Notice to Subscribers.

A new ruling by the Postoffice department, which we publish elsewhere in this issue, makes it necessary for us to insist that all subscribers who are one year, or more, in arrears must pay their arrearage. The postoffice ruling requires that when a subscriber is over one year in arrears that a one cent postage stamp will have to be put on every paper sent through the mail to such delinquent subscriber. We are simply compelled to collect all arrearages over one year or not mail the paper to delinquents. Just why the postoffice department should object so strenuously against a publisher extending credit to a subscriber over one year we cannot say, but such is the ruling and it must be obeyed. A few weeks will be allowed publishers to collect arrearages, and we hope that all our subscribers who are more than one year in arrears will make prompt payment.

Gillilan Irresistibly Funny.

Prof. Strickland W. Gillilan, humorist, gave his lecture, "Sunshine and Awkwardness" in Assembly hall last Friday evening before a large, appreciative and delighted audience. He is certainly an original and unique character; irresistibly funny. He gets fun out of the ordinary events; turned and twisted words and phrases to an exceptionally ridiculous degree, and yet his humor was seasoned with beautiful thought and bad a dash of pathos that was delightful. His monologues were delivered in a droll, easy, conversational style and for almost two hours Mr. Gillilan kept his hearers in constant good humor. On account of the fact that the audience was appreciative and quick to see a point, about a half hour more time was given than is usually given to an audience by the humorist Mr. Gillian is not only a natural born humorist, but he is also the author of poems containing beautiful word pic-

BUSINESS ASSOCIATION TO THE RESCUE OF WORKMEN

NEW POSTOFFICE ORDER

Head of Department Says Newspeper Subscribers Not Paid Up Cannot Be Served.

Subscribers to newspapers as well as publishers will be intereseed in a new ruling which has just been promulgated by the Postoffice Department. The order virtually limits the time a newspaper may extend credit to its subscribers by rating papers sent to delinquents as second class transient mail matter subject to the rate of one cent for each paper, instead of matter that was formerly rated at one cent per pound. Following, in part, is the order:

"A reasonable time will be allowed publishers to secure renewals of subscriptions, but unless subscriptions are expressly renewed after the term for which they are paid, within the following periods:

Dailies within three months, Weeklies within one year,

These shall not be counted within the legitimate list of subscribers, and copies mailed on account thereof shall not be accepted for mailing at the second class postage rate of one cent a pound, but may be mailed at the transient second-class postage rate for one cent for each four ounces or fraction thereof, prepaid by stamps affixed. The right of a publisher to extend credit for subscriptions to his publication is not denied or questioned, but his compliance or noncompliance with this regulation will be taken into consideration in determining whether the publication is entitled to transmission at the second class

The order is specific, and means that the publishers of weekly newspapers will be obliged to cut off all subscribers one year in arrears. If this is not done, the right of the publication to pass through the mail as second class matter will be questioned. If this right is denied after investigation, the publication in question may only be mailed at the transient second-class postage rates of one cent for each four ounces or fraction thereof, which would virtually bar it from the mails. The new ruling is a drastic one and will be far-reaching in its effect upon the publishers of the country, especially country publishers, who have been accustomed to extend credit to subscribers.

Reed heard the witnesses and yesterday morning the lawyers' arguments were heard. Co-Operative Project at Glass Plant Imperilled by Insufficient Funds.

AN APPEAL MADE TO THE **BUSINESS ASSOCIATION**

They Call a Meeting Extraordinary and Decide to Assist the Workmen by Getting \$500 Security and a Committee is Hustling Today to Raise the Amount.

The latter part of last week it became vident that the glass workers who are endeavoring to get the Star Glass Co. plant running on a co-operative basis could not raise the amount stipulated as a first payment on stock, and under the agreement, if it was not paid by to-day the deal would be off, the fire taken out of the tank, and hope of operation this spring abandoned. In this dilemma the leaders in the movement stated their case to officers of the Business Men's Association. A call for a meeting extraordinary was issued Monday noon and that night the members gathered at headquarters to devise some way of raising the necessary five bundred dollars.

The meeting opened with President Gillespie in the chair. F. C. Wescont, in behalf of the men, addressed the members, stating briefly the position of the workmen, who, though unable to put up immediate cash, were willing to have the \$500.00 deducted from their pay later. He stated that all other arrangements had been made and that under the proposed agreement the plant was certain to be operated if the money needed couled be secured at once. A general discussion followed in which Messrs. Hall, Nolan, Gillespie, Williams and Weed were the leaders. It was then moved by Lord, seconded by Caldwell, that a committee of three members be appointed to visit the business men of Reynoldsville and induce them to become joint security for the \$500 needed for sixty days. The motion carried and the committee appointed was composed of Messrs. Dinger, Johnston and McEntire. To-day they are hustling for the good of the cause and by nightfall must have the security if the plant is to run. Under the agreement there is little or no risk involved and the amount should be raised with ease.

The Association will hold its regular meeting Thursday evening of this week and every citizen who approves of these efforts to better local conditions should show it by coming out or joining.
