

## ALL WOMEN SUFFER

from the same physical disturbances, and the nature of their duties, in many cases, quickly drift them into the horrors, organic troubles, ulceration, falling and displacements, or perhaps irregularity or suppression causing backache, nervousness, irritability, and sleeplessness.

Women everywhere should remember that the medicine that holds the record for the largest number of actual cures of female ills is

MRS. A. M. HAGERMANN

### Lydia E. Pinkham's Vegetable Compound

made from simple native roots and herbs. For more than thirty years it has been helping women to be strong, regulating the functions perfectly and overcoming pain. It has also proved itself invaluable in preparing for child-birth and the Change of Life.

Mrs. A. M. Hagermann, of Bay Shore, L. I., writes:—Dear Mrs. Pinkham:—I suffered from a displacement, excessive and painful functions so that I had to lie down or sit still most of the time. Lydia E. Pinkham's Vegetable Compound has made me a well woman so that I am able to attend to my duties. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound and see what relief it will give them."

### Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Therefore she is especially well qualified to guide sick women back to health.

## OF INTEREST TO WOMEN

New York City.—The waist that can be worn over a separate yoke is always a dainty and attractive one, and just now is among the very latest developments of fashion. This one is adapted to silk, to wool and to

### Nine Gored Tucked Skirt.

Tucked skirts are always pretty, always graceful, always attractive in light weight materials and just now, when everything fashionable answers to that description, they are adapted to almost all seasonable materials. Here is one that is treated after a quite novel fashion and that is abundantly full below the stitchings, while it is flat over the hips. In illustration it is made of one of the lovely pongee silks in the beautiful sapphire blue and is trimmed with silk braid, but it will be found admirable for the very lovely cotton and silk and cotton materials as well as for those of wool and of silk. As it can be made in either round or walking length, it is adapted both to the street and to house wear, and consequently to the slightly heavier as well as the extremely thin materials.

The skirt is made in nine gores and there is a group of three tucks at each seam which effectually conceal it. The fullness at the back is laid in inverted pleats and the tucks are stitched flat for graduated lengths.

The quantity of material required for the medium size is eleven and one-half yards twenty-seven, five and

washable materials and can be utilized for a great many occasions, as the cuffs are adjustable, so that the sleeves can be longer or shorter at will. In the illustration it is made of veiling with trimming of velvet

**Smallest County in the Union.**  
The smallest county in the union is Bristol county, R. I., which has only 25 square miles.

**FITS, St. Vitus' Dance, Nervous Diseases** permanently cured by Dr. Kline's Great Nerve Restorer. \$3 trial bottle and treatise free. Dr. H. R. Kline, Ld., 961 Arch St., Phila., Pa.

The highest mountain pass in the Western Hemisphere is at Humahuaca in the Andes, the highest point of which is 14,600 feet above the sea.

**Mrs. Winslow's Soothing Syrup for Children** teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

The natives of Kisiba carry coffee in bags of dried banana leaves.

**A Natural Remedy—Garfield Tea!** It is made of simple herbs. Take it for constipation, indigestion, sick-headache; it regulates the liver, purifies the blood, brings Good Health.

### New Submarine.

The newest design for a submarine by John P. Holland will not be a destroyer, but its object will be to put out of commission any boat it may attack rather than to destroy it. He believes that disarmament and not annihilation will be the object of future warfare.

**STATE OF OHIO, CITY OF TOLEDO, Lucas County,**

FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE. FRANK J. CHENEY.  
Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.  
A. W. GILSON, Notary Public.  
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surface of the system. Send for testimonials, free.  
F. J. CHENEY & Co., Toledo, O.  
Sold by all Druggists, 75c.  
Hall's Family Pills are the best.

**The Original Calendar.**  
To the modern world a "calendar" is merely a harmless necessary reminder of weeks and days, to be hung up on New Year's Day and consulted in dating letters throughout the year. It has no such mournful sound as "calendarium" had for the ancient Romans. The original "calendar" of their time was the money lender's account book, so called because interest was due from the debtor on the calendar, or first day of each month. That is why Seneca speaks of "calendar" as a word invented outside the course of nature on account of human greed. It is a word which may help to persuade us that the world has grown kinder.—London Chronicle.

