That our Anarican forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical virtuers and teachers. Even the untu-tored Indians had discovered the useful-ness of many native plants before the advent of the white many. This informaadvent of the white race. This informa-tion, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

had falled.

0 0 0 t above mentioned medicines are de up from the glyceric extracts of sdicinal wors. The processes em-i their manufacture were original Pierce, and they are carried on by chemists and appliances specially d and built for this purpose. Both ines are entirely free from alcohol and ther harmful, habit-forming drugs. A list of their ingredients is printed on bottle-wrapper.

Jò Life in Frozen Seeds. eds, like "Sleeping Beauty," can ther for long years and then re-ken to life. Lieut. Greely, com-.ken der of the Lady Franklin bay ex-Evion, which sailed north in 1881, it seeds of various vegetables these were sown without at Fort Conger, 81 degrees 44 is north. The station was aban-in 1883. In 1899, 16 years lathe abandoned station was dis-C ed by Lieut. Peary. Among things he found a packet of radseed in an open box in the attic the fort. These seeds had been osed for 16 years to a winter temture of 60 to 70 degrees Fahren-below zero. The seeds were home and remained until the ng of 1905, when they were sown per cent produced perfectly mal plants, from 23-year-on, seeds. question is raised as to whether electrically charged atmosphere, constant in northern regions, has effect of producing germinative se. It has been observed that the orce. tmospheric electric currents add uite 100 per cent to the rapidity of plant growth and to the development and strength of perfumes .-of color and stre Chicago Tribune.

TRYING EXPERIENCE.

Spent Over \$100 in a Vain Search For Health.

Miss Frances Gardner, of 369 Jacka Boulevard, Chicago, Ills., writes: I heartily endorse 'Gentlemen:

dowed With Ability to Speak Chlnese and Greek.

Power to heal the sick, to prophesy, and the gift of tongues like that which enabled the first apostles to preach the gospel in strange lands, are all claimed by the members of the Church of the Full Gospel, a new religious sect which in the past three years has sprung up in Colorado and grown with remarkable rapidity.

CLAIM GIFT OF TONGUES. Members of New Sect Suddenly En

In an old church on the corner of Nineteenth and Welton street, the congregation in Denver, which now numbers 800, holds its meetings on Sunday for regular service. Every Wednesday afternoon a meeting is held at which it is claimed the power of Divine healing has been again and again manifested. The Rev. G. F. Fink is founder of the new sect. The pastor of the Denver congregation is the Rev. S. A. Brelesford. Fifteen young men are now preparing themto become missionaries in forselves eign fields. Most of them understand no foreign language, but they will leave in the faith that this difficulty will be overcome through divine aid.

The claim is made that in the pres ence of many people members of the church have already been gifted with tongues they never heard before. Ethel Brelesford, the 12-year-old daughter of Pastor Brelesford, is said to have recently spoken in Chinese. James Diltz, assistant rondmaster of the Rock Island, recently resigned to become a missionary. He, too they say, can speak Chinese. Others have spoken in German and Spanish, and two were gifted with the Greek language.

Fishes With Four Eyes.

Fishes have been discovered in Guatemala with two pairs of eyes. One pair does duty above water and the other below, the fish thus being able to see equally well in two elements.

stale beer from good beer.

1.27

"The inadequate supply of labor is attested by numerous increases in wages at textile mills and in many other occupations; the financial situation is shown by the heavy deficit of the associated banks and the sixth measure of relief this year by the sec retary of the treasury, and complaints about freight blockades are numerous, one shipper at the South stating that hundreds of tons of pig iron have not yet started, although the cars were londed in October. "There is little idle machinery at

leading manufacturing plants, the ur gency for quick delivery being most noticeable at steel and cotton mills, and all are well engaged.

"A few quotations for Iron advanc-ed during the last week, notably Bessemer Iron and light rails, but in most sections of the market there was stability, and purchasers of pig from for delivery during the last half of 1907 were reluctant to contract present prices.

