

Thousands Of Dollars Going Up In Smoke Every Day!

COKE OVENS NEAR TOWN

If the smoke from the coke ovens near town was put through the proper process there would be enough gas to supply all the houses and factories in Jefferson county and more.

If people a few years ago could have known the price of lumber now, there would not have been so much of it sent up in smoke.

You, Mr. Householder!
What Are You Wasting?
How about those

GAS BILLS?

We saved one man in town over \$4.00 a year. Not very much, but this waste had been going on over ten years—\$40.00. For another party, we cut their gas bills more than half. Probably we can do as well for you. Consult us to-day. If we can do anything for you we will tell you so.

THE HIGH SCHOOL BULLETIN

Editor-in-Chief, Graydon Robinson.
Senior Reporter, Elvae Best.
Junior Reporter, May Sterley.
Sophomore Reporter, Jane Smith.
Freshman Reporter, Ruth McKee.

At the first meeting of the Emerson Literary Society the following officers were elected: President, Edgar Shields; Vice President, Marie Altman; Secretary, Melissa Sensor; Assistant Secretary, Milo Coleman; Pianist, Alice Mitchell; Critic, Miss Elvae Coleman; Attorney, Prof. Bright; Editor-in-Chief, Graydon M. Robinson; Senior Reporter, Elvae Best; Junior Reporter, May Sterley; Sophomore Reporter, Jane Smith; Freshman Reporter, Ruth McKee.

The Literary Society has been increased by the addition of the Sophomore and Freshman classes. The Sophs and Freshies should feel greatly elated because they are allowed to meet with the upper classes.

The Senior class of 1908 will be the largest ever graduating from the high school, on condition that we all get through. But how about the next Senior class, with only six in the Juniors at present, all girls?

The R. H. S. football squad is about the largest ever out. Sixteen men and Captain Shields feels confident he will have a strong team. If the town will support the team there will be some great games here. We want everybody to help a little. There will be a game here every other Saturday and several games on Wednesday during the season.

"Sprechen Sie Deutsch?" If you don't, get to work. No discourse in English allowed during German class.

The lecture course for this year was secured from the Brookway lecture bureau. The numbers are: November 11, Hrudy Brothers; Nov. 27, Walter M. Chandler; Jan. 11, Strickland W. Gillilan; Feb. 5, Lyric Glee Club; March 13, Judge Willis Brown. Hrudy Brothers and the Lyric Glee Club are musical organizations of far-famed ability. Gillilan was on the course for last year but on account of sickness was unable to be here. The lecture course this year is sure to be a success, as great care was taken in selecting the numbers.

Inez Woodford started to school Monday. She missed school last week as she was out of town.

Room 15 is very quiet this year. Mr. Murray and Mr. Shields have front seats this year.

Mothers need not worry this year about their sons being maimed by football practice, for they now have Shields at their heads.

Four words answer all Miss Milliren's German questions. They are: "Ich verstehen Sie nicht!"

Figures found on the board which illustrate neither Physics nor Geometry are called works of art. More often they are works of Ed.

Teacher—How can you see the pores in your hand?
Mr. Hill—Through a telescope.

Sophomore—What's that? "Oh, yes! A little red feather."

"Oh, my! Caesar!"

Sophomore class is very sorry to lose one of its best members, Sylvia Epler, but we wish her every success in her new school.

Health in the Canal Zone
The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by Stoke & Felcht Drug Co., druggists, 50c. Reynoldsville and Sykesville.

Excursion to Buffalo and Niagara Falls.
Via B. R. & P. Ry., Sunday, Sept. 22nd. Train leaves Sykes 6.00 a. m. and returning leaves Niagara Falls 7.00 p. m. and Buffalo 8.00 p. m. Tickets also good returning from Buffalo Monday, Sept. 23. Round trip fare \$2.50.

Letter List.
List of unclaimed letters remaining in post office at Reynoldsville, Pa., for week ending Sept. 14, 1907.
Mrs. W. J. Brink, Miss Dolly Entry, Mrs. Kate Hankey (2), B. M. Turner.
Say advertised and give date of list when calling for above.
E. C. BURNS, P. M.

New Method of Preventing the Decay of Mine Props.

In co-operation with the Philadelphia and Reading Coal and Iron Company, the Forest Service is making arrangements at Pottsville, Pa., for conducting a series of tests in the preservation of mine props by a new combination treatment of the creosote and zinc-chlorid processes. The open tank method will be used in making these tests.

