BOY SHOT HIMSELF.

Was Examining a Pistol which had Failed to Discharge—Bullet Entered His Brain.

Ralph Whittaker, aged 16 years, son of Mr. and Mrs. Tyson M. Whittaker, accidentally shot himself with a 22-calibre revolver Sunday forenoon. Ralph and another boy were over near P. R. R. round house hunting muskrats. Two shots had been fired but the third one failed to go off and Ralph was looking in the muzzle of the revolver as he turned the cylinder to see if he could find why the revolver did not work. In some manner the revolver was discharged and the bullet struck the boy on point of nose and lodged in his brain, but did not kill him. The boy was carried to Dr. Neale's office and in afternoon was sent to Adrian Hospital in Punxsutawney. His right side is paralyzed and his chances for recovery are not favorable. A report from the hospital this morning is that there is no change in the boy's condition.

Team Ranaway.

J. D. Woodring & Son, grocers, have a spirited team of bay horses for delivery work, and while the team is not wild or hard to manage, yet if they are not watched carefully they will take a run when left standing without a driver or being tied. Saturday morning they were hitched to the delivery wagon and the driver stepped into the barn for something and that was their opportunity to get away. They ran down the hill from barn, down Pike st., up Main st. and down Fourth st., turned around at B. R. & P. freight station and stopped. They ran at wild speed, but made all turns as nice as if being driven and when they stopped the little spring wagon was not greatly damaged. A bent axle and twisted spring was about all the damage done to it. It is remarkable how the team made the run and turned corners without smashing the wagon to pieces.

The reunion will bring a very large number of strangers to Reynoldsville and their first impression of the town will be decidedly better if we put on gala attire to welcome the order.

A Delightful Occasion.

Saturday, July 13th, will be long remembered as a happy day to M. M. Moore and wife.

About one hundred and fifty relatives, friends and neighbors met at their home to have a good social time. Cares were forgotten, all grew young again and were just a merry crowd of boys and girls. Old friendships were renewed and memories of other pleasant reunion days recalled. When the dinner hour arrived a sumptuous feast had been spread on the table under the old grape arbor.

Every one did justice to the feast and it seemed to be one of the most enjoyable hours of the day. After the dinner hour a spirit of good humor filled everyone and contributed to the general happiness of the occasion.

A portion of the afternoon was given to music followed by an address by Rev. J. W. Crawford, of Sykesville, who spoke of the great blessings of friendship and reunions here and compared it to the great reunion in our Heavenly Father's home.

J. G. Allen followed with a short address on bygone school day pranks and recollections. The day was thus spent in a very pleasant manner and we feel sure all carry with them pleasant memories of this delightful occasion.

Awning Caught Fire.

In some manner the awning in front of Stoke & Feicht Drug Co. store caught fire Sunday and raised considerable smoke, but a few buckets of water extinguished the blaze before any other damage was done but destroying the awning. It is supposed that a match had been dropped into the folds of the awning, which was up at the time.

AN EDITOR ELECTED PRINCIPAL.

Prof. S. C. Hepler Was Choice of School Board—Has Had Experience in School Work.

Thursday evening of last week the school board of this borough elected Prof. S. C. Hepler, editor of the New Bethlehem Leader, as principal of the public schools for ensuing term. Prof. Hepler is a graduate of the Clarion State Normal and Soule College, of New Orleans, La. He has had fourteen years' experience as principal of schools, six years in Leechburg and eight years in New Bethlehem. Four years ago Prof. Hepler gave up school work, bought New Bethlehem Leader and took up newspaper work. During his newspaper career he kept in touch with school work by lecturing at county institutes.

Prof. Hepler does not expect to move to Reynoldsville during the ensuing term of school. If he gives satisfaction and is elected for a second term he will then move to town.

Prof. Hepler's son was 21 years old last week and on Wednesday night talked to his father about giving him full control of the Leader. About 10.00 a. m. Thursday Prof. Hepler was informed that the school board of Reynoldsville had not elected a principal, but would hold a meeting Thursday evening to elect one. He decided to make application, came to Reynoldsville on noon train, put in an application for principalship and was elected to the position that evening.

