

SYKESVILLE REJOICES

AT THE PROSPECT OF A NEW INDUSTRY.

Specimens of Shale Pronounced Excellent for Manufacture and Company will Soon be Organized.

J. L. Shaffer, who is at the head of the proposed brick plant at this place, received a letter a few days ago from The American Clay Working Co., of Bucyrus, Ohio, stating that the shale that he sent them some time ago had been tested and had proved satisfactory and that said company had shipped Mr. Shaffer some sixteen or eighteen sample bricks made from the shale which he sent them. Mr. Shaffer says that on the arrival of the samples he will be taken toward the location of an up-to-date brick plant with a daily capacity of about twenty thousand bricks.

A number of our young people attended the picnic at the school house on Friday evening. All report a pleasant time and Miss Lida Gearhart, the teacher, reports a profitable time. She says the social netted the school nine dollars and thirty-five cents, which will be used in buying more books for the library. Miss Gearhart is one of those enterprising little girls who only last spring left the common schools of our town and after attending the spring term at the Indiana State Normal passed the examination given by Supr. Teltrick very creditably.

Mr. and Mrs. J. F. Weber left on Friday morning for Washington, D. C., to attend the inauguration of President Roosevelt. On their return trip they will visit relatives in Baltimore, Shrewsbury and York. They expect to return next Thursday.

The Canadian Colored Concert Co., consisting of ten persons, gave a very interesting entertainment at the Baptist church last Tuesday evening. They had a well filled house and all were well pleased. The receipts netted about sixty dollars.

Mr. and Mrs. Earl Wilson, formerly of DuBois, who have been visiting Mrs. Wilson's parents, Mr. and Mrs. Wm. Patterson, of this place, left a few days ago for Albion, Erie county, where they will make their future home.

Mrs. Solomon Phillippi, who has been quite ill with pneumonia for sometime, is not improving and grave fears are entertained for her recovery.

Miss Jenevieve Grider, who has been confined to her home for some time with rheumatism, is getting better slowly.

Quite a number of our people attended the communion services at the M. E. church at Ratholm last Sunday.

Joe Grider and Bert Weber had business at DuBois Friday.

H. L. Ginter, of DuBois, had business in town on Friday.

The Sum Total

Of the world's wisdom increases. Bing-Stoke Co. are selling us Widow Jones clothes for boys than ever. \$1.50 to \$6.00.

Letter List.

List of unclaimed letters remaining in post office at Reynoldsville, Pa., for the week ending March 4, 1915:
James A. Bowlen, Miss Ella Cole, Mrs. Lydia Ann Danna, W. W. Patterson, Marian Reynolds, M. A. Steller, Smallwood, Samuel Snyder.

Premium Flour.

C. & J. MARINARO, Proprietors

CANDIDATE FOR SHERIFF.

O. H. Broadhead of Winslow Township is Before the People.

O. H. Broadhead, of Winslow township, was in town last Friday calling on friends and looking over the field preliminary to making a decision for nomination for sheriff by the Republicans of the county at the June primaries. Mr. Broadhead has received a great deal of encouragement from his friends and he is going into the fight to win if possible. Mr. Broadhead has been a resident of the county and Winslow township for many years and he has always been a straightforward and honorable citizen, and has a record of being a good and staunch follower of the Republican party. He has served his own community in various capacities and he has many friends in the county who will fill the duties of a sheriff with an approval of a couple of years ago. Mr. Broadhead has had a political "buzz" in his name for some time and he has been urged by his friends to come out at this time for recognition at the hands of the Republicans of the county. If nominated and elected Mr. Broadhead would fill the office of sheriff in a commendable manner and it is the general opinion that he will meet with encouraging success in the campaign. At the proper time Mr. Broadhead will visit the voters of the county and submit his case to them. A man of O. H. Broadhead's stamp is deserving of more than ordinary consideration in this matter.—Brookwayville Record.

Temperance Instruction.

No class in the community is made more painfully aware of the great harm that results from the intemperate use of alcohol than physicians—its pathological consequences are brought to our notice daily. I think, therefore, that I am correct in stating that we are in accord with the motives that inspired the practical and earnest philanthropists, who form the department of scientific Temperance Instruction in schools and colleges, of that noble organization, the Woman's Christian Temperance Union. We are heartily glad to know that through their energy and persistent effort, with the aid of the physicians and humanitarians, instruction in physiology and hygiene, including the nature and effects of alcoholic drinks and other narcotics, is now required by law in every state and territory of the United States, including Porto Rico and Hawaii. It is, I think, a fact worthy of mention, that the so-called medical, temperance education laws have incidentally brought into our public schools a systematic study of physiology and the laws of health. This subject previously was not regularly taught, or was pursued only in a fragmentary way in the higher schools. Now anatomy and physiology, with their applications to daily life, especially in relation to food, drink, clothing, exercise, etc., are taught even to the youngest children in the lower classes, and continued right up to the high school. The effect of this great educational movement, quite aside from its bearing upon the use of alcohol and tobacco, has been to greatly extend popular hygienic and physiologic knowledge. The result must inevitably be to lead to improved personal hygiene, to a steadily growing sentiment in favor of public sanitation and to popularization of sanitary science. When the public, for instance, is acquainted with the dependent relation of cholera, typhoid fever, dysentery and other diseases upon the drinking of infected water, they will more readily follow the advice of the health boards to boil their drinking water in times of an epidemic. It will also be more easy to keep our large cities in good sanitary condition, when the public is sufficiently intelligent and sufficiently informed upon the subject of the cause of filth diseases, to co-operate with the health officers in removing such causes, and keeping their premises clean.