"High prices were fully maintained. the only element of weakness being supplied by country hides, on which concessions are obtainable because demand is confined to tanners of upper leather. Leather is strong, especial-ly sole, and much quiet absorption of hemlock and union sole is attributed to expectation of another advance. "At the exchanges dealing in the leading farm staples the only important influence of the week was supplied by the official reports."

NNING

If more than ordinary skill in playing brings the honors of the

game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of cutdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig. Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or detilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family lazative, a fact well worth considering in making purchases.

It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed pecple, who would not use any remedy of uncertain quality cr inferior reputation. Every family should have a bottle of the genuine on hand, at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company-California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

Oldest Tree in the World.

oldest tree in the world is said the famous dragon tree of Me, which is estimated to be 4,000 to 6,000 years of age. wonder of the plant world was at or more in height until the 1819, when during a terrific one of the large branches was en off. A similar storm in 1867 ped the trunk of its remaining branches, and left it standing alone. This tree derives its common name om a reddish exudation known as agon's blood, found in the sepul-al caves of the Gauches, and supd to have been used by them in alming their dead.

Landholders in Egypt.

There is an enormous number of small landholders in Egypt, 5,000,000 eres being cultivated by over 1,000,-000 landowners, of whom 6,000 are opeans, owning, on an average, a

over 100 acres. Nine hundred forty peasants hold under five

Tells Their Trade.

Nearly every trade has its peculiar malady. Blacksmiths are liable to paralysis of the right side, due to the shock of hammering with the sledge, and they are also liable to weak eyes caused by the glare of the forge. Carpenters are liable to varicose veins, because they stand so much, while continuous sawing tends to injure the artery that carries the blood from the heart to the right arm. Bakers and miners, the one through the white dust of flour and the other through the black dust of coal, get weak lungs. Miners get weak eyes, too, from working so much in the dark.

DADO IS ECONOMICAL.

Nothing is more economical in wall decoration than a dado, according to Wall Paper News, As the lower part of the walls becomes solled more quickly than the upper, a room can often be freshened simply by renewing the dado, without touching the upper walls, Another advantage of the dado is that it gives a room a comfortable and furnished appearance without the addition of a lot of furniture. This is particularly true of 7,000 employes. a hall or stairway where there is a j lot of space that needs breaking up.

ordinary Japanese by any means. She learns much at school that is of no use to her in after life and she is often made conceited by the too smattering of knowledge she posses-ses and is apt to put on airs. There is a great lack of practicality about the instruction given to young girls at most modern schools. Some of the girls from these schools may sult the tastes of officials, but the majority of them are shunned by marrying men for the reason given above. -Rikuge Zasshi,

DISFIGURING SKIN HUMOR

Impossible to Get Employment, as Face and Body Were Covered With Sores -Cured by Cuticura.

"Since the year 1894 I have been trou-bled with very bad case of eczema which I have spent hundreds of dollars trying to cure, and I went to the hospital, but they failed to cure me, and it was getting worse all the time. Five weeks ago my wife bought a box of Cuticura Ointment and one cake of Cuticura Soap, and I am pleased to say that I am now completely cured and well. It was impossible for me to get employment, as my face, head and body were covered with it. The eczema first appeared on the top of my head, and it had worked all the way around down the back of my neck and around to my throat, down my body and around the hips. It itched so I would be obliged to scratch it, and the flesh was raw. I am now all well, and I will be pleased to recommend the Cuticura Remedies to all persons who wish a speedy and permanent cure of skin diseases. Thomas M. Rossi-ter, 290 Prospect Street, East Orange, N. J. Mar. 30, 1905."

English Shipbuilders Busy.

The activity in shipbuilding in England is now greatly reducing the number of unemployed in the ship-building industries. A year ago there were above 11 per cent unemployed. Now, by a board of trade report, it is shown that the unemployed are brought down to about 5 per cent.
