

MAYOR OF SUNBURY Says Pe-ru-na Is a Good Medicine.

Hon. C. C. Brooks, Mayor of Sunbury, Ohio, also Attorney for Farmers' Bank and Sunbury Building and Loan Co., writes:

"I have the utmost confidence in the virtue of Peruna. It is a great medicine. I have used it and I have known many of my friends who have obtained beneficial results from its use. I cannot praise Peruna too highly."

HON. C. C. BROOKS.

There are a host of petty ailments which are the direct result of the weather.

This is more true of the excessive heat of summer and the intense cold of winter, but is partly true of all seasons of the year.

Whether it be a cold or a cough, catarrh of the head or bowel complaint, whether the liver be affected or the kidneys, the cause is very liable to be the same.

The weather slightly deranges the mucous membranes of the organs and the result is some functional disease.

Peruna has become a standby in thousands of homes for minor ailments of this sort.

Ask Your Druggist for Free Peruna Almanac For 1907.

Sun's Heat Increasing.

An official of the Naval Observatory at Washington ventures the somewhat startling suggestion that the sun is still getting hotter. The process, however, is too slow to have any but a scientific interest for the present inhabitants of the earth.

FITS, St. Vitus' Dance, Nervous Diseases permanently cured by Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. H. R. Kline, Ltd., 981 Arch St., Phila., Pa.

It is estimated that the silver coin in circulation would weigh 100,000 tons.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 30c a bottle.

Show cases are now made on the sectional book case plan.

Piles Cured in 6 to 14 Days.

Pain Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Prolapsing Piles in 6 to 14 days or money refunded, 50c.

A Missionary in the Hu'son Bay territory travels in a box which is strapped to the back of a hardy native.

Invigorate the Digestion.

To invigorate the digestion and stimulate the torpid liver and bowels there's nothing so good as that old family remedy, Brandreth's Pills, which has been in use for over a century. They cleanse the blood and impart new vigor to the body. One or two every night for a week will usually be all that is required. For Constipation or Dyspepsia, one or two taken every night will in a short time afford great relief.

Brandreth's Pills are the same fine laxative tonic pill your grandparents used and being purely vegetable are adapted to every system.

Sold in every drug and medicine store, either plain or sugar-coated.

More Guessing, Not Science.

From the seismic records it appears that in the thirteen years from 1892 to 1904, inclusive, there were 750 "world shaking" earthquakes, an average of 58 a year, or a little more than one a week. When a "meteorologist" therefore sets a date for one and gets credit for hitting it when he is three days off, he would seem to be drawing large dividends of fame on an exceedingly small investment of merit.—Chicago Tribune.

DROPSY NEW DISCOVERY. gives quick relief and cures. Dr. J. C. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

WHAT WOMEN ARE WEARING

New York City.—The pretty and attractive blouse waist that is simple at the same time makes one of the most necessary elements in any woman's wardrobe. It is a bit more dressy than the severe tailored shirt waist, yet is not quite so dainty as the one in lingerie style, made either of lawn or fine silk, and is altogether

useful as well as thoroughly attractive. This one can be worn with skirt to match or as a separate waist, suiting both purposes equally well, and is available for almost all seasons, reasonable waistings, wool and silk and even the mercerized ones that so many women like to wear throughout the entire season. It can be either lined or unlined and made with three-quarter or full length sleeves. In the illustration lousine is stitched with belding silk and combined with tucked taffeta and trimmed with a tiny edge of velvet and little velvet buttons, but the vest and the collar and the trimming on the cuffs can be of any contrasting material that may be liked. If a

Lace For Boas.

While nothing could be lovelier for the fascinating fluffy boas than marabout and ostrich tips, yet there are some beauties in which lace is substituted for the tips.

Evening Fans.

Lovely evening fans with carved and gilt traced sticks mounted with gauze painted and spangled delicately are fashionable. All the spangles, whatever the price, are sewed, not glued on.

Hatpin Chestnut.

The hatpin forms a very important part of the modern hat. Some are of huge dimensions, many being the size and color of a horse chestnut, while others are of silvery mother-of-pearl, colored crystal and queer stones.

Tucked Blouse.

