—The Big Store—

A few suggestions with regard to your Easter requirements may help you to secure the newest and most appropriate things for the season. In accordance with the methods which have always characterized THE BIG STORE, we have been consistently on the alert to secure for you the very best merchandise and styles only that have been accepted and approved by the American woman. A very important feature of all is this: That we can furnish you this merchandise as cheap, and in many cases much cheaper, than for which you usually buy a very much inferior class of merchandise. In providing for your Easter wants we have been particularly active in these lines:

Your Easter Gloves, Neckwear, Ribbons, also Handkerchieves, Umbrellas and Hosiery; Trimmings, Laces and Embroideries; Muslin Underwear, Corsets and Hair Ornaments; Silk and Mohair Shirt Waist Suits, Skirts and Jackets.

Easter Gloves

We think we are very conservative when we say that we can safely guarantee to you the best \$1.00 and \$1.50 Kid Glove manufactured to-day. We have these in all the good colors but we find this season the leading shades are Tan, Brown, Mode, The New Parrots and Black and white. Our F. W. L. all sizes, \$1.00; Larome, all sizes, \$1.50.

Neckwear

The variety in neckwear is so great that it would be useless to attempt to describe it. Our assortment in colors, mixed and plain, and styles is complete ranging from 5c to \$1.00.

Ribbons

Our standing in Ribbons is too well known to you to need any particular mention. We desire to say that never in the history of our business have we been able to show such splendid values and our stock is now complete in colors, etc.

Handkerchieves

We carry at all times a strong line of Ladies' and Children's Handkerchiefs in plain and with embroidery and lace trimmed from nainsook to the finest linen and Swiss, ranging from 5c to 50c.

Umbrellas

We have just received a beautiful line of Colored Umbrellas at \$2.00 each. These come in blue, green, brown, red, and black and is exactly the same Umbrella that was on the market last year at \$3.25. We have bought heavily in the cleaning up of a manufacturers line and have a concession which interested us and consequently we are offering same to you. This simply means a saving of \$1.25 to you on each Umbrella. We have a complete line of Umbrellas ranging from 50c to \$5.00.

Shirt Waist Suits, Skirts and Jackets.

Early in the season we predicted that this is to be a season for Shirt Waist Suits, Skirts and Jackets. Others who bought from less reliable manufacturers loaded up on suits and other lines only to carry over or get rid of in some way as best they could. Everybody knows too well what the season's demands are to need mention that as usual we buy only what American Women want. We are receiving garments every day. If you have not already bought one do not delay too long. We know you are not any more fond of being disappointed in getting what you want than we are. The newest things are the Accordian and the Knife pleated Skirts. See them

Muslin Underwear and Corsets.

We have so often demonstrated the superiority of these lines that all we deem necessary to say is our lines are better than ever. The styles are new and attractive, the quality is the best that can be produced and the workmanship highest class. We want to invite your attention especially to our Ultra-Bust-American-Lady Corsets \$1.00. We have also this season extra size corsets in American Lady, same price, \$1.00.

Hosiery

Here is the most important Hosiery news of the season. We tell of an assortment wide and varied—all of the newest stocking ideas—including silk, Lisle, Lace and Gauze. In fact all kinds for Women and Children, from 10 cents to 25.

Trimmings, Laces and Embroideries.

These lines mentioned are also well known to need particular mention. They are now complete, consisting of all the best things used this season. These are all at popular prices. Inspect them if interested.

Glendale.

Samuel Kiehl is driving Perrin's new team.

L. W. Perrin bought a new team of horses.

Have March and April changed places?

Misses Lucy and Bessie Perrin were in Glendale last week.

Mrs. Minnie Long, of Halton, is visiting relatives in Glendale.

Felix Smith has bought the old homestead, his grandfather's farm.

The surprise party for Scott was well attended. Fifty or more young people were present.

We are informed that there will be an Easter social at the grange hall in Hornstown on Saturday evening, 22nd.

We were delighted to see the new railing at the wash-out near the Horn run bridge. It may be the means of saving some persons' life.

Mrs. Annie Larimer, of Richardsville, and Mrs. Ida Ross, of Beechwoods, were visiting their parents, Mr. and Mrs. J. R. Moore, in this place the past week.

The mumps are meandering through our village.

Bill Patterson, who has been employed at Emporium, is home.

John McPherson is expected home and will take charge of the new work at the Bloomington mines.

A summer term of school opens on May 24th under the auspices of Prof. Horner. Rathmel needs a summer school.

We are sorry to lose Warren Mohney, one of our congenial young chaps. He has secured employment near Pittsburg.

Some of the Big Soldier contingents were here the past week looking over our broad-shouldered and husky foot ball players to help in their game Saturday.

The base ball fans and cranks are nudging and blinking and bowing and seeming in friendly terms with everybody in order to procure enough money to get new uniforms. Rathmel will have a "cracker-jack" nine this summer.

James Brown, bartender of the new Hoghea Hotel, has gone to his home in Clearfield Co. for a vacation. Mr. Brown has been ailing for some time and we hope a rest will do him good. Dr. McGarran, his physician, has advised him to such a move.

Jim Thompson and Lowe Henry are plotting a bevy of anglers to the fastness of the trout lair, some fifty miles hence, where one has to look upwards to see the azure blue. The boys had some trouble to decide which one should be captain. Jim insisted on having that distinction on account of age and a wider experience, while Low contended by saying that it was his boast of burden that would have to convey the exhibits to their destination. Dutch Mike, the umpire, decided for Jim but also decided that the captain must carry all rods to and from the pools and fish caught.

On Friday of last week Prof. Geist, principal of our schools, closed one of the most successful terms in the history of our town. Never before have our schools been marked with such interest and advancement as with the term just closed, although with the coming of Prof. Wagner about six years ago, who was succeeded by Prof. C. M. Sinaffer and Prof. J. R. Wilson, all of whom contributed largely to the present welfare of our schools by such work as would lay the foundation for the culmination of the work that has so successfully been brought about by Prof. Geist during the last three years that he has been among us. On his last year's work he was assisted by Miss Stauffer in room No. 3, who for two years has been untiring in her efforts to make the school a decided success and who has proven herself to be an able and efficient teacher. She has been with us two years. Miss Phillippi, a student of our schools two years ago, had charge of room No. 2 and while in many ways this department may be considered as the most difficult to handle yet Miss Phillippi closed her school on last Tuesday with an entertainment that received the approval of all present. While in room No. 1, clustered about Miss Clouser, were no less than eighty primary scholars ranging in age from six to ten years. Miss Clouser has been with us for three terms and her work has been of such a character that would place her near the head of the line of primary teachers. We can only say that for the coming year we can ask nothing better of our directors than that they secure for us an efficient corps of teachers as the past have proven themselves to be.

Each season for fifty years there has been some improvement in Clothcraft Clothes.

Not alone in snappy stylishness but in mechanical detail. The Clothcraft clothing of today will outwear that of ten or five years ago, even though the cloth quality be the same.

The Clothcrafters study all the while to give permanence to the shape—to strengthen the strain points so there will be no stretch or sag.

There is doubt whether the 1905 Clothcraft product can be improved. It seems as though perfection has been reached.

Clothes made by the highest priced tailors of New York and London have been dissected and every good feature reproduced. To these have been added some new features—made exclusive by United States patents.

When you wear Clothcraft you are well dressed no matter where you choose to go. There is nothing better in style—in fit—in wear.