STATE ROADS IN WINSLOW.

Petition Circulated to Get Public Highway Commissioner to Make a Change.

The state engineer has made survey from Reynoldsville borough line to Clearfield county line above Rathmel, a distance of four miles, as requested by the supervisors, for a state road. The money has been appropriated and the road was to have been built this year. An effort is now being made, and a petition circulated, to get the Public Highway department to only build the road from borough line to Rathmel, a distance of two miles instead of four, and build the other two from West Reynoldsville borough line to Sandy Valley, two miles, making four miles in the township as arranged for, but instead of making it in one stretch, as originally asked for and intended, divide it between Reynoldsville and Sandy Valley and Reynoldsville and Rathmel.

State Engineer Charles F. Hamilton, of Franklin, County Commissioners Kelley and McGaw, of Brookville, and Supervisors Norris, Wood and Mulholan held a conference at this place last Thursday evening and Friday, but did not settle the matter. It was referred to the Highway Department to give an opinion on the requested change.

There are different reports concerning this matter and considerable feeling stirred up over it.

Robert M. Wadding Dead.

July 15, after an illness extending over seven months, Robert M. Wadding, a highly respected citizen of South Brookville, died from Bright's disease and heart failure. A number of years ago Mr. Wadding resided in Reynoldsville and taught school in a little building that stood near corner of Jackson and Fifth streets. Ye editor was one of his pupils.

Robert M. Wadding was born August 18, 1832, being 74 years, 10 months and 17 days of age at the time of his death. He was a veteran of the Civil War, having served nearly three years with Co. I, 148th Regiment, P. V. At Gettysburg he was badly wounded, and was in the hospital for about six months following his injury, after which he reported at the front and was appointed a clerk at division headquarters, under General Miles, where he served until the close of the war.

He united with the Presbyterian church in boyhood and was a zealous member of that church. He is survived by his wife and one son, Albert M. Wadding, now a shoe merchant in Brookville, who clerked in the company store in this place several years ago.

Nolan Park Getting Ready.

The management of Nolan Park is making great preparations for the grand Harvest Home Picnic and Carnival to be held there August 14, 15, 16 and 17th, 1907. This park is located on the P. S. & C. R. R. about midway between Clarion and Brookville, and at this season of the year is one of the most beautiful places in this part of the state.

One of the leading attractions, which has been secured only with great difficulty, is the celebrated diving horses "King" and "Queen." The expense of securing these horses alone will be almost a thousand dollars. They make a dive from a scaffold fifty feet high into twenty feet of water. The horses walk up the scaffold and make the dive freely without a word of direction from anyone. This one feature is worth going a hundred miles to see, and is absolutely free, the performance being given each afternoon and evening during the Carnival. In addition there will be probably a dozen other equally good attractions, and there is no question but that it will be the biggest event held in Western Pennsylvania this year.

It is estimated there will be at least 50,000 people in attendance this year and to handle this immense crowd arrangements are being made by which special through trains will be run between Reynoldsville, Brookville, New Bethlehem and Nolan Park. These special trains, the schedules for which will be announced later, will be run in addition to the regular trains, and during the Carnival 30 passenger trains will arrive and depart from the park daily. There will be excursion rates between DuBois, East Brady, Clarion and all intermediate points, to Nolan Park.

Among the prominent speakers will be State Treasurer William H. Berry, who will make an address in the grove at 10 o'clock a. m. Thursday, August 15, and it is very probable Hon. Joseph G. Cannon, Speaker of the House of Representatives of the United States, will be present at least one day.

For further announcements watch this paper and see posters and handbills.

Will Build Bad Sidewalks.

At a meeting of town council a resolution was passed for the borough authorities to proceed immediately to enforce the sidewalk ordinance by building sidewalks where required and charge expense, with additional 20 per cent, to property owners who have failed to pay any attention to the notice from council to rebuild sidewalks where needed.