### Poor Paint is Expensive

If one is rich enough to repaint his buildings every year for the pleasure of having a change of color scheme, the quality of the paint used may cut little figure. But if it is desirable to cut the painting bills down to the least amount possible per year, it is of the utmost importance that the paint be made of Pure White Lead and the best of Linseed Oil. There are imitations in the form of alleged White Lead, and there are substitutes in the form of ready-prepared paints.

We guarantee our White Lead to be absolutely pure, and the Dutch Boy on the side of every keg is your safeguard. Look for him.

### SEND FOR BOOK

"A Talk on Paint," gives valuable information on the paint subject. Send free upon request.

**NATIONAL LEAD COMPANY**  
In whichever of the following cities is nearest you:  
New York, Boston, Buffalo, Cleveland, Cincinnati, Chicago, St. Louis, Philadelphia, St. John, N. H., St. Paul, Minn., Pittsburgh, National Lead & Oil Co.

### Onion Eaters Good Humored.

"If people would eat more onions," said the man with the smothered beefsteak, "the world might have to hold its nose, but the population of St. Louis would be a great deal healthier."

"Most of us eat too much meat and grease and bread and butter and not enough vegetables, and the consequence is our systems get clogged up with grease and starch, our livers get out of order, and we grumble at our wives and scold our children and fuss when the baby cries and quarrel with the street car conductors, and get into rows at the office and lose our jobs, not because we are naturally sulky or quarrelsome, but because we are bilious. Why are we bilious? Because we don't eat onions. You never saw a dyspeptic man eating onions. He thinks they are poison, but, in fact, they are the medicine he most needs."

"Whenever you see an onion eater you see a whole-souled, open-hearted, jolly good fellow, who knows what he ought to eat to keep him good-humored. Talk about the staff of life, why bread is only a crutch. There is more nourishment in an onion than there is in a roll. The onion lovers keep the world moving, to say nothing of providing it with much of its fun."—St. Louis Globe-Democrat.

### Tunnel Delimitation.

Delimitation in a tunnel is probably one of the novelties of international law. It has just been carried out between Italy and Switzerland in the Simplon. There has been several incident disputes as to the precise point at which one jurisdiction ended and the other began, and to place such incidents out of the range of possibility for the future, a mixed commission was appointed to draw a boundary line in the bowels of the mountain. Their work has just been successfully completed. It is noted as a curious detail that the temperature in the tunnel during the work was about 52 degrees Fahrenheit.—Philadelphia Record.

### Preferred Sword to Book.

Pope Julius II, who died in 1513, was the first Pope to allow his beard to grow in order, it was said, to inspire greater respect among the faithful. He was called the military Pope. When Michael Angelo was making his statue he said to him: "Holy Father, shall I place a book in your hand?" "No," answered His Holiness, "a sword rather—I know better how to handle it."

### Camphor Farm.

A camphor farm is to be established near Floresville, Tex., under the auspices of the Bureau of Plant Industry of the United States Department of Agriculture. The Government has already a large experimental farm in operation near Wharton, Tex. It is believed that the new industry has wonderful possibilities, and that the time is not far distant when Texas will be one of the greatest camphor producing regions of the world.

### FIFTEEN YEARS OF ECZEMA.

**Terrible Itching Prevented Sleep—Hands, Arms, and Legs Affected—Cured in 6 Days by Cuticura.**

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me, but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. Edward Worell, Band 30th, U. S. Infantry, Fort Crook, Nebraska."

### Typhoid Decimates Army.

In India alone the losses to the British army from typhoid fever amount to half a battalion a year. The latest reports furnish proof that the practice of anti-typhoid inoculations in the army has resulted in a substantial reduction in the incidence and death rate of enteric fever among the inoculated.

A fresh fallacy is often more pleasing than a twice-told truth.

overlaid with applique and the chemisette of lace over chiffon. The chemisette, however, is entirely separate, and consequently several can be made for wear with one waist. All lingerie materials are as well liked as is lace. The trimming also can be almost anything that may be liked. A very pretty effect is obtained by making the shaped bands of silk and either embroidery or braiding them in some simple design, but applique or banding of any sort can be used.