The shirt waist or simple blouse that is made with a chemisette is among the daintiest of all, and is exceedingly attractive as well as eminently fashionable. This one is closed invisibly at the front and allows of trimming after a most effective manner. In the illustration the material is a pretty plaid, while the trimming is velvet matching one of the darker colors and the chemisette is of all-over lace. But chemisettes of lingerie material are always pretty, and are equally in vogue, while trimming can be silk or any contrasting material that may be liked or, indeed, the same material trimmed with a little braid or velvet ribbon. The pointed trimming straps on the front are decorative and quite simple, yet are not obligatory, for a plainer waist can be made by omitting them. The collar finishes the neck, and whether the sleeves are made with deep cuffs or terminate at the elbows, the full portions are completed by pointed bands.

The waist is made with a fitted lining that is closed at the front and consists of fronts and back. The back is laid in pleats for its entire length that give tapering lines to the figure, but which are stitched to yoke depth. The chemisette is separate and closed

more dressy effect is desired chiffon or one of the pretty lingerie effects can be used, while if washable material is chosen for the waist these can be of all-over embroidery or some material of the sort.

The waist is made with the fitting lining, which can be used or omitted as preferred, and which is closed at the centre front, and consists of the fronts, the centre front and the back. The fronts are arranged in a box pleat at each edge and in rather wide tucks at the shoulders, which are stitched to yoke depth, while the back is tucked on tapering lines. The trimming portions are joined to the centre front, which in turn is joined to the waist, and the closing is made invisibly beneath the box pleat at the edge of the left side. The sleeves are moderately full ones finished with prettily shaped cuffs, whether they are used in three-quarter or full length.

at the back, while the waist is closed invisibly beneath the tucks at the front edges. The sleeves are prettily full, laid in tucks at their lower edges, and when full length is used the linings are faced to form the deep cuffs, but if the lining is omitted the cuffs are joined to the lower edge.

The quantity of material required for the medium size is three and three-quarter yards twenty-one, three

and three-eighth yards twenty-seven, or one and seven-eighth yards forty-four inches wide, with five-eighth yard of all-over lace for the chemisette and five-eighth yard twenty inches for the collar and trimming.

For the Utility Gown. Diamonds of plaid outlined with braid or velvet form an original mode of decoration for the skirt of a utility gown.

CHINA AND JAPAN.

Some Interesting History Condensed With Valuable Information.

The first passenger railway cars to be used on the main line of the Canton-Hankow Railroad are to be made in Springfield, Mass. The order is for seventeen cars.

In the various treaty ports of China there are 105 American firms and 3380 American citizens; 197 firms and 1850 citizens of Germany; 434 firms and 8493 citizens of Great Britain, and 729 firms and 16,910 citizens of Japan, says Daily Consular and Trade Reports, quoting from the last imperial Chinese customs report.

The shares of the South Manchurian Railway were oversubscribed seventy-nine times. They are now at a premium of 18 per cent. The Chinese Government did not apply for shares. Japan will have full control.

On the London Stock Exchange Chinese 4 1/2 per cent. bonds are quoted at 97 1/2; 5 per cents at from par to 100 1/2, and 6 per cents at 103 and 103 1/2. The 7 per cent. silver loan bonds sell for 103, says the Anglo-Japanese Gazette of London Tokio.

Coal mining in the province of Shantung, China, is steadily increasing. Last year one district produced 136,990 tons, or 100,000 tons more than the year before.

China now has a railway mileage of about 9000 miles. Of this 1230 miles are in operation and the rest under construction, except 930 miles "in abeyance." Last year the Chinese Imperial Railways, 526 miles, paid 20 per cent. on the capital outlay.

In July last for the first time in several years Japan's balance of trade was on the right side. In July, 1905, the month's balance was \$5,500,000 against Japan. In the seven months ended in July exports rose \$20,000,000 and imports fell \$34,250,000, a favorable change of \$54,250,000.

On October 16 last the prices realized for Japanese 4 per cent. to 6 per cent. Government bonds ranged from 87 1/2 to 102 1/2. Harbor and waterworks 6 per cents brought from 104 to 106. Railway 4 per cents were sold at 94 1/2.

