G. A. STEPHENSON, Editor and Pub.

WEDNESDAY, MARCH 29, 1907.

A law has been enacted by the state legislature providing a method for the removal of township officers for failure to perform the duties of their office.

At a meeting of the Republican county committee held in Brookville on the 13th instant the new rules, offered at a previous meeting for governing the Republican party in Jefferson county, were unanimously adopted and are now in force. A number of copies of the new rules will be printed and put in the hands of the committeemen.

The new town council has been organized and is now ready to attend to business for this municipality. While every member of that body will, no doubt, be conscientious in the business transactions for Reynoldsville borough, and do his best, yet it is a foregone conclusion that the town council of 1907 will not please all the people in discharging their official duties. No other council in the history of this borough, and it is the same in other boroughs, has been able to do just what all the people thought was the right thing, and this council will be no exception. It seems impossible for a public official to please all the dear people, therefore, gentlemen, do your best and you will still be censured by some person. It will be a remarkable council if it does not make mistakes in the judgment of constituents. The reason why it is impossible to please all the people is because there is so much selfishness in the human family, and men get mad because things are not done the way they think it should be done. What pleases one makes another one mad, as their interests are different. It seems remarkable that there are so many men in Reynoldsville who know what a council should do, and yet these men are, unfortunately, not elected as members of the council or school board. If these men, who know how to run the business of a borough, were elected, they would soon find out that somebody was ready to kick. We do not say that the town councils in the history of our town have always been wise in conducting the business of the borough, yet, generally speaking, we believe they did what they thought was the best thing to do. It is a thankless job to be a member of council or school board, censure or condemnation is all that some people give men who serve on these boards.

A Statement.

To the Taxpayers of Jefferson County:

The allegation having been made through the columns of a Clearfield county newspaper circulated in Jefferson county largely for this purpose, that the Republican members of the board of county commissioners are opposed to the examination of the records of the county by private citizens, we deem it expedient to make known, thus publicly, the truth of the matter.

The records of the commissioners' office belong to the people and they are open at any time for the inspection of any taxpayer of Jefferson county who desires to acquaint himself with the work being done or having been done by the board of county commissioners. Upon any request for specific information upon any public matter we will instruct the clerk to prepare the same, or to render such assistance to you as is in his power if you prefer to make a personal investigation of the records.

MIAMI, BISCAYUNE BAY, FLA.
Feb. 28, 1907.

The city of Miami sprang full grown out of the wilderness ten years ago. Prior to this time one store, whose trade was with the Indians and a few white families, eked out a livelihood by wrecking and the manufacture of coonite starch, a product of a species of the palm tree and is a vegetable used by the Indians as a substitute for potato. We took a boat up the Miami river as far as the rapids, where there is a high observatory, giving a good view of the Everglades, thousands upon thousands of acres here. The last remnant of the Seminoles, who refused to go on the reservation, retreated to the islands of the Everglades. They fish and trap the otter and other animals and delight in catching the alligators. They bring their product down on canoes and trade with the white man, but other ways will not be social. There are about seven hundred of them. They have our improved rifles, and are experts at shooting; they never sight but delight to rest their gun on their hip or breast, shoot quick and fatal. The Everglades are of coral rock formation, limestone covered over with about a foot of sand and black dirt, decayed vegetable matter and water almost on a level with the sea. There are scrubby shrubs and coarse grass five or six feet high in which one can find alligators, rattlesnakes and moccasins snakes and many other reptiles. On the dry land may be found nice coconut groves, orange groves, grape fruit, citrus and bananas. In the yard of this hotel are coconuts and royal palms.

When your Watch Stops

You cannot make it go by shaking it. When the bowels are constipated you can disturb them with cathartics but, like the watch, they will not be able to do their allotted work until they are put into proper condition to do it.

One cannot mend a delicate piece of mechanism by violent methods, and no machine made by man is as fine as the human body.

The use of pills, salts, castor-oil and strong cathartic medicines is the violent method. The use of the herb tonic laxative, Lane's Family Medicine is the method adopted by intelligent people.

