Los Angeles Not Shaken.

It was reported that Los Angeles, Cal., was shaken and damaged by the earthquake at time San Francisco was destroyed, April 18th, but this report was not correct. We received a letter from J. G. Brenholt, of Los Angeles, brother of W. G. Brenholt, the Star Dairy milkman, of this place, and he says that city was not shaken, that the citizens were not even awakened by the earthquake. A picture of the business center of Los Angeles, taken after the earthquake, was enclosed in the letter, to show that the city had not been damaged.

Choose Your Paint Yourself

A man should take such precautions as he can to safeguard any investment he makes. A house owner's expense for painting is very often larger than it would be if he personally looked after the material put upon it. There is often a difference of three years in the wearing of two different paints. Certainly, in this case, time is money. If you will see that Pure White Lead mixed with Pure Linseed Oil is used on your house, you will place your painting bills on a reasonable basis. You can tell the pure lead from the adulterated kind by

STERLING Pure White Lead

(Made by the Old Dutch Process)

Manufactured for years and, as any experienced painter will tell you, the standard by which others are judged.
