### FEEDING STUFFS CONTROL.

Notice of Importance to Feed Dealers.—Rice Hulls Used to Adulterate Cattle Foods.

Attention is respectfully called to the fact that quite recently we have found that rice hulls are used in Pennsylvania to adulterate feeding stuffs.

Rice hulls are of very inferior value, containing nearly 40 per cent. of woody fiber and a large amount of silica or sand. The outer surface of the hull is harsh and rasping, while the edges carry sharp projections which have a tendency to irritate the digestive tracts of animals, and if fed in quantities may cause their death. Rice hulls are, therefore, of little value as a food, detrimental to the health of farm animals and sometimes even dangerous to their lives. So far, rice hulls have been found as an adulterant of wheat bran only, but they may find their way into mixed feeds and standard goods. Every dealer should be on his guard against this grossly fraudulent practice, and for the sake of his reputation should refuse to handle rice hulls or any feed which is adulterated with the same. In buying feeds from the manufacturer or jobber, the dealer should be sure that the amount of protein and fat is guaranteed, and also should demand a written guarantee that the material is not adulterated in any manner. Every feed dealer in the state should value his reputation. He is responsible for selling adulterated goods and for any injurious effects caused by feeding materials which he handles.

This department hopes for the co-operation of dealers to the end that the best results may be secured and the quality of our feeding stuffs may be improved.

### Extension of Shawmut Sure Thing.

Further demonstrating that the Record is not trying to build the extension of the Shawmut railroad through this place on paper is being made by the activity of a large force of civil engineers who arrived in this place last Friday. The room below the Bond & Cooper building, next to the B. R. & P. railroad, was leased for a year by the chief of the surveyors and the place is being fitted up for a supply and general drafting room. Already the work of running lines for the grading of the extension is being pushed forward and the corps will be kept on this end of the line until all details are completed. It is not stated just when the construction work will be started, but reliable authority states that it will be commenced in a few weeks. The work of the extension will probably be done under contract as several contractors are already preparing estimates covering the extension between Hydes and Brookville. It is good news to the people of this section that the extension of the Shawmut is now past the stage of uncertainty.—Brookwayville Record.

At least ninety-nine per cent. of the things which worry and perplex the average human being are not worth a thought, much less the loss of a moment's peace of mind. It is the nature of some people to fuss and fume and work themselves into a frenzy every now and then and they are bound to do it, cause or no cause. When people get angry it is usually about nothing. When they quarrel it is almost invariably concerning absolutely inconsequential matters. Selfishness and jealousy are at the bottom of most human woes, and these piggy traits feed entirely on imaginary wrongs.—Punxsutawney Spirit.

### MUZZLE YOUR DOG.

Burgess Gourley Has Issued a Notice that All Dogs Must be Muzzled Sixty Days.

Owing to the fact that a mad dog ran our streets on Tuesday morning of last week, biting six children, and no one knows how many dogs it bit, Burgess L. L. Gourley and President of Council Dr. J. C. Sayers have issued a circular notifying all persons owning, keeping or harboring a dog or dogs, within the limits of Reynoldsville borough, to immediately muzzle or shut up such dog, or dogs, for a period of sixty days from date of the notice, Dec. 9.

Considering the great danger people are exposed to and how helpless they are, especially children, when a mad dog runs our streets, every owner of a dog should be willing to muzzle his dog for the time specified, sixty days, without being compelled to do so. One human life is of more value than all the dogs in Reynoldsville and community, especially if it is a member of your family. It is to be hoped that there is not an owner of a dog in Reynoldsville that has so little regard for his neighbors and his children as to refuse to muzzle his dog for two months. Even if a person is bitten and the Pasteur treatment is a success, it is a very severe and expensive treatment. The treatment alone, without the expense of getting the patient to and from Pittsburgh, costs from \$125.00 to \$150.00.

### Clerical Orders for 1906.

Pursuant to its usual custom, the Pennsylvania Railroad Company will issue clerical orders for the year 1906 to ordained clergymen having regular charge as settled pastors of churches located on or near its lines. Clergymen desiring such orders should make individual application for same on blanks furnished by the Company and which can now be obtained from the Ticket Agents. Applications should be sent to the General Office of the Company as soon as possible, in no case later than December 15, so that orders may be mailed by December 30, to all clergymen entitled to receive them.
