

"PE-RU-NA WORKED SIMPLY MARVELOUS"

Suffered Severely

With Headaches--Unable to Work.

Miss Lucy V. McGivney, 452 3rd Ave., Brooklyn, N. Y., writes:

"For many months I suffered severely from headaches and pains in the side and back, sometimes being unable to attend to my daily work,
"I am better, now, thanks to Peruna, and am as active as ever and have no more headaches. no more headaches.
"The way Peruna worked in my

was simply marvelous."

We have in our file many grateful let-ters from women who have suffered with the symptoms named above. Lack of space prevents our giving more than one testimonial here.

It is impossible to even approximate the great amount of suffering which Peruna has relieved, or the number of women who have been restored to health and strength by its faithful use.

'From the cradle to the baby chair' have you a baby? If so, you ought to have a PHOENIX WALKING CHAIR

(PATENTED) "AN IDEAL SELF-INSTRUCTOR." OUR PHOENIX Walking Chair holds the child securely, preventing those painful falls and bumps which are so frequent when baby learns to walk.

"BETTER THAN A HUBSE."
The chair is provided with a resupports the weight of the child and prevents bow-legs and spinal troubles; it also has a table attach-ment which enables bady to find ement in its toys, etc., with-

Indispensable as a cradie." It is so constructed that it prevents soiled clothes, sickness from drafts and floor germs, and is recommended by physicians and endorsed by both mother and baby. Combines pleasure and utility. No baby should be without one. Call at your furniture dealer

All Tangled Up Again. Mr. Makinbrakes had been introced to a political celebrity and was expressing his sense of the hon-

or, says the Chicago Tribune. "I am highly pleased to meet you, ". Tagg," he said. "The moment I saw you I recognized you from the caricatures I have seen of you so ofen-that is, of course-I don't intend to convey the idea-or, rather-they were meant to be caricatures, you but-a public man, as a matter of fact, can't escape that sort of thing-especially when the resem-blance is so striking that—that anyody can see not that they looked like you at all, you understand-but these artists, you know, are so clever that they can make a hideous picture look just like you, and-and scarcely seem to-er-change your features a particle, and that is why-you get my meaning. I am sure—in short, to sum it all up in a word, as I said before-what do you think is going o be the outcome of this rate regulation bill, Mr. Tagg?

Bones 2000 Years Old.

An interesting archaeological disovery was recently made at Leagrave, near Laton, England, by the unearthing of two skeletons, esti-mated to be quite 2,000 years old. Beside the bones were also found a justify of bronze ornaments. The keletons are believed to be the renains of two females, dating back to late Celtic times, since the mode of burial was typical of that period. Both bodies, says the Scientific American, were in a doubled-up po-sition, with the head to the west, Some of the bones were in a re-markably good state of preservation, especially the skull and though much discolored by contact with the earth. The bodles were

Take Whisky.

During the court-martial at New ork of Maj. Price, of the Artillery orps, it came out that barkeepers re in the babit of keeping a fake whisky to give to those who have alady had too much stimulant. The arkeeper testified that this imitaon whisky was made of ginger ale and Jamaica ginger. If they would only go a little further and give this ake whisky to every man who houldn't touch liquor they would be cal benefactors to humanity.

Controlling Unruly Stock,

In my experience in handling all kinds of live stock I have learned several better ways of controlling and handling unruly and stubborn stock than resorting to whips and sticks. When a mule is down and refuses to get up, I simply clasp both hands firmly on his nostrils and mouth in such a way as to shut off his breath. This brings him to his feet every time and no marks are left as evidence of unhuman treatment. To prevent a cow from kicking, tie a rope or leather strap tightly around her body just in front of the udder. Turn a vicious or stubborn bull by a tap on the tip of the nose. This will also turn a bad boar or hog. A tight twist of the ear or nose will quiet the wildest mule.-E. W. Jones, in the Epitomist.

Poultry Notes.

A few fewls in separate pens are much more profitable and more easily kept healthy than in large numbers. In counting the cost of keeping poultry a good plan is to estimate one bushel of grain a year to each

Select the turkey hens wanted for breeding. The hens should not be kept after they are three years old. Giving a generous feed of corn every evening is in one of the best ways of inducing tunkers, ducks and

laving hen.

geese to come home at night. The main secret in securing eggs in winter is to supply good comfortable quarters, and keep the fowls in a

good, thrifty condition. Unless specially desired for breeders, hens that do not lay regularly should be marketed as soon as possible. It costs something to winter even a hen.-Epitomist.