I am, you may observe, something of an enthusiast upon this subject of instructing the people, and especially the children, upon the causes of health and disease—how to gain the former and avoid the latter. This, in my opinion, is the most important teaching that could be given to them in early life, and one that is sure to be followed by the most beneficial results. I am glad to observe that this opinion is gaining recognition elsewhere. For instance a petition has been recently signed by more than 16,000 physicians of England requesting Parliament to inaugurate compulsory systematic instruction in the schools of Great Britain, in the requirements of health, including the nature and effects of alcoholic drinks, by laws similar to those in force in this country. The success of such legislation and instruction in our own country has been quoted as a precedent and a powerful argument for introducing such teaching into the schools of Great Britain.

MRS. E. J. BONER, Sandy Valley, Pa.

Reynoldsville P. H. C. Banquet.

The Leader man and his better half had the pleasure of attending a banquet at Reynoldsville last Monday night, which was given by the P. H. C. of that progressive little city. There were about 200 present, and all enjoyed themselves to the utmost until after 12 o'clock. The P. H. C. of Reynoldsville is a strong organization, the Circle numbering about 175 members, and still growing.—New Bethlehem Leader.

Ladies' Skirts.

Shoes for the whole family at Millirens.

WISHAW BREVITIES

THE REVIVAL OF PARAMOUNT INTEREST.

Alexander Josnay had a Lesson in the School of Experience—Personal Mention.

The evangelistic meetings which have been in progress more than four weeks in our town are still going on and the probabilities are that they will continue the rest of this week and possibly longer. They have been a grand, glorious success and Revs. McClure and Godewin deserve credit for the vast amount of good work that they, with God's help, have accomplished. Fifty persons have given their hearts to God and it is hoped that many more will turn their backs on sin before the meetings close. Many of the converts are young people but there is also a large number of the older people who have sought Christ and found Him. Rev. McClure had intended to close the meeting Sunday night, but he found out that his work had not been completed, so he has decided to stay until God says to him: "Well done, thou good and faithful servant."

Alexander Josnay, one of Miss Dougherty's pupils, accidentally fell from a sled last week and the sled ran over his left foot, but he was not seriously hurt. It is a wonder that more children who disobey their parents and teachers do not get hurt for some are daring enough to try to jump onto a sled if it were running at the rate of a mile a minute.

S. E. Shankle moved his family to Clarion county last week. We are sorry that they have moved out of our town for they were good neighbors and a credit to our town, but our loss will be the gain of others.

John Welling, our village blacksmith, has moved his family into the house vacated by Shankle's.

The prevailing melody in Wishaw is: She's my sweetheart, I'm her beau; She's my Annie, I'm her Joe.

Glendale.

Felix Smith has purchased a fine team of colts.

The Perrin Brothers have a fine lot of lumber piled up in our village.

Scott Moore is home from North Fork, where he has been working.

L. W. and V. L. Moore expect a car load of lime from Oak Ridge this week.

Our supervisor, Hugh Saoddy, made a trip through our village the past week.

It has been very soft weather the past week but we still have plenty of sleighing.

Our school is progressing nicely under the supervision of Miss Mabelle Dougherty.

Mr. and Mrs. P. A. Moore spent Sunday with Mrs. Moore's ather and mother at Warsaw.

We hear that some of the grangers from Hornstown expect to attend Pomona Grange at Brookville this week.

We have the R. F. D. route now, why not organize a telephone company and be ready to build the line in the spring?

We understand there will be a lecture given in the Hornstown Grange hall, by a state speaker on Thursday evening, March 18, free to all.

"Gum Boots."

We have a good solid gum boot, no patched or seconds, but solid, well built boot we're selling for \$3.00 Bing-Stoke Co.

See the new shirt waist silks at Millirens.

"If a boy meet a boy" badly dressed, you can make up your mind he does not wear Widow Jones clothes. Send him to Bing-Stoke Co.

Practical Carpet Weaving

GUARANTEE SATISFACTION.

With the spring time most people have a carpet to be woven. Now I have been here for the last six years and still ready to weave your carpets inside of a week's notice. The prices are lower than ever before. These prices are for both weaving and chain:

1-2 pound of chain to the square yard, or 12 threads to the inch, 21 cents.
9 oz. of chain to the square yard or 13-13 threads to the inch, 23 cents.
10 oz. of chain to the square yard or 15 threads to the inch, 23 cents.
3-4 pound of chain to the square yard or 18 threads to the inch, 26 cents.
1 pound of chain to the square yard, or 24 threads to the inch, 31 cents.
When you furnish the chain I charge ten cents a yard for weaving.

The chain I keep on hand is of the best kind—all of the five ply. If I should have to buy my chain retail I would not be able to give you these low prices, but I buy it in five hundred pound lots or more, and if the price of cotton should go down I will give you the benefit of it.

And if the price is 20 yards or more will make it to order and to fit your room at the above prices per square yard, and for out of town people will pay freight one way.

Please call and see my work, or send for samples of chain.

I have a few hundred yards of good Carpet for sale very cheap.

TEOFEEL DEMAY

One door east of Borough Hall. Box 358. West Reynoldsville, Pa.

MILLIRENS

BUTTERICK PATTERN DEPARTMENT.

Greatest Department Store in Jefferson County

Spring Wearing Apparel for Women!

Tan Covert Coats Rule for Spring.

TO BE SURE black chevots and broadcloths are good—but the trig English tan and olive are firmly entrenched in first place. Nothing else so beautifully sets off good tailoring, nothing so well becomes the average woman. The fact that covert jackets can be had for five dollars (or less) does not lessen the charm of a finer one at eighteen.

\$5.00, 6.00, 7.00, 8.00, 10.00, 12.00, \$18.00.

In 21, 24, 27 and 32 inch lengths. Loose-fitting and tight-fitting effects—silk lined and finely tailored. See the display.
