VALUE OF SEAWEEDS.

The Use of Irish Moss as a Food and a Medicine.

Irish moss is used as a foundation for many desserts in the dietary kitchens where special dishes are prepared for invalids. An authority on the question of seaweeds states that scurvy, the dread of sailors, caused by the absence of potash in the salt meat which forms a part of every ship's provisions, would be ameliorated by the liberal use of sea moss jelly, which is rich in potash. Irish moss has always a place in the medicine chest of the old fashioned housewife, who pins her faith to its healing properties for colds, sore throats, etc. On the coast where the moss is gathered and also in the majority of Irish families the moss is boiled, strained, boiled again with lemon juice and sugar, until it is of the consistency of sirup. It is taken hot, a teaspoonful at a time, and is said to be a very good remedy for the maladies referred to. The Indians use the ashes of seaweed for granular swellings. It is also used by the Chinese, and so highly is it prized by them both as a medicine and a food that it is gathered in some parts of the Pacific coast, principally at Monterey, and sent back to China.

The supply of seaweed of every description seems inexhaustible, as that pulled or reaped from the rocks is replaced by another and a more luxuriant growth the following year. On the Atlantic coast it is harvested only during the months from June to August, but at Monterey it is gathered every day all the year around.—Leslie's Weekly.

CELERY KING

NATURE'S CURE

A Girl's Experience.

My daughter's nerves were terribly out of order. She was thin and weak; the least noise started her, and she was wakeful at night. Before she had taken one package of Celery King the change in her was so great that she could hardly be taken for the same girl. She is rapidly growing well and strong, her complexion is perfect, and she sleeps well every night.—Mrs. Lucy McSutt, Brush Valley, Pa.

Celery King not only strengthens the nerves, it makes perfect complexions.

CONSUMPTION'S WARNING

Inside facts soon become evident in outside symptoms.—DR. G. G. GREEN.

The aid of scientific inventions is not needed to determine whether your lungs are affected. The first symptoms can be readily noted by anyone of average intelligence.

There is no disease known that gives so many plain warnings of its approach as consumption, and no serious disease that can be so quickly reached and checked, if the medicine used is Dr. Roschke's German Syrup, which is made to cure consumption.

It is in the early stages that German Syrup should be taken, when warnings are given in the cough that won't quit, the congestion of the bronchial tubes and the gradual weakening of the lungs, accompanied by frequent expectoration.

But no matter how deep-seated your cough, even if dread consumption has already attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble.

New trial bottles, 25c. Regular size, 75c. At all druggists.

SLOT MACHINES.

They Were Used During the Time and Reign of Rameses.

A correspondent of the Boston Herald writes: "It is true there are few things new under the sun, 'Air beds,' or what we call pneumatic beds, were used by the Romans before the Christian era. The most remarkable duplication of an old invention is the nickel-in-the-slot machine. This was first used during the time and reign of Rameses, in the eighteenth dynasty of Egypt, for the purpose of supplying holy water, that which had been blessed by the priests, to the people who desired it. The machine was urn shaped, with a small cylinder inside, through which ran a rod connecting a valve at the bottom of the cylinder with one at the top. These were operated by a lever, which closed the bottom valve while opening that at the top, when the cylinder would fill with a fixed amount of water. To obtain the water a cup was placed at the outlet; a coin of three drachmas, equal to about 75 cents of our money, was dropped into the 'slot' on to a scale pan in the end of the lever. This opened the cylinder at the top and closed the lower valve, allowing the coin to slide off, the weight of water causing the top valve, opening the lower one and allowing the water to run into the cup. This is the basis of all patented slot machines of the present time and dates back to nearly 3,000 B. C."

HOW TIMES HAVE CHANGED

The "Custom made" shoe is almost obsolete to-day. Who thinks of getting a shoe built to order in this age of recognized shoe science? CLOTHCRAFT occupies the identical position in clothingdom; it is to the exclusive shop, what the modern shoe is to the one time shoe-maker.

If every man realized the service and economy merits of CLOTHCRAFT there would be no reason for the excuse to pay fabulous prices for clothes, but the country is big and large bodies move slowly. Clothing with character and without the "reputation" tax, are instantly recognized in CLOTHCRAFT garments.

Think what fifty years of conscientious clothes study and clothes betterment means to wearers of CLOTHCRAFT CLOTHES, from the first stroke of the designer's chalk to the last press of the iron, a chain of critical scrutinies has developed an excellence that leaves clothing buyers practically without a second choice—they know they're safe.

CLOTHCRAFT CLOTHES represent fifty years of progress and you receive the full benefit of this great development.

