The High School Bulletin

EDITOR-IN-CHIEF, MAUDE PRATT.

Last Wednesday morning Dr. J. A. Parsons conducted the chapel exercises and gave a very interesting address on "Our Blessings." He especially emphasized the advantages of the public schools in the United States and particularly in Pennsylvania, and compared them with the school system of Canada.

Rev. C. H. Fitzwilliam, pastor of the Baptist church of Punsutawney, visited our schools on Friday. After conducting the devotional exercises he gave a very entertaining talk in which he gave our schools high compliment by saying that they excelled those of Punsutawney in every respect. He spoke strongly in favor of literary work in the schools, saying that the average person received more good from the practice in public speaking, which he obtained by this means than from any other single branch of study.

To the girls of the Sophomore and Junior grades: Girls, the gymnasium is open on Tuesday and Friday afternoons from four to six for your benefit. Don't get discouraged and forget to come for some day you may be "forwards" too.

One of the Sophomores and one of the Junior girls had quite a lengthy argument last week on, "Is he going or coming?" It was hard to tell for he worked both ways.

In order to better the literary work of the high school, Prof. Scott called for a meeting of the Juniors and Seniors separate from the other classes of the high school last Friday. He appealed to the students for a better class of literary work and asked for suggestions. Suggestions were offered that the productions be submitted to the faculty before being given; that all in the school be required to serve, and that the audience give better attention to the performers.

A large piece of plaster from the lower hall ceiling fell just in front of the seniors at dismissal Wednesday afternoon. Happily no one was injured, although a certain Junior girl's vocabulary was sadly overwrought.

If it were not for the penalty they would never have learned "Thanatopsis."

Wednesday, January 24th, is Parents' and Patrons' Day at the schools. Every one interested in the work of the schools is urged to be present.

Clug dancing seems to be quite an amusement lately with the Juniors.

In a recent fire one of the Sophomores proved himself quite a hero.

Soap and water must be scarce at the homes of some of the Freshies.

The Freshies are very much worried over their mid-term exams, studying night and day.

The present attendance of the schools exceeds all other records. Over 700 pupils are enrolled, making, with the addition of the teachers, over 775 employed in school work.

Exams on hand this week.

One of the seniors comes to school in a canal boat.

Nearly \$75.00 was deposited in the school savings bank on Monday.

State Laboratory.

Commissioner of Health, Samuel C. Dixon, has decided to establish as soon as possible in connection with the Department, a bacteriological and chemical laboratory. This will enable the physicians of the State and especially those in the rural districts to take advantage of the most advanced methods of diagnosing their cases by having blood counts made by examinations for the micro-organisms that produce tuberculosis, diphtheria, typhoid fever, malaria and other diseases.

The Health Commissioner states that he will get the new laboratory in operation and be ready to receive specimens from the physicians of the State at as early a date as possible, as he appreciates the wonderful opportunity for more thorough work that will be afforded medical practitioners.

For Sale.

One hundred fine residence lots on Fourth street, on easy terms to suit the purchaser. City gas and water can be had. Most beautiful residence street in town. Close to business center. Inquire of D. Wheeler, Reynoldsville, Pa.

The State Department of Health will be able to make its own examinations of water when trying to find the original source of infection in the typhoid outbreaks that are so frequent throughout the State and in many other ways the new laboratory will be of assistance to the Commissioner and the physicians of the State in improving the health of the people.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in. This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way. Two sizes, 25c and 75c. All druggists.