Headache, backache, indigestion, constipation, skin diseases—all are benefited immediately by the use of this medicine.

Druggists sell it at 25c. and 50c.

JANE SMITH FRESHMEN REPORTER.

No more examinations until the finals, and only 37 more days of school. Ye who have been a little back in your studies, now is your time to dig in and bring up some of those grades.

The R. H. S. Basket Ball team will go to DuBois Thursday evening to play the DuBois five. Rooters can aid a great deal in winning a game, so be sure and take a car that evening and give us your support.

Gillilan, the Prince of Humorists, will be here April 1. He is the President of the American Humorists Association of America and one of the brilliant talkers of the American platform. If you want to have a good laugh and to imbibe the subtle humor that is pleasing, but not cutting, you want to hear Gillilan.

The annual is now being started on a working basis having elected its officers. It is now up to them and to the people of the town to make it a success. This will be something to keep in the home and it will always be a good advertisement for those who use its pages.

The recital given in the auditorium entertained only a few but those who were there were highly pleased with it.

Don't forget your feet need a spring tonic. Buy it at Adam's Shoe Store.

MANY SUDDEN DEATHS FROM POISONOUS RHEUMATISM

The Disease Has Its Dangers—Should Be Taken in Time.

Rheumatism has long been regarded as a trouble which, while it might be painful, was not necessarily dangerous. Very few persons, it was thought, ever died from Rheumatism. Pick up a paper to-day, and you will see that the majority of sudden deaths are due to some form of neglected Rheumatism. Rheumatism of the heart, neuralgia of the heart, paralysis and poisonous Rheumatic acid are among the most dangerous forms of the disease. If Rheumatic acid poison is allowed to stay in the system, sudden death can scarcely be averted. There is but one cure for Rheumatism, and that is Smith's Specific Urie-O. No other Rheumatic remedy can possibly do as much for the disease. Urie-O is a positive cure for Lumbago, Muscular and Articular Rheumatism. It will cure Sciatica and Rheumatic Kidney trouble in the most pleasing manner. Urie-O costs \$1.00 per bottle, and can be supplied by your Druggist. Samples and circulars will be cheerfully forwarded by the SMITH DRUG COMPANY, SYRACUSE, N. Y.

Urie-O is sold in Reynoldsville by the Stoke & Fiecht Drug Co.

THE BEAR IDEA

of feeding Teddy with good Ice Cream seems an enormity. It would be really letting it go to waste, but then our Ice Cream very often does "go to waist," and the ladies waists are the ones that get the most of it. No party or reception could be complete without each guest having a dish of our pure, delicious, and comforting Cream, which we make in a variety of flavors to suit all preferences. Every ingredient warranted.

SHICK & WAGNER

—THE BIG STORE—

Time this season has gone so swiftly and quietly that EASTER has perhaps come onto you before you were aware of it. Anticipating just such state of affairs we have prepared ourselves for such an emergency. We are prepared to take care of your wants in any thing that you may have delayed purchasing—waiting for warm weather or that you may have over looked or neglected, or may have put off buying for any other reason. We might mention a few things by way of suggestion that might recall to your mind some things over looked.

Laces.

What is admittedly the most Comprehensive and attractive of Plain and Novelty Lace Stocks is now on exhibition here. This season is going to be a record breaker in the usage and demand of Valenciennes Laces if the Fashion Journals tell the truth. You find the stock complete and your purchasing easy by doing so early in the season.

Embroideries.

We have ready also our complete line of Embroideries including the wide Insertions for Waist Fronts also the corset cover Embroidery. We have also the wide flouncing Embroideries at all prices in all patterns and all widths.

Ribbons.

Altho all manufacturers of Ribbons claim a great shortage and they can't fill their orders complete. We however made our purchases early and bought sufficiently heavy that we are thoroughly prepared to take care of your needs. Ribbons however will be scarce before this summer has gone by. You may need some new plain or fancy ribbon for your Easter Hat, or gown or neckwear.

Gloves

We can take care of all demands at present in long or short gloves in silk or kid gloves. If the demand develops like last year though we will fall away short. Better not take any chance and get your gloves now.
