

Pe-ru-na Relieves Spring Catarrh.

MISS DORA HAYDEN.
"Without hesitation I wish to thank you for the great relief I have found in your valuable medicine, Peru-na, and will call the attention of all my friends suffering with catarrh to that fact. Besides I cheerfully recommend it to all suffering with catarrh in any form."—Miss Dora Hayden, 819 6th St., S. W., Washington, D. C.

A Case of Spring Catarrh.
Mrs. N. P. Lawler, 423 1/2 N. Broadway, Pittsburg, Kas., writes: "Last spring I caught a severe cold, which developed into a serious case of catarrh. I felt weak and sick, and could neither eat nor sleep well. A member of our club who had been cured of catarrh through the use of Peru-na advised me to try it, and I did so at once. I expected help, but nothing like the wonderful change for the better I observed almost as soon as I started taking it. In three days I felt much better, and within two weeks I was in fine health. Peru-na is a wonderful medicine."

An Insult to Army and Navy.
When the Commander-in-Chief of the United States Army is asked as President of the United States to approve the proposed constitution of the new State of Oklahoma he will find therein the following stipulation: "No officer, soldier, or marine of the regular army or navy of the United States shall be entitled to vote at any election in this State; provided that this section shall not be construed to include members and officers of the State militia." This provision is a gross insult to the army and navy, and a wicked invasion of the rights of every retired soldier and sailor who may now or hereafter reside in the State of Oklahoma. There are within the limits of the new State many retired officers and men of the army who have large property interests and have done much to prepare the Territory for the dignity of Statehood, yet it is here deliberately proposed to disfranchise these citizens and subject them to the injustice of taxation without representation. The adoption of the above-quoted clause by the constitutional convention of Oklahoma has provoked widespread indignation.—Army and Navy Journal.

Arc Lights on Trains.
Western railroads have begun to plan the installing of arc electric lights on passenger trains de luxe. These are to be operated on a battery of 50 cells, which will prevent fire or explosion following a wreck. The use of the incandescent electric lights on trains was regarded as a distinct advancement, but the arc lights glow with a light so much whiter and softer that they will be adopted by progressive lines. A test made in Chicago during the week by one of the railroads was entirely satisfactory. The battery is ample for a 50-hour run.

Land Values in New York.
Trinity Building, just north of the old churchyard, in Broadway, New York, pays returns on a valuation of \$5,000,000. In 1857 the land with the building on it, which stood until a few years ago, was bought for \$200,000. Farther up Broadway, for the site on which the Astor House stands with the original building on it, Jacob Astor paid \$60,000. The land alone is now worth \$3,000,000.

The Farmer's Wife
Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it? The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad food. If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as detailed on the wrapper of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

The Girl Who Tries to Conquer New York.

By MRS. DIMMIS DENISON.
"I know of nothing more pathetic," said a woman to me, lately, "than the one face one is sure to find at every boarding house in New York—the face of the girl who has just come to conquer the city. To me such faces are more tragic than an army with banners. Why doesn't she go home?"
Now, why should she go home—the girl who has just come to conquer the city? The women who are at the heads of their professions do not go home, and they are not going to keep their places always. Who will take their places if that army of eager, confident young women at the boarding house tables of New York should suddenly go home?
There came a girl to New York, three years ago, who went to see one of the successful women in her profession.
"My dear young friend," said the successful woman, "go home. I have an average of ten girls a day who come to me as you have come. I know girls of refinement—collegiate-bred and clever—who cannot earn five dollars a week in this town. Go home and stay there."
"But you didn't go home," suggested the girl.
"That was because I didn't know what I was doing," replied the successful woman.
The girl did not go home, however. She stayed, and now she is earning a salary almost equal to that of the successful woman—for New York is indeed a fairy city if one knows a little magic oneself.
To every girl who has come here to make her way I should like to say two things:
First, know yourself; that bit of advice has never yet been equaled.
Second, if it is not your pride, nor your desire, nor your discontent at home, but your sober judgment of your own ability and perseverance that leads you to believe honestly that you can win—then stay.
Given health, and with no pressing call of duty at home, any girl who understands her own personality, and who stays in the belief I have just mentioned, holds her future in her own hands. In her own hands! There, alas, is the rub; for upon the way she juggles the future with her own clever hands everything depends, far more than on the intervention of fate.—Success Magazine.

New York's Extravagant Tax.
It costs New Yorkers \$31 a head to be governed. In Philadelphia and in Chicago it costs only \$13 a head, and citizens are provided with police, fire, sanitary and other protection common to large cities. In Buffalo the figure is \$12; in Washington, Bridgeport, Schenectady and cities of that sort, \$11 per capita pays the tax; in Houston, Texas, the charge is under \$10; in lively Los Angeles, \$7.50; in San Antonio and Seattle each collect \$6.50, and Nashville, Tenn., is at the bottom of the list of progressive cities with a taxation of about \$6 per capita, less than one-fifth of New York's rate.
The average city tax throughout the country is probably between \$10 and \$11 per capita, or almost exactly the amount by which New York has raised its per capita figure in only nine years.—Broadway Magazine.