During 1905 Japan imported \$1,150,000 worth of artificial indigo. The Industrial Bank of Japan is raising \$585,000 abroad for a water supply system at the city of Fusan, Korea.

Kobe, Japan, imports more goods from the United States than from Great Britain, and more than twice as much as from Germany, Australia and France combined. The imports from the United States were more than \$25,000,000 in 1905, against less than \$15,000,000 in 1904.

Cotton spindles working in Japan number 1,430,717, compared with 818,742 only ten years ago.

American exports of locomotives to Japan trebled in 1905, as compared with 1904. The Sanyo Railway uses only American locomotives.

Japan's rice crop is good this year, being 50,000,000 koku, an increase of 32 per cent. over 1905 and 18 1/2 per cent. more than the average crop.

The electrification of the Nankai Railway, 40 miles long, with 9 1/2 miles of double track, is in progress.

Osaka has a water power only 28 miles away capable of producing 45,000 horsepower. It is to be electrically used.

The Japanese Government will spend \$10,000,000 to improve the harbor at Tairen, Manchuria.

The Elsho Toshi-kan (Library of English works) has received an endowment of \$75,000 from a wealthy Londoner.

Japan's national debt now amounts to \$1,011,472,367, of which \$72,000,000 is for public works and railways. The total debt is \$86,000,000 more than the interest bearing debt (\$925,000,000, including \$30,000,000 for the American Panama Canal) of the United States. As the population of Japan is about one-half that of the United States, the debt burden of Japan's people is about twice as heavy.—New York Sun.

WORDS OF WISDOM.

Pride is the upholstering of laziness.

I can't find many men that go their start with steam heat.

Verily, diet and destiny go hand in hand! One apple busted Eden.

The sermon was so impressive the other night that the choir paid attention.

The battle is to the worker, no to the party with the manicure set and the pedigree.

Even the successful fish-pole needs a stout line at one end and a stout har at the other.

Life is a mad battle with dirt, dust and devils, and happy the man who hires his house-cleaning done.

If there is one thing some people enjoy more than doing a good act, it is telling about it afterwards.

Some people are born fools; some people acquire it in college; and some people have gold bricks thrust upon them.

The pen is mightier than the punching bag—but the latter is a mighty good side line to carry on the road to success.

Even the loafer is useful. He helps to swell our census figures; he is the elpher that fills. And his vote is valuable.

I can't understand why I have failed to coax grass in the front lawn where I want it, when I can't fight it down with a hoe in the garden where I don't want it.

NATURE PROVIDES FOR SICK WOMEN

a more potent remedy in the roots and herbs of the field than was ever produced from drugs.

In the good old-fashioned days of our grandmothers few drugs were used in medicines and Lydia E. Pinkham, of Lynn, Mass., in her study of roots and herbs and their power over disease discovered and gave to the women of the world a remedy for their peculiar ills more potent and efficacious than any combination of drugs.

LYDIA E. PINKHAM

Lydia E. Pinkham's Vegetable Compound is an honest, tried and true remedy of unquestionable therapeutic value.

During its record of more than thirty years, its long list of actual cures of those serious ills peculiar to women, entitles Lydia E. Pinkham's Vegetable Compound to the respect and confidence of every fair minded person and every thinking woman.

When women are troubled with irregular or painful functions, weakness, displacements, ulceration or inflammation, backache, flatulency, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

No other remedy in the country has such a record of cures of female ills, and thousands of women residing in every part of the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable compound and what it has done for them.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. For twenty-five years she has been advising sick women free of charge. She is the daughter-in-law of Lydia E. Pinkham and as her assistant for years before her decease advised under her immediate direction. Address, Lynn, Mass.

Chess a Very Old Game.

By whom the game of chess was invented or when it was first played is not known. Its earliest history can be traced back as far as the beginning of the history of India, one of the oldest countries in the world.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Meaning of Tea Names.

We talk glibly about Pekoe, Bohae, etc., but few people have any idea of what these names signify.

"Pekoe," in the dialect of Canton, means "white hair," for the tea which bears this name is made from the youngest leaves, so young that the white down is still on them.

"Soochong," in the same dialect, is a quite unpoetic name; it merely signifies "small kind."

