

Some manufacturers rely on beautiful fashion-plates to sell their clothing. Somehow a customer is always disappointed when he tries on their suits—there's such a difference between the fashion-plate and the looks of the suit after he gets it on.

The fact is, any manufacturer can get fine pictures of clothing, if he's willing to pay for them.

But making the clothes live up to the pictures is another thing.

All the illustrations of Clothcraft Clothes are drawn directly from living models clad in the actual garments. They are practically as exact as photographic reproductions. When you try on a Clothcraft suit, instead of being disappointed you're pleasantly surprised to find it looks as well on you as in the illustration.

Try it—with one of these Harvard or Yale Clothcraft Overcoats—the Harvard for conservative business wear—the Yale for an all-round, stylish outer-garment. Guaranteed pure wool, in plain blacks, and blues, oxfords, and fancy cloths—\$10 to \$30.

### SUNDAY LAWS OF PENNSYLVANIA.

Digest of Acts of Assembly Relating to Sunday Observance Published by the Educational Committee of the Law and Order League of Reynoldsville.

This is the first of a series of articles to be published by the Educational Committee of the Law and Order League of Reynoldsville, for the benefit of the reading public. People sometimes violate the law not because they have any desire to do so, but because they do not know what the law is. The object of these articles is to furnish them this information. This copy of our Sunday laws was furnished the committee through the courtesy of Attorney M. M. Davis.

Provided always, that nothing herein contained shall be construed to prohibit the dressing of victuals in private families, bake-houses, lodging-houses, inns and other houses of entertainment, for the use of sojourners, travellers or strangers, or to hinder watermen from landing their passengers, or ferry-men from carrying over the water travellers or persons removing with their families on the Lord's day, commonly called

# COLE'S HOT BLAST

## Wonderful Heater and Fuel Saver

For Soft Coal, Lignite or Hard Coal

Cost of Stove Saved in Fuel

As you know one-half of soft coal is gas—the entire gas supply for many cities and towns being made from the same kind of soft coal you are using. The extent of unburned gases in hard coal is shown by opening the magazine cover of a base burner when the extra oxygen supplied fills the entire stove with flaming gas. Other stoves allow this gas, which is the best part of the coal, also a large part of the heat, to pass up the chimney. This waste will average from \$10.00 to \$50.00 a year for every family and millions of dollars in fuel are thus wasted annually.

### The Original Cole's Hot Blast Stove

Saves All Wasted with Other Stoves

Cole's Original Hot Blast, by means of the Patented Hot Blast draft used in connection with other patented features, distills this gas from the upper surface of the coal, utilizing it as a heat producer along with the fixed carbon or coke in the coal.

On account of the patented air tight and gas tight construction giving perfect control over the drafts, it also saves the heat usually wasted up the chimney. \$5.00 worth of hard coal, soft coal or lignite, or a \$1.50 ton of slack or coal siftings is thus made to do the work of twice the amount of fuel in other stoves and the cost of the stove is more than saved in fuel each winter. \$7.50 worth of slack will heat your house all winter, five tons at \$1.50 a ton does the work.

### Build only One Fire a Winter

Cole's Hot Blast is so perfect in construction that fire keeps all night, and when the draft is opened in the morning will burn two or three hours with the hard coal or soft coal put in the night before. No other stove does this. Fire, therefore, never goes out, kindling fires is dispensed with, and the rooms are kept at an even temperature all the time.

Read the Guarantee. We are the exclusive agents for Cole's Original Hot Blast and sell it on the accompanying guarantee which cannot be made on any other heating stove in the world. If you want to save half your fuel bill and would enjoy the luxury of getting up in a warm house on cold winter mornings without kindling fires, buy Cole's Original Hot Blast now.

### Avoid Imitations

Imitations of this Original Hot Blast are many. None of them has the absolutely air-tight and gas-tight construction through-out which Cole's Hot Blast has by reason of its numerous patents. A Patented Steel Collar connects the elbow draft to the stove body and cannot open by action of the fiercest heat. The Patented Compound Hinge on the lower draft cannot warp, and the draft door closes air-tight by its own weight. The guaranteed Smoke-proof Feed Door prevents smoke, dust or gas escaping when fuel is put in the stove.

Imitations soon open seams and cracks which spoil them for keeping fire and cause the gas half of the coal and much of the heat to escape up the chimney.

See the name "Cole's Hot Blast from Chicago" on the feed door of our stove. None genuine without it.

Ask to see the patented dustless ash cover for removing ashes. Our method is the only clean way.