The waist consists of the front and the backs, which are tucked to yoke depth and joined to the band. The chemisette is separate and is adjusted under it and the two are closed invisibly at the back. The sleeves are comfortably full, tucked at their lower edges and joined to the bands. The cuffs are entirely separate and are finished with hems at their upper edges, in which elastic is inserted so that they can be slipped on and off at will.

The quantity of material required for the medium size is three and seven-eighths yards twenty-one, two and seven-eighths yards twenty-seven

three-fourth yards forty-four or five and one-half yards fifty-two inches wide when material has figure or nap; nine and one-half yards twenty seven, five and one-fourth yards forty-four or four and three-fourth yard

fifty-two inches wide when it has not, with twelve yards of braid to trim as illustrated.

### Light Tops for Shoes Popular.

Though the shops are attractive in all their departments, the fact remains that it is in the shoe section that the newest fad has developed. The wearing of light-topped boots has become extremely popular.

### White Velvet Adds Beauty.

Trimnings of white velvet embroidered in gold heighten the beauty of gowns in the new shade of heliotrope that has a pinkish tinge.

### Buttonholes in Collars.

Some new collars have little but tonholes worked in the turndown part and link collar buttons are passed through this, holding the collar in place without pins. A stud matching the link buttons goes with the set.

### Sleeves of Different Fabric.

An oddity of some evening gown is that the short puff sleeves are of different fabric from the rest of the gown.

## PE-RU-NA A MEDICAL COMPOUND

In any medical compound as much depends upon the manner in which it is compounded as upon the ingredients used.

First, there must be a due proportion of the ingredients. Each drug in the pharmacopoeia has its special action. To combine any drug with other drugs that have slightly different action, the combination must be made with strict reference to the use for which the compound is intended. The drugs may be well selected as to their efficacy, but the compound ENTIRELY SPOILED BY THE PROPORTION in which they are combined.

It takes years and years of experience to discover this proportion. There is no law of chemistry, of pharmacy, by which the exact balance of proportion can be determined. EXPERIENCE IS THE ONLY GUIDE.

In compounding a catarrh remedy Dr. Hartman has had many years' experience. In the use of the various ingredients which composed the catarrh remedy, Peruna, he has learned, little by little, how to harmonize the action of each ingredient, how to combine them into a stable compound, how to arrange them into such nice proportions as to blend the taste, the operation and the chemical peculiarities of each several ingredient in order to produce a pharmaceutical product beyond the criticism of doctors, pharmacists or chemists.

WE REPEAT, THAT AS MUCH DEPENDS ON THE WAY IN WHICH THE DRUGS ARE COMBINED AS DEPENDS UPON THE DRUGS THEMSELVES.

The compound must present a stability which is not affected by changes of temperature, not affected by exposure to the air, not affected by age. It must be so combined that it will remain just the same whether used in the logging or mining camps of the northwest or the coffee plantations of the tropics.

A complete list of the ingredients of Peruna would not enable any druggist or physician to reproduce Peruna. It is the skill and sagacity by which these ingredients are brought together that give Peruna much of its peculiar claims as an efficacious catarrh remedy.

However much virtue each ingredient of Peruna may possess, the value of the compound depends largely upon the manner and proportion in which they are combined. The right ingredients, put together rightly, is the only way a medical compound can be made of real value.

### Trolley in Damascus.

A French company has secured the franchise for the construction of a trolley line in the city of Damascus. The concession is virtually a monopoly of all electrical privileges, including telephones, telegraph, light and power transmission. The power will be secured from the falls of the River Barada, at Et Teklye, 22 miles from the city. At the present time three and one-half miles of trolley line connecting the suburbs with the city are under construction.

### Immense Area of Canada.

Canada is as large as 30 United Kingdoms. She has received over half a million immigrants in ten years.

People appreciate the delicate taste and natural action of Garfield Tea, the mild herb laxative. Best for liver, kidneys and bowels. Guaranteed under the Pure Food and Drug Law.

A man is never too busy to listen when the lady on the dollar talks.

## MOTHERS Of Skin Tortured Disfigured Babies