"Flourishing Spring" is the meaning of "Hyson."

"Kongo" signifies "labor;" much trouble and toil are expended in its preparation at Amoy, and these are commemorated in its name.

"Bohea" is called after a range of hills.—Portland Journal.

AWFUL ATTACKS OF PAIN.

A Most Dreadful Case of Kidney Trouble and How It Was Cured.

Thomas N. McCullough, 321 South Weber St., Colorado Springs, Colo., says: "For twelve or fifteen years I was suffering frequent attacks of pain in the back and kidneys that lasted for three weeks at a time. I would be unable to turn in bed. The urine was in a terrible condition, at times a complete stoppage occurring. I began with Doan's Kidney Pills, and soon felt better. Keeping on, I found complete freedom from kidney trouble. The cure has been permanent. I owe my good health to Doan's Kidney Pills."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Improving Suez Canal.

The improvements to the Suez canal now under way, include an increase of depth throughout to 31 feet and the bottom width to 128 feet, which will permit an increase of speed for vessels passing through it from six to nine miles an hour. This will enable ships to make the passage through the canal in 12 hours, about six hours less than at present.

PHILIPPINE "DOBIE ITCH."

Itching Pimples Covered Body—Discharged For Disability—Found Cure in Cuticura Remedies.

"I enlisted in the Corps of Engineers as a telegraph operator, and, while stationed in the Philippines, I became subject to the 'Dobie Itch,' as the natives call it. In this disease small, white, itching pimples form under the skin, generally between the toes, on the limbs, between the fingers and under the arms. I never knew of a case originating outside the Philippine Islands, but have known of many cases where it has returned in this country and invariably at the same time of the year as the original attack. The cause, so far as I could learn, was some tropical parasite or germ peculiar to that region.

"I got so bad that I was confined to my quarters a week at a time. The Army Surgeons applied some carbolic solution, and it would disappear for a time, when it would break out again. I was discharged from the Engineers by reason of disability contracted in line of duty, and when I had the trouble again, my druggist, Mr. Z., of Brooklyn, recommended Cuticura Remedies. The immediate relief was manifested with my first purchase, and the malady quickly yielded to the Cuticura Remedies. It has never recurred or bothered me since I began to use and continued to use the Cuticura Remedies. You may quote me as a believer in Cuticura Remedies from personal experience. John S. Woods, 221 Sands St., Brooklyn, N. Y., Oct. 21 and 23, 1903."

Airships, a few of which have been comparatively successful, are called a new invention; but in 1679 a pamphlet was written by Francesco Lana expounding the theory of ships which would navigate the air as well as the sea.

Paris Cabby's Ruse.

Paris cab drivers are in the habit of causing their taximeter to register the waiting tariff every time their progress is blocked by traffic or any other obstacle. In this way the traffic obstruction which makes Paris insupportable is to them a nice little source of profit. All is grist that comes, so by so, to their mill by causing their horses to move the wheels back and forth in a confined space.—Le Figaro.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

An Afghan Episode.

An episode characteristic of the vicissitudes of life in Afghanistan concerns an interruption which occurred at one of these assemblies which Abdur Rahman was holding. A man, in a state of irrepressible excitement, suddenly declared that the Russians were advancing to invade Afghanistan. Undisturbed by the announcement, the late Ameer, turning aside from the business of the durbar, ordered his Shahzadi to conduct the man to the summit of a certain watch tower. "Look you out well for the Russians," commanded Abdur Rahman, "for you do not eat until you see them arrive."—Pall Mall Gazette.

Better Pay for Soldiers.

General Funston makes an earnest plea for the increase of the pay of the officers and privates of the regular army. He declares that the officers of lowest rank receive less pay than many laborers, and even less than some hod carriers; and that this should not be the case. He asserts also that if the pay of the privates were increased it would be easier to get and retain recruits for the army.

H. H. GREEN'S SOFTS, of Atlanta, Ga., are the only successful Dropsy specialists in the world. See their liberal offer in advertisement in another column of this paper.

At a depth of 66 feet the water of the Dead Sea is twice as salt as it is on the surface, and at 1,000 feet three times as salt.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, because the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause, will have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.
