The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Stoke & Felcht Drug Co. Druggists, 500, Reynoldsville and Sykesville.

Hickory Creators-Sousa Bandetta Renders Classics

Freak Aggregation Gives an Interesting Exhibition of the Grotesque and Arabesque.

The cosmopolitan aggregation which goes under the name of the Hickory Creators Sousa bandetta, looking strange enough to be a gang of banditti, gathered in the headquarter rooms last night and from there wandered down into Main street and then just rambled and rambled all around the town. They are a grotesque looking bunch and the airs they rendered were so sublimely melodious that the great snakes in the wild dragon show shed tears when they heard it. The musicians were experts in their way and the noises they made and costumes they wore were simply great. The bandetta will be out again before the week is over and in stronger force.

Main Street Ablaze with Electric Lights and Illuminations and there was Fun for all at the Street Shows and Free Attractions.

The first night of the Old Home Week carnival brought out a crowd which surged back and fourth until midnight and Main street, aglow with electric lights, with its decorations and illuminated street arches, presented a brilliant appearance. Thousands of bags of confetti were given away or sold and a continual shower of the stuff greeted the passing promenader. With the noise of merry-go-round and ferris wheel, the shouts of burkers in the booths and at the street shows, the phonographs of nickelodeons and noise of the bandetta, Main street was in all respects a midway pleasure with fun for all who cared to participate. The crowd was orderly and no disturbance occurred.

Dr. J. D. Tucker, of New Castle, was a visitor in town last week.

THE CALL OF THE SEA

"The water is fine ; come in!"

This is the call of the sea, the generous invitation of Old Neptune to partake of the delights of his realm, and it comes clear and distinct from each of the points in the greatest chain of seashore resorts in the world—the wave washed New Jersey coast.

Gay Atlantic City; witching Wildwood; New Cape May in the first flush of its rejuvenation; Sea Isle City, Ocean City, with their smaller sister-resorts nearby; Asbury Park and Long Branch where sylvan shades meet incoming billows—each echo the call to young and old: "Come one; come all!"

Unequaled opportunities are offered to pay a visit to the New Jersey sea coast resorts in the great seashore excursions of the Pennsylvania Railroad now being run at frequent intervals.

From Pittsburg and points in Western Pennsylvania the remaining dates are August 15 and 29, and September 12. Tickets are sold to Atlantic City, Wildwood, Cape May and other resorts on the Southern New Jersey coast at VERY LOW RATES.

These tickets are good for return passage within sixteen days, including date of excursion, and are good to stop off at Philadelphia on the return trip within limit. Special trains are run on dates of excursions through to Atlantic City via Delaware River Bridge Route without change of cars.

Full details of these fine outings beside the sea may be obtained of Ticket Agents.