Hog Vitality and Refinement.

Mr. Fuller, a close observer of breeding, warns breeders against lowering the vitality by refinement in breeding, and says:

"You cannot afford to sacrifice vitality, vigor and breeding qualities for the sake of refinement. A few of our brethren of the Poland-China fra ternity have found this a hard lesson to learn, but, happily, it has been learned in time to start a counter improvement, and the tendency of the Poland-China breeders of today is to produce the rangy, strong-boned prolific hog, instead of the little, chub by, weak-constitutioned creation of the hog artists' fancy that was predicted a few years ago by the compstitors of the breed. Breed for breeders, but don't forget meanwhile to breed for breeders. After all, type is largely the result of feed. Trans fer the Lark Yorkshire to the corn belt and feed it a corn ration for gen erations, and slowly but surely you change its characteristics to that of a lard hog."

Green Pasture for Hogs. If there is no convenient clover or

blue-grass pasture to which hogs can have access in the summer and autumn, excellent green pasture can be provided by sowing rape, which comes on quickly and may be pastured early or late, as it grows rapidly and continues growing after it is pastured down. Good hog growers very properly claim that hogs prepared for the fattening process good pasture will take on three pounds of flesh more from the same quantity of feed necessary and add one pound in cold weather to a hog that has been kept up in a pen,

The grass is cooling and laxative and contracts the heating qualities of the grain. Dairy slops, fruits and vegetables have the same beneficial effects as grass.

They with grass should form the priucipal summer diet of hogs, and with the worms and insects obtained in pasturing the hogs will sustain a healthy growth until the fattening process begins

Of course the summer pasture of the hog should have pienty of pure water and shaded damp ground to which the hogs can go to escape the heat when not feeding.-Indiana Farmer.

Pasture for Orchards.

It is by no means the field that has been cropped for years that is the best location on the farm for the orchard. That the fields in question have raised good crops by early fertilizing by no means indicates that they have sufficient virtue to furnish the fertility needed by trees. Usually they will, provided the soil is properly fertilized yearly, but unfortunately the general idea is to give the field one lot of fertilize at the time the tree is set and 1 it go at that; this method accounts for much of the trouble that results from setting orchards on fields that have been

under cultivation for many years, Now as to the pasture. If it has been used by the stock until they are unable to get anything more from it, naturally it will need considerable preparation to fit it for trees; if, on the other hand, it has been reseeded occasionally and is furnishing fair in mind.

character down Representative in my State," said Representative Richardson of Kentucky, "whose chief aim in life was the employment of synonyms. SAVED BABY LYON'S LIFE.

Awful Sight From That Dreadful Complaint, Infantile Eczems-Mother Praises Cuticura Remedies.

"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last rovering his whole body. His sufferings were untold and con-stant misery, in fact, there was nothing we would not have done to have given him relief. We finally procured a full set of the Cuticura Remedies, and in about three or four days he began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered. Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awind sight that I ever beheld prior to the treatment of the Cuti-cura Remedies. Mrs. Machelle Lyon, 1826 Appleton Ave., Parsons, Kan., July 18,1905.

Trying to Abolish Flics.

A prize of £600 has been awarded by the Paris Matin to the anonymous inventor of a new method of getting rid of houseflies. The method is strictly scientific, and, it is claimed, will completely destroy the eggs, which are usually deposited in drain pipes. Crude petrol mixed with water is used for household disin fecting purposes. The drain piper occome lined with the pil, which both kills the eggs already there and precludes the denosit of others When desired the petrol can be poured on fine soll and the latter sprink led in corners. This, it is said, i thoroughly efficacious in destroying the eggs. The operations should be carried out in the spring to obtain

KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.

Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. We believe Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for chronic kidney troubles of women, and is the only medicine especially prepared for

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes an uneasy, tired feeling in the region of the kidneys or notices a sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinklam's Vegetable Compound as it may be the means of saving her life.

For proof, read what Lydia E. Pink-ham's Vegetable Compound did for Mrs. Sawyer.

Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept gotting worse, until I was unable to do anything, and I made up iny mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to day a wall woman. I cannot praise is too highly, and I tell overy suffering woman about my case."

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company-California Fig Syrup Co.-printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name-" Syrup of Figs"-or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on ... sustomer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co .- printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
