

# THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

LYDIA E. PINKHAM

No other medicine for Woman's Ills in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female illnesses or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been curing all forms of Female Complaints, Inflammation and Ulceration, and consequent Spinal Weakness. It has cured more cases of Backache and Local Weakness than any other remedy. It dissolves and expels tumors in an early stage of development. Irregularities and periodical pains, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility quickly yield to it; also deranged organs, causing pain, dragging sensations and backache. Under all circumstances it acts in harmony with the female system. It removes that wearing feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, dizziness, faintness, sleeplessness, flatulency, melancholy or the "blues". These are indications of Female Weakness or some derangement of the organs, which this medicine cures as well as Chronic Kidney Complaints and Backache, of either sex. Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

## Power of New Warships.

Each Dreadnought shell weighs 550 pounds, is discharged by 265 pounds of cordite, the most powerful explosive known, and leaves the gun's muzzle at a speed of 2,000 miles an hour. That means a mile in 1.45 seconds. If that shell kept up its initial velocity it would fly from England to New York in an hour and a half, around the world in 12 1/2 hours and to the moon in five days. The shell's energy as it leaves the gun is equal to the force required to pull 15 or 20 50-car freight trains of 30 tons to each car. A locomotive with such power could draw a train of loaded freight cars four miles long. Scientists say that if all the Dreadnoughts and guns could be combined into one and fired the projectile would never return to the earth, but would revolve forever about it as a tiny satellite. Single-handed, such a warship as the Dreadnought could have won the War of 1812. If the Confederates had had just one Dreadnought the Civil War would have been prolonged many years after the date which records Lee's surrender at Appomattox.—Cleveland News.

## Horse With Artificial Foot.

The veterinary profession is much interested in a surgical operation which has been accomplished by Professor Udrisk, one of the staff of the veterinary school at Bucharest. Having amputated a horse's leg at the fetlock joint, after several failures he succeeded in fitting a leather boot or artificial leg that enabled the animal to walk about and take exercise.

Thomas A. Edison, the noted electrician and inventor, is extremely fond of music.

## Do You Think For Yourself?

Or, do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

Do you have an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest medicine or woman's compound, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Customary Plan.

The Rev. Fourthly—My friend, where do you expect to go in the next world? Kuleker—Oh, I suppose mother and the girls will pick out the spot, and I will run up for the weekends as usual.—New York Sun.

FITS, St. Vitis' Dance, Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer. 23 trial bottle and treatise free. Dr. H. R. Kline, Ltd., 931 Arch St., Phila., Pa.

Yiddish "is derived from the German word "Judisch," meaning Jewish. It means a dialect spoken by the Jews in various localities.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 35c a bottle.

Montana requires its railroads to maintain a station at plotted town sites of 100 inhabitants or more.

To Cure a Cold in One Day  
Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 35c.

## Must Have Been Rich, Even Then.

It happened about 44 years ago, when Abraham Lincoln was nearly suffocated with trouble. New troops were required and money needed. Rockefeller, then a young man, had not as yet been accused of being a billionaire. He was strong for the Union, however. His office was at that time on River street, Cleveland. Captain Scofield came in one day with 30 raw recruits. The young business man saw what was needed, walked to his small safe, took out a bag of real money, giving to each man \$10. When outside one recruit remarked, "He must be rich." And another one said, "Yes, they say he is a rich man—that he is worth as much as \$10,000"—Woman's Home Companion.

## Respect for German Policemen.

Herr Muerbe, a Dresden schoolmaster, on visiting Halle lately, went up to a policeman, and touching his hat, begged in a courteous tone to be directed to his destination. The policeman stared at him, and told him that if he desired a reply he must speak more respectfully—his interrogator must in fact take off his hat. This was too much for Herr Muerbe, who asked the policeman not to be insolent. Legal proceedings followed, and the Court has decided that, while Herr Muerbe was not obliged to take off his hat when addressing a policeman, he must pay a fine of 10 marks for using the word "insolent"—London Chronicle.

