**WHY?** Because we never take any chances in watered stock or bonds. We only handle negotiable paper with ironclad endorsers. We loan no individual, corporation or firm over five thousand dollars. Our stockholders are home people and the directors are selected by the majority of the stock. All accounts are strictly confidential. We pay you the highest rate of interest in the very shortest length of time. All accounts are looked after on day of receipt. Give us a trial and we guarantee satisfaction. We carry burglar insurance and have fire-proof vaults.

**Building is Safe.**

The committee, Dr. J. C. King, J. V. Young and A. T. McClure, appointed at meeting of executive committee yesterday to examine Centennial hall to see if it is a safe place to hold the large crowds that will attend the union gospel meetings, make the following report:

"We examined the foundation and foundation timber and find both to be in an excellent state of preservation. The foundation walls are of solid stone work and the sills are white oak. We made an estimate of the tensile strength of the floor and find from calculation according to the rules given that the floor is capable of carrying a weight of 224 pounds to the square foot, or a total of 358 tons. Hence it would require an audience of 700 people, weighing over 1,000 pounds each, to over tax it."

**Don'ts for R. F. D. Patrons.**

Don't detain carriers by long stories. Don't forget to oil the locks occasionally.

Don't neglect after a snow and ice storm to be at the box first and have it cleaned off and try the locks and see that they work freely.

Don't forget after storms and high winds to see that there is a track broken, as this helps to hasten the delivery of the mail.

Don't ask the carrier to wait while you write a letter, but have the mail for dispatch nicely stamped when he arrives.

Don't forget to raise the flag, as he does not stop unless he has mail to leave.

Don't ask carriers to take packages that are mailable, without the necessary postage.

Don't carry your letters and money to the postoffice to get orders but give them to your carrier, for this helps your route in the eyes of the postoffice department.

Don't leave pennies in the box to mail your letters, especially in cold weather. If all the patrons will observe these don'ts, you will have a good carrier I'll bet.—Exchange.

**Letter From President of Co.**

W. W. Wiley received the following letter from H. W. Case, president of the Standard Tie and Equipment Co., of Pittsburg, which has submitted a proposition to the citizens of Reynoldsville to locate a plant at this place:

Pittsburg, Pa., Jan. 2, 1907.

Mr. W. W. Wiley,  
 Reynoldsville, Pa.,

Dear Sir:

The writer has informed the officers of our company of all you have said about the confidence which you have in assuring us that your wide-awake town is in earnest in the wish that we locate our manufacturing plant in Reynoldsville. From the fact that a number of leading citizens have expressed to you the assurance that they will subscribe to liberal blocks of our stock it is evident to us that we shall be successful in selecting your town as our final choice. Now that the busy holidays have passed if you are able to get the matter of the subscriptions for the stock closed quickly, we will be able to begin our operations at once, and the factory will be humming very shortly.

Mr. Granville, our secretary and treasurer, and myself will be in Reynoldsville next Thursday and will be pleased to furnish any information regarding our enterprise.

Very Truly,  
 Standard Tie & Equipment Co.,  
 H. W. CASE, President.