The advantage of buying CLOTHCRAFT CLOTHES is all in the clothes not in the habit; the CLOTHCRAFT label is clothing insurance—the assurance that "all wool" doesn't travel in shoddy company.

WANTED

GIRLS TO LEARN WINDING AND QUILLING. GOOD WAGES PAID. THE ENTERPRISE SILK COMPANY.

Limited Bathing.

Dr. Somerville Hastings, lecturing at the London Institute of Hygiene on "Cleanliness is Next to Godliness," said that people were much cleaner now than in the reigns of Queen Mary and Elizabeth, when the washing of clothes was unknown. Cotton was hardly in use, and linen was expensive. The poor wore rough woolen garments, which were never washed, and the better classes adorned themselves with silks and velvets, which were dyed when they would no longer pass muster in regard to cleanliness. It is recorded, continued Dr. Hastings, that James I. never washed either hands or face during the period he posed as the wisest fool in Christendom, but confined his cleanliness within the narrow limits of wiping his finger tips upon a damp napkin.—London Telegraph.

Fishing For Sheep.

When sheep were first introduced into Cornwall, England, a flock which had strayed from the uplands on to Gwithian sands were caught there by the tide and ultimately carried into St. Ives bay during the night. There the floating flock was observed from the St. Ives fishing boats, whose crews, never having seen sheep, took them for some new kind of fish and did their best to secure them both by hooks and lines and by netting. Those they secured they brought home triumphantly next morning as a catch to which even pilchards were as nothing.

The Servian Swineherd.

In any Servian village there is only one swineherd, and he lends all the pigs of the community. In the morning he goes through the streets blowing his horn, and the pigs come out of their own accord and fall in behind him and follow him to the pasture. At night he brings them home, and they disperse to their sties in the same orderly way as they pass the houses to which they belong. They require no attention and no stinging out.

Puzzled.

"Are you the proprietor of this restaurant?" said the man who had waited for his order until he became sleepy. "Yes, sir. What can I do for you?" "You can give me some information. I want to know whether you have told the waiter to stay away so that you can bring in a bill for lodgings against me?"

Did His Share.
"Every human being should do his share toward uplifting the masses of his fellow men."
"Well, I did my share. I ran an elevator seven years."

It is easy to make acquaintances, but difficult to shake them off.—Washington.

\$30,000.00

STEEL PLANT GOLD BONDS

First Mortgage. Six Per Cent Bonds. Payable in Gold.
Dated Dec. 1, 1905. Interest payable June 1, Dec. 1.

FIRST NATIONAL BANK, Reynoldsville, Pa. PEOPLES NATIONAL BANK, Reynoldsville, Pa.
—AND—
C. F. DICKINSON, Westinghouse Building, Pittsburg, Pa.

We own and offer (in amounts to suit purchasers) the best industrial security ever offered to the investors of this community.

The controlling interest in Reynoldsville's new "STEEL PLANT" has recently been purchased by Pittsburg people who are old in the successful management of large iron and steel properties.

Necessary additions are being made to the equipment, and new and heavy machinery is being added. Upon completion of these improvements a full line of Alligator Shears, Cold Saws, Rolling-Mill and Contractors' Machinery will be extensively manufactured at the Company's works, and sold from their Pittsburg offices.

The assets of the Company as re-equipped will stand at \$120,000.00 in round figures, against which the \$30,000.00 of First Mortgage bonds are the first and prior lien.

The Company has issued \$30,000.00 six per cent First Mortgage Gold Bonds in denomination of \$100.00, \$200.00, \$500.00 and \$1,000.00 each and we, the undersigned, have purchased a very large proportion of the entire issue.

The semi-annual interest, at the rate of six per centum, is payable on June 1st and December 1st of each year, at The Peoples National Bank, Reynoldsville, Pa.

These bonds are a first and prior lien on all of the real estate, buildings, machinery, equipments, franchises, property and revenues of the American Production Company, and a special condition in the mortgage provides that bonds to the amount of \$2,500.00 shall be retired every year, after the first two years.

LEGALITY

These bonds have been issued under the supervision and advice of the following attorneys, viz: Messrs. Charles Corbett, of Brookville, Pa., Weil & Thorp, of Pittsburg, Pa., and G. M. McDonald, of Reynoldsville, Pa.; any of whom can vouch for the binding validity of these securities.

The undersigned being personally acquainted with the "STEEL PLANT" property, consider these bonds as the best of the kind ever offered in this community, and recommend them as a safe investment.

Prompt subscriptions for bonds in amounts from \$100.00 up will be received by the undersigned at the price of par and accrued interest. Allotments will be made as subscriptions are received, the right being reserved to cease the allotment at any time.
