CHAIRMAN LOCAL COM.

Drilling at Rockdale.

Rockdale is becoming quite prosperous. A diamond drill is being operated in the work of testing for coal. Those in charge of this, maintain a most marked secret about their operations, and this fact seems to warrant the belief held by the residents of that section that coal has been found and it will be but a short time before a shaft will be sunk. Another party of men are drilling for oil and are down about 400 feet. There is much reason to believe that the land is abundant with oil and those who are seeking for it will yet meet with success.—Brockwayville Record.

Letter from West Va.

MR. EDITOR:—Perhaps it would be interesting to some of your readers to hear from us about our trip, and some things we saw. We left Reynoldsville at 6:00 a. m., May 10th, our destination being May, West Va., 300 miles by rail from Pittsburg, Pa. The first thing to see was snow all the way to Echo station, B. R. & P. railroad. From there things changed very rapidly from winter to spring. Leaving Pittsburg at 1:15 p. m. for Cumberland, over the B. & O. R. R., we saw some very beautiful homes and scenery, the shade trees being in full leaf, fruit trees in bloom and everything showing the touch of spring time; also the hum of industry was in evidence everywhere along the way, no strikes or any trouble anywhere to be seen. In coming here we passed through fourteen tunnels of various lengths. There is some wonderful scenery between Cumberland and here. On reaching the divide at the head of Black River it is great. Looking up you can see hills a thousand feet high or more and looking down you can see the Black River rushing over its rocky black bottom from 3,000 to 4,000 feet below with nothing but air between you and certain destruction, but so far there has not been an accident there. This end of the road has only been completed about two years, so everything is new and no Sunday trains, no churches. Sunday is quiet and peaceful.

This company has a fine manufacturing plant, a band mill of sixty thousand capacity. They pay \$2.00 to \$7.00 per day, according to what a man's job is. This place is nearly fifteen hundred feet higher than Reynoldsville. Weather is nice and warm.

Yours truly,
N. CHITISTER.

FAME

BEHIND every fact lies a reason. When there are a multitude of shoes for women trying to be sold and one shoe far surpasses all others in volume of sales, there is a reason for it. This one shoe is "Queen Quality." Its fame is world-wide. It's sales double those of any other woman's shoe. This can't be alone because of price, as one pair will prove. We show one of the popular button Oxfords. As a Paris made glove fits the hand, so does this Oxford fit the foot. Priced at Three Dollars. But there are also many other styles of Oxfords at Two-Fifty, Three and Three-Fifty.