Creosote, under most conditions, is the best preservative in general use. It is not only a powerful antiseptic but is also a non-absorbent of moisture. The chief obstacles in the way of its universal adoption in wood preservation are its comparatively high cost and the limited supply. Zinc-chlorid, on the other hand, can be obtained in unlimited quantities and is very cheap. Its antiseptic properties are all that can be desired, but it is soluble in water. It is absorbed by the timber in an aqueous solution and when the treated timber is exposed to damp air or soil, the leaching out of the chlorid is only a matter of time.

If the results of the proposed tests are successful, it will be possible, at a small cost, to permeate the interior of the wood with zinc-chlorid. If the timber is then quickly taken out of a hot bath of zinc-chlorid and plunged into a cold bath of creosote, the oil will penetrate a thin outer zone of the timber and so prevent the absorption of water and consequently the leaching out of the chlorid. By this method all the advantages of a thorough impregnation with creosote can be obtained at a very much reduced cost.

It will not be necessary to wait several years for proof of the success of the tests. Chemical analysis of cross-sections of the wood will reveal the thoroughness of the penetration of the zinc-chlorid, and will also show the condition of the enveloping jacket of the creosoted wood, which is expected to exclude water from the interior of the treated timber. If the first penetration is ample and the outer zone is practically waterproof, the test will be considered successful.

The Touch That Heals

Is the touch of Bucklen's Arnica Salve. It's the happiest combination of Arnica flowers and healing balsams ever compounded. No matter how old the sore or ulcer is, this Salve will cure it. For burns, scalds, cuts, wounds or piles, it's an absolute cure. Guaranteed by Stoke & Felcht Drug Co. druggists, 25c. Reynoldsville and Sykesville.

The Burkhouse reunion will be held at Charles Burkhouse's home in Washington township on Sept. 21st. All relatives and neighbors are invited to come and bring well filled baskets.
Chas. Burkhouse.

WANT COLUMN.

Rate:—One cent per word for each and every insertion.

Parlor furniture for sale at a bargain. Inquire of C. F. Hoffman.

PENNSYLVANIA RAILROAD BULLETIN.

WHY YOU SHOULD SEE JAMESTOWN

The Jamestown Exposition is no longer a prospect; it has developed into an interesting reality. Its field is distinctly historical, and it liberally illustrates by picture and reproduction, the development of American civilization and American institutions from the day of the first settlement on Jamestown peninsula in 1607 through three hundred years to the present time. Famous buildings in the nation's history have been reproduced by thirty different states, filled with memories of the olden times and of memorials of the upward march.

The National Government has taken a keen interest in the Exposition, and is one of its chief exhibitors. The display of modern warships of all nations on Hampton Roads is a unique and attractive feature, and the military manoeuvres lend a stirring touch to the daily program.

The Jamestown Exposition is a prominent event in our National history and should be visited by every American citizen who desires to see what three hundred years of American enterprise has wrought in our land.

The Pennsylvania Railroad offers attractive service via Philadelphia and its "Cape Charles Route," by its routes via Baltimore and the Chesapeake Bay lines, via Washington and the Potomac River line, and via Washington and Richmond. The rates are reasonable and the fare varies according to the route and length of the stay.

Ask Ticket Agents for rates of fare, stop-over privileges, and time of trains.

EXCURSIONS

The various railroads run excursions Wednesdays, Thursdays and Saturdays. Ask your ticket agent.

SIDE LIGHTS

Floral Hall, Package Express, "Pharaoh's Daughter," Theatorium, Ferris Wheel, Coffee Packing Machine, Pony Track, Toboggan and scores of other entertainment.

BOSTOCKS' ANIMAL ARENA

Twice as large as last year. Same Big Show as shown in Paris, London and New York. 100 animals.

IMPROVED \$100,000

The Exposition—the only permanent Expo in the country. Improves each year. It's so successful that the season has been extended a week longer than ever before. New Music Hall; increased seating capacity; new stage; improved acoustics.

There is nothing more enjoyable than to form a party, go to Pittsburg, shop for a few hours and then take in the big show at the Point in the afternoon and evening. The WORLD'S BEST Musicians are there and you can hear a Two Dollar Concert, see the sights in the monstrous buildings—
