Judge Reed's Reply to Slanderous

To the Public:-The reports that I own stock, or that am in some way interested in a certain brewing company in this county, and that I have received or authorized mother to receive money for the granting or refusing of liquor licenses, are being maliciously and persistently circulated by those who are opposing my candidacy. I denounce these, as well as all other reports affecting my honesty and integrity on the bench, as absolutey and unqualifiedly false. It is rather numiliating to be compelled to reply to these malicious falsehoods, but for the good name of the county, as well as in defense of my own honor as a man, I deem it both necessary and proper to

It it can be proved to the satisfaction of any Ministerial Association within this county that I ever was, either directly or indirectly, interested in the liquor business in any way, or that I ever received, or ever authorized any other person to receive, any money, goods, or other thing of value, for the granting or refusing of any liquor license, or for the performance or nonperformance of any other act or duty on the Bench, I will immediately resign my position and withdraw my candidacy from before the people. Moreover, l will pay all expenses connected with proving any of the above mentioned harges.

This proposition shall hold good until the November election of the present JOHN W. REED.

Should be Stocked

There is a nice little artificial lake between Wishaw and Reynoldsville used as a reservoir by the R. P. Coal & fron Company, that ought to be stocked with calico bass. As the water is used or boilers, no sulphur water from the mines is permitted to run into it, and it would appear to be an ideal place for any sort of fish suited to a small lake. semebody would assume the responsibillty of stocking it and looking after it, we would be glad to make an effort to secure the necessary fry for the purpose.-Punxsutawney Spirit.
