

MONS. BRETON, THE MAN WHO LEAPS THE FORTY-FOOT GAP IN AN AUTOMOBILE.

Mons. Breton will give two free attractions each day during Old Home Week. It is a thrilling sight to see the automobile leap the forty foot gap. Mons. Breton is the originator of and the only person in the world who actually leaps a gap with a fully equipped (although small) automobile. This machine weighs 400 pounds and carries a 3-horse power gasoline engine, air cooled, which propels it on the street.

"Regular as the Sun"
Is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by Stoke & Feicht Drug Co. druggists. 25c. Reynoldsville and Sykesville.