## How's This?

We offer One Hundred Dollar Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. WEST & THUAX, Wholesale Druggists, Toledo, O. WALKING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

## Roman Relics Dug Up.

Workmen engaged in diverting a roadway at Welwyn, Herts, Wales, unearthed seven Roman urns in a good state of preservation, a Roman spur, two drinking bowls six inches high, one smaller cup, a bowl, some bronze plate, an iron standard and a small urn six inches high.

# FINANCE AND TRADE REVIEW

## TRADE RETURNS IRREGULAR

Unseasonably High Temperatures Restrict Sales of Heavy Garments. Other Lines Affected.

R. G. Dun & Co.'s "Weekly Review of Trade" says:

"Trade returns are irregular because of the erratic weather, unseasonably high temperatures restricting sales of heavy weight wearing apparel at some points, while business is most satisfactory in colder sections. Freight blockades were relieved to some extent, but there is still much complaint of tardy deliveries.

Mercantile collections are also more prompt in some sections than in others, but there is unanimity regarding the large amount of forward business on the books of manufacturing plants and general confidence in the future.

Building operations have been greatly facilitated in the East by open cause of the unprecedented rate of output, all monthly shipments having weather, maintaining activity in markets for materials beyond the customary date. Prices of fall commodities declined about 1 per cent during December.

Some steel mills are now able to make deliveries more promptly, because specifications are less frequent, especially in respect to structural shapes, and a few plants are rolling billets in the structural mills, which relieves the pressure very much in that department.

Forward business in pig iron is very heavy at Pittsburgh, orders covering the output of some furnaces for almost the entire year, prices varying according to the date of delivery, but sales are not reported at less than \$21.50 to \$22.00, valley furnaces. This strength is the more remarkable because eclipsed in December.

Demand for cotton goods in the primary markets is somewhat less urgent.

Higher prices have prevailed at the leading commodity exchanges. In wheat there was a natural reaction from the preceding decline as the short account took profits, and the recovery was carried still further in response to reports from winter wheat States that a sharp fall in temperature threatened much damage from frost because of insufficient snow covering.

Nearly 70,000 tons of cork are needed for the bottled beer and aerated waters consumed annually in Britain.

The Elchard Coal & Coke Company of Connellsville purchased 208 acres of coking coal from James Clark in Sticker Hollow for \$375,000. The Clark tract has been handed down in the family for many generations. Two hundred ovens will be constructed.

A deal is under way to consolidate 30 silk mills in this and adjoining States under the name of the American Silk Company. It is said the capitalization of the merged concern will be \$22,500,000, and that Matthew C. Collins of York, will be general manager.

# THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

## Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

## New Japanese Fad.

Many Christmas cards sent out by leaders of society were imported from Japan. The Japanese card fad is growing and there is a chance that the Orientals may create a charming revolution in the bits of engraved pasteboard. The visiting cards that Japan is sending to New York show the perfection of simplicity. They are somewhat smaller than those which fashion has demanded over here. They are pearly white in hue. In the left hand corner is an exquisite little painting executed with much skill of quaint, idyllic pictures of birds, animals and flowers. And the cards have the supreme merit in many women's eyes—they are expensive. How pleasant it will be for them to say, "I have sent to the Far East for my new visiting cards!"

## UTTERLY WORN OUT.

Vitality Sapped by Years of Suffering With Kidney Trouble.

Capt. J. W. Hogun, former postmaster of Indiana, now living at Austin, Texas,

writes: "I was afflicted for years with pains across the loins and in the hips and shoulders. I had headache also and neuralgia. My right eye, from pain, was of little use to me for years. The constant flow of urine kept my system depleted, causing nervous chills and night sweats. After trying seven different climates and using all kinds of medicine I had the good fortune to hear of Doan's Kidney Pills. This remedy has cured me. I am as well to-day as I was twenty years ago, and my eyesight is perfect."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## Ancient Glass Mirrors.

