Why He Rose.

Dr. Thomas E. Green has been on the Chautauqua platform for four seasons. He gave 36 lectures the summer of 1902, and 59 in 1903, while the only reason he didn't give a hundred in 1904 was the summer wasn't long enough. Why is this? How is it that Dr. Green has been able to take two steps at a time up the ladder? Well, he has had the strength and endurance, that's all. No one has given him a shove from behind nor a pull from in front.

He believes what he says, that is one thing—and he makes you believe it too, that is another. His fervor is so intense that he starts his audiences well on their way up those same heights of purpose to which he so earnestly aspires. "The Key to the Twentieth Century," "Civic Bacteriology" and "Left-Handed Men" are the titles of some of his lectures, all tending toward that which is best, all urging that higher patriotism which is so rarely found and so greatly prized. As Admiral Dewey says, "His ringing words are such that cannot fail to instill patriotism in the hearts of every one who hears him. At Assembly hall Monday evening, December 3rd.

An experienced teacher says that pupils who have access to newspapers at home, when compared with those who do not, are better readers, better spellers, better grammarians, better punctuators, and read more understandingly, and obtain a practical knowledge of geography in almost half the time it requires others. The newspaper is decidedly an important factor in modern life. This will not be disputed by any one who has taken the trouble to investigate the matter for himself.—Brookwayville Record.

Killed Two Deer.

James Hughes, of this place, and Edward Hughes, of Rathmel, went over into the wilds of Elk county last week to hunt deer. They arranged for at least a week's hunting. On Thursday, the day the deer season opened, Jim killed a deer and the following day Ed. killed a deer, and as the law only allows a hunter to kill one deer in a season, these hunters had reached the limit and they returned home Saturday, somewhat disappointed because they had been successful in each one killing a deer at first shot.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me to death's door when I began taking Dr. King's New Discovery for Consumption, with astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for sore Lungs, Coughs and colds, at Stoke & Feicht Drug Co. stores of Reynoldsville and Sykesville.
