HABIT

Of doing good work does not allow them to throw in your work in any old shape in order to get your money. They do not let the pipes in your cellar hang down nor do they string up your pipes with rope and wire. We DON'T use the cheapest grade of nickel-plated pipe or valves. We could make more money by doing this kind of work, and we could do your work cheaper. But our habit and conscience would not allow us to do it. Besides, we expect to remain in business some time and we want our customers to say THAT OUR WORK HAS STOOD THE TEST OF TIME, and would be always glad to recommend us.