An American scientist has lately interested the French Academy of Sciences in his researches concerning the glass mirrors that were used in ancient times in Thrace and Egypt. These mirrors were backed with a highly polished metal, the nature of which has been in question for many years. The American scientist has discovered that the metal was almost pure lead, and he believes that the method of manufacture was to pour the molten lead on the concave surface of discs cut from balloons of blown glass. In consequence of their shape the mirrors minimized the images of objects looked at in them.—Philadelphia Record.

## Always to Be Depended Upon.

When a person gets up in the morning with a dull headache and a tired, stretchy feeling, it is an almost certain indication that the liver, or bowels, or both, are decidedly out of order. At such times Nature, the wisest and best of all doctors, takes this means to give warning that she needs the help and gentle assistance which can best be obtained from that old family remedy, Brandreth's Pills, which has been in use for over a century. They are the same fine laxative tonic pill your grandparents used, when doctors were few and far between and when people had to have a remedy that could absolutely be depended upon. Brandreth's Pills can be depended upon and are sold in every drug and medicine store, either plain or sugar-coated.

Three separate societies in England are agitating for the abolition of the opium trade in India.

## A Change of Meas.

Burglars stole only \$4,127 from the banks of the country the past year, but some bank officers got away with much more than that.—Philadelphia Press.

## Piles Cured in 6 to 14 Days.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

## The Fate of the Chamolis.

Switzerland is awakening to the necessity of government intervention if the chamolis is not to become as extinct in the Alps as the buffalo in America. In the Grisons the killing of chamolis was prohibited last year. Shooting licenses have been issued this year, but next year again will be a close year, and so will 1909. Police reports show that between 1875 and 1905 the number of chamolis slaughtered in the canton reached the huge total of 34,398. If the 5,000 chamolis still surviving in the Grisons are to be preserved, and if the animal is not to be lost in other cantons, something more than alternate close years will be needed. When the sportsman took the risks of the rocks and went to shoot his chamolis for food where he found him there was no danger of extermination. It is the safer but more cruel system of "drives" which causes whole herds to be shot down at once.—New York Tribune.

## Indian's Word Was Good.

Indian devotion to a pledge is not a myth; it survives to this day. At the May term of court at Vinita Charles Bolling pleaded guilty before Judge Parker at Sallisaw. He was sentenced to 60 days in the county jail and to pay a fine of \$25. He asked to be permitted to stay out of jail and make a crop in order to provide for his family, and Judge Parker granted the request, releasing Bolling, who is a Cherokee, on a promise to appear at Vinita on December 1 to begin his sentence. Bolling was waiting at the Court House one morning last week when the doors were opened and is now in jail serving his sentence. He says his crop is gathered, and his family is provided for during the winter.—Kansas City Journal.

## Still Room at the Front.

The last three presidents of the Pennsylvania railroad rose from the machine shop or the surveying party, and there were never more opportunities than there are now for men of ability and character to get to the front.—Philadelphia Record.

## Christmas in January.

In remote places in Eastern Kentucky they still observe January 6, or Old Christmas, never having changed the calendar. Their ancestors came from England about the middle of the 18th century, just when the change was being made there. They have been shut in here for these 150 years, with almost no communication with the outside world and have learned nothing of changes.—Travel Magazine.

## SCALY ERUPTION ON BODY.

Doctors and Remedies Fruitless—Suffered 10 Years—Completely Cured by Three Boxes of Cuticura.

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brass pin, and shortly afterwards both of those limbs became so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small, scaly eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that, until I became accustomed to it, I would scratch the sores until the blood began to flow. This would stop the itching for a few days, but scaly places would appear again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, zinc salve, —'s Salve, — Ointment, and in fact I was continually giving some remedy a fair trial, never using less than one or two boxes or bottles. All this was fruitless. Finally my hair began to fall out and I was rapidly becoming bald. I used —'s —, but it did no good. A few months after, having used almost everything else, I thought I would try Cuticura Ointment, having previously used Cuticura Soap and being pleased with it. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least \$50 to \$60 in vainly endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mattingly, Vermillion, S. Dak., Aug. 18, 1906."

Of languages which so widely differ among themselves as to be incomprehensible without particular study the number readily exceeds 1,500.
