the lower grades and the second by the more advanced pupils. The exercises began at half past one and continued, with the exception of an interval of a few minutes incident to the change of the programs, until about half past four.

The exercises were very interesting and his parts well rendered. The songs were patriotic and the whole program served to incite greater patriotism and a fondler love for our national emblem. Though the exercises were long the visitors were patient and appreciative. The success of the occasion was due chiefly to the teachers who prepared the pupils for their various parts on the program. The auditorium was decorated with bunting and flags.

The Reynoldsville people had a delightful time. An elegant repast was served.

Solar Plexus Blow. E. S. Brewer, carpenter of West Reynoldsville, employed at the tannery, had a narrow escape from instant death last Thursday forenoon, and is still in a critical condition. Mr. Brewer was returning the corners of an oak block on a buzz saw when the block caught on the saw and was hurled against Mr. Brewer's stomach with great force. It was a solar plexus blow and the only thing that saved him from sudden death was the heavy clothing he was wearing at the time.

"Blowed" Too Soon.

O. H. Johnston, who sells tickets in the P. R. R. office at this place, was on the ill-fated Low Grade Division passenger train in the collision near Iowa, nine miles west of Reynoldsville, last Thursday evening. He was sitting in same seat with J. H. Crawford, life insurance agent of this place, and was telling Mr. Crawford of the bad luck he had while visiting a week in Clarion county last September. He had left arm injured by being thrown out of buggy in a runaway, was sick, missed train connections, &c., and added: "I am having better luck on this trip. My two daughters and I left home this morning, made connection at Summerville on P. S. & C. for Waterson, had a pleasant time, got back to Summerville in time to catch this train, we are now running on time and will get home without a mishap" but the word "mishap" was hardly out of his mouth when Mr. Crawford, unceremoniously, and quick as a flash, moved three or four seats nearer front end of the coach and Mr. Johnston also found himself a couple of seats farther front. They found their stiff hats both under a seat on opposite side of car three seats ahead of where they alighted. Mr. Johnston "blowed" a few minutes too soon. Both gentlemen escaped without injury.

TWO TRAINS COLLIDE

PASSENGER AND FREIGHT MEET NEAR IOWA STATION.

No One Fatally Hurt but a Score Were Slightly Injured.—Crews Saved their Lives by Jumping.

The second collision of passenger and freight trains on the Low Grade Division of the P. R. R. of a serious nature that has occurred since the road has been in operation, almost thirty-five years, took place on a curve about a half mile east of Iowa station and nine miles west of Reynoldsville a few minutes before six o'clock last Thursday evening, Feb. 23, when the east-bound passenger train No. 105, due here at 6.15 p. m., and second section of westbound passenger train No. 114, due here at 5.27 p. m., collided. Thirteen passengers and three trainmen were injured, but no one fatally injured. The eastbound train was composed of engine, baggage car and two coaches and the westbound was a big freight engine and one coach. Had the west-bound been a heavier train the result would have been more serious. The engineers and firemen saw the danger in time to jump and save their lives. The injured were: Ed. Gallagher, of Penfield, freight brakeman, right leg broken near the thigh; Bert Ferguson, baggagemaster, right leg badly injured and also was injured on right side by a heavy safe bumping up against him. Engineer M. Montgomery, of the passenger train, had his right leg injured when he jumped off engine; C. M. Reynolds, of Brookville, head, right arm and left leg injured; W. P. Walsh, of Scranton, both legs hurt; M. E. Quigley, of Newark, N. J., teeth loosened and left leg hurt; Charles E. Thorpp, of Philadelphia, advance agent for "Miss Bob White," left leg badly injured; Theodore Lewis, of Brookville, head cut; L. Lewis, of Brookville, left leg injured; Mrs. M. S. Sibley, of Brookville, head bumped; George J. Britton, of Brookville, nose and leg cut; F. B. Cochburn, of Ridgway, arm hurt; Joseph Hall, Sabula, face hurt; Mrs. J. J. Webster, of Harmony, side of face injured; George C. Ling, of DuBois, head badly cut. The passengers were all considerably shaken up.

Martin Phalen, of this place, road supervisor on Low Grade, was on train 105 and he walked to Fuller, the nearest telegraph office, three miles from wreck, and reported the collision to the dispatchers office at Reynoldsville. A relief train, with four doctors on it, was soon run down to wreck and the injured were cared for and about nine o'clock some of them were brought to this place and others were taken to DuBois.

M. Montgomery was engineer on passenger and Robt Cribbs conductor, and Thomas Brislin engineer on freight and Denny McCormick conductor. The collision was caused by the freight engineer and conductor misunderstanding their order. They had an order to meet second section of train 105 at Bella siding and were supposed to give first section of 105 a clear track, but for some reason they overlooked the word "second" and were going to Bella to meet and pass train No. 105. It is claimed that the engineer, fireman, conductor and bagman all read the order given them by operator at Fuller, and that the word "second" was not plain and they all overlooked it. The cool headedness, brave and quick work of the engineers in slacking the speed of their fiery steeds, prevented a much more serious collision than would otherwise have occurred. Engineer Montgomery was on outside of curve and did not know of the danger until his fireman yelled for him to jump. Engineer Montgomery put on the emergency brake before he jumped. A second more and he would have been too late. He had not struck the ground yet when the engines collided. The tank of passenger engine was shoved up into the cab of engine, which would have killed the engineer and fireman had they not jumped. The passenger engine was turned into a scrap pile; it was badly demolished. The freight engine and baggage car were also considerably damaged. The wreck was cleared away in about six hours after the collision.

Brakeman Gallagher was brought to Frank's Tavern Thursday night and Saturday morning was taken to the West Penn Hospital in Pittsburgh. The first collision of passenger and freight trains on Low Grade Div. occurred near Hawthorn about thirty years ago. The baggagemaster was killed and several passengers badly injured.

Engineer Montgomery is at his home in West Reynoldsville.
