Dyspepsia

Post-mortem statistics of the Big New York hos, show that many cases of consumption are due to the unimpaired progress of dyspepsia.

Especially is this true in cases where the victim was predisposed to tuberculosis.

Therefore the person who allows dyspeptic conditions to progress unchecked is contributing toward the development of the most fatal disease known to mankind.

Dyspepsia wears out the body and the brain—makes the victim thin, haggard and sorrow. The stomach, unable to digest food, cannot supply nourishment. When other diseases come they enter unresisted.

L. P. Turner, 269 Howard Street, Detroit, Mich., says:

"I have suffered from dyspepsia and indigestion for several years and it reached such a stage that I could hold nothing on my stomach, and immediately after eating the lightest foods, would be taken with a violent fit of vomiting. I tried a great many remedies, but nothing helped me until I procured a box of Rexall Dyspepsia Tablets, when I obtained instant relief. I am now able to eat heavy foods and I gladly recommend the Rexall Tablets to anyone suffering as I did."

Don't take any chances. Cure your dyspepsia at once. Rexall Dyspepsia Tablets will do it. We know what they are and guarantee them to restore health, strength and a good digestion. Twenty-five cents will buy a box big enough for a fifteen days' trial. Money back if you are anyway dissatisfied.