Fruits by the Roadside.
The province of Hanover, Germany, owns 175,794 fruit trees planted along the sides of 1976 miles of highways. There are pear, cherry, plum and apple trees. Apples are the most numerous, and give, upon the whole, the best returns. The planting of trees began in the early part of the last century. Those which are too old to be of service are being replaced. But a large part of the highways thus utilized as orchards have been constructed since 1870. The gross income from these trees has reached nearly \$40,000 in a season. The maintenance costs about half the average product, which is a little over twelve and a half cents per tree.—Youth's Companion.

Of Proved Honesty.
A small town out West had for a long time a chief of police, one Alf Church, noted for his bluntness and honesty. One day a grocer went to him for information about a certain Joe White, who had applied for credit and a book at his store, and the following dialogue ensued:
"Good mornin', Mr. Church."
"Mornin'."
"Do you know Joe White?"
"Yes."
"What kind of a fellow is he?"
"Pretty fair."
"Is he honest?"
"Honest? I should say so. Been arrested twice for stealing and acquitted both times."—Harper's Weekly.

How the Printer Erred.
It was a typographical error that threatened to bring streaks of gray into the locks of the editor of a newly started weekly which purported to chronicle the doings of the smart set of a Western city. In reality, however, it sold out the edition and filled the readers with a desire to see what would develop in the succeeding numbers. The subject of the paragraph was a pink luncheon given by a well-known matron. When the edition was given to the public it was found that the opening lines of general eulogy were followed by the bald statement, "The luncheon was punk."—Lippincott's.

THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of **The Well Informed of the World.**

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of **Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and black heads. After taking Cascarets they all left, and containing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets."

Canada's Postal Protest.
Two United States postal officials have been at Ottawa negotiating a new arrangement for second class matter—newspapers and periodicals. Some time ago the Canadian authorities gave notice that the existing arrangement made in 1875 was unsatisfactory. The chief complaint is that the United States is sending 10 tons of this class of mail into Canada for every ton returned, and that the present free exchange is one-sided in its benefits.—Canadian Courier.

"THE MARRYING SQUIRE"
Justice Geo. E. Law, of Brazil, Ind., Has Married 1400 Couples.
Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title "The Marrying Squire," by which he is known far and wide, having already married some 1400 couples. Ten years ago he was Deputy County Treasurer. "At that time," said Justice Law, "I was suffering from an annoying kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."
Sold by all dealers. 50 cents a box. **Foster-Milburn Co., Buffalo, N. Y.**

Awful Humor Eating Away Face—Body a Mass of Sores—Cuticure Cures in Two Weeks.
"My little daughter broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away. Her ears looked as if they would drop off. Neigh's advised me to get Cuticure Soap and ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a newborn babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 701 Corn St., Akron, Ohio, Aug. 30, 1905."

Glacier Ice for Sale.
Glacier ice is now delivered to some of the larger consumers of Lyons and other cities of Europe. There are so many railways in the Alps at present that it has been found profitable to gather this ice and transport it to the cities, where it is preferred to other ice because of its hardness and lasting qualities. This ice is blasted and mined in the same manner as stone is quarried.

\$100 Reward, \$100.
The readers of this paper will please learn that there is at least one dreaded disease that science has been able to cure in its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known. The medical fraternity, Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and cleansing surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the system and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer \$100.00 for any case that it fails to cure. Send for list of testimonials. Address **F. J. Higher Criticism.
Much depends upon the procedure followed upon the reading of the Bible. The reader should have about the book which falls into his hands what his judgment tells him. The greatest Bible readers, for the most part, are those who are taught to read the Bible as it is, and who do not discover conflicting statements which pass them as mysteries, but by any sense errors. Consider either skip those peculiarities or attempt to smooth them over. The work of the higher critics has been to find these statements got into the Bible and to candidly point out errors found.

HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever. In the good old-fashioned days of our grandmothers few drugs were used in medicines. They relied upon roots and herbs to cure weaknesses and disease, and their knowledge of roots and herbs was far greater than that of women today.

It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

MRS. C. E. FINK
Lydia E. Pinkham's Vegetable Compound
is an honest, tried and true remedy of unquestionable therapeutic value. This medicine made from native roots and herbs contains no narcotics or other harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.
Mrs. C. E. Fink, of Carnegie, Pa., writes:—Dear Mrs. Pinkham:—"I wish every suffering woman would take Lydia E. Pinkham's Vegetable Compound and write to you for advice. It has done me a world of good and what it has accomplished for me I know it will do for others."
When women are troubled with Irregularities, Displacements, Ulceration, Inflammation, Backache, Nervous Prostration, etc., would remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.
