Transported in Dry Goods Box.

There was a woman at the county home who had not had any clothing on for several years, for she would tear off all the clothing that was put on her. The woman would bite and claw like a wild animal and had become so violent that it was necessary to take her to Warren Asylum, but the commissioners were up against a dilemma. How to get her to Warren without clothing on, or how to get clothing on her, was the proposition for the commissioners to meet, for the woman had to be taken. County Commissioner McGaw got a large dry goods box, padded it with haps had the woman put into the box, strips nailed over the top and the woman was taken to Warren in the box. Dr. Balmer and wife accompanied Commissioner McGaw to Warren with the woman. The officials of the Warren hospital said it was the first time in the history of that institution that a patient had been brought to that hospital in a box.
