

MISS ANNIE CATRON.

CATARRH MADE LIFE A BURDEN TO ME.

MISS ANNIE CATRON, 927 Main St., Cincinnati, Ohio, writes: "As I have found Peruna a blessing for a severe case of catarrh of the head and throat which I suffered from for a number of years, I am only too pleased to give it my personal endorsement.

"Catarrh, such as I suffered from, made life a burden to me. My breath was offensive, stomach bad, and my head stopped up so that I was usually troubled with a headache, and although I tried many so-called remedies, nothing gave me permanent relief. I was rather discouraged with all medicines when Peruna was suggested to me.

"However, I did buy a bottle, and before that was finished there was a marked change in my condition. Much encouraged I kept on until I was completely cured in a month's time, and I find that my general health is also excellent."

People who prefer solid medicines should try Peruna tablets. Each tablet represents one average dose of Peruna. **Man-a-lin the Ideal Laxative.**

Ask Your Druggist for Free Peruna Almanac for 1908.

MIRACLE REPORTED.

Image of Beautiful Youth is Said to Have Appeared Twice.

A miracle is reported to have occurred in the village church at Brin, France.

On two Sundays in succession during the services on the priest placing the host in the monstrance, the image of a wonderfully beautiful youth was apparent on the wafer.

A great number of the congregation testify to the genuineness of the phenomenon.

Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists; price, 75c. per bottle. Take Hall's Family Pills for constipation.

Captain Sticks to Business.

Captain Watt of the Lusitania, is not noted for affableness. He maintains that the captain's place is on the bridge, not in the saloon, and he believes that he best serves his passengers' interest by insuring their safety rather than by looking after their entertainment.

Piles Cured in 6 to 14 Days.

Pazo Ointment is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

France is responsible for the game of billiards. Devigne invented it in 1572.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

M. Metchnikoff for longevity advises sour milk and an absence of worry.

Itch cured in 24 hours by Woolford's Sanitary Lotion. Never fails. At Druggists.

After Central African Lore.

Prof. Alexander Agassiz, director and curator of the Harvard museum, will head an expedition to Central Africa within a short time for the purpose of pursuing his already extensive scientific investigations. The details of the trip have not yet been fully mapped out, and the identity of those who will accompany him and the length of his trip are not known.

VIRGINIA MERCHANT RID OF A VERY BIG GRAVEL STONE.

Another Remarkable Cure of Serious Kidney Trouble.

C. L. Wood, a prominent merchant of Ferriss, Norfolk Co., Va., was suffering some months ago with frequent attacks of hard pain in the back, kidneys and bladder and the kidney secretions were irregularly scanty, or profuse. Medical treatment failed to cure him.

"At last," says Mr. Wood, "I began using Doan's Kidney Pills, and before one box was gone, I went through four days of intense pain, finally passing a stone, one-half by five-sixteenths of an inch in diameter. I haven't had a sign of kidney trouble since."

Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

THE RESCUE OF ATWATER.

The Corinthian was a ninety-four ton gasolene schooner, carrying a crew of twelve men, including her captain, L. E. Atwater, and sailing from Eureka, Cal. The disaster which involved the loss of two members of the crew occurred on June 11, 1906, the schooner having stranded at about 6 p. m. of that day on the western side of the peninsula separating Humboldt Bay from the ocean, two or three hundred yards off shore and three miles northward of the Humboldt Bay life saving station.

Nine trips with the buoy brought in eight men without mishap, the buoy having been hauled up empty once through a misunderstanding of signals. Only the captain now remained on board. The darkness had since the arrival of the station crew become so great that objects on the ship could not be made out from the shore, and rescue operations had to be carried on altogether by signals. When the buoy came back empty it was again quickly sent out, but while the men on the beach stood waiting for the word to haul in the hawser parted and the whipline also came in, parted and without the tail-block. Four men were despatched for another shuttle, a whipline and shots. While waiting for the extra material those who had remained abreast of the wreck cleared up the tangle of hawser, tackle and whipline under the keeper's direction; and made everything ready for sending out another line. The fourth shot carried the line across the vessel's springstay. After several attempts Captain Atwater got the tail-block aboard and secured it, and the breeches buoy was then hauled out without the hawser and with the traveler block detached. The captain got into the buoy and gave the signal to pull away, but in crossing the rail he was swept out and thrown headlong into the surf. Luckily before the seas could wash him away from the vessel he swam around to the schooner's bow and got hold of the bobstay, to which fortunate circumstance he doubtless owed his life.

The keeper did not suspect that anything had gone wrong with Captain Atwater until the buoy had been hauled in empty. As he had distinctly heard the captain's signal he judged that he had placed himself in the buoy all right but that accident had befallen him after leaving ship. This meant that he was somewhere overboard. The buoy was sent out again, however, and McLean and Surfmen Hunt and Nickerson followed it on the heels of an outgoing wave. McLean was first to reach the schooner, and located Atwater by the sound of his voice. McLean quickly caught up a bight of the whipline that swept within reach and dexterously swung it to the man on the bobstay. The latter fastened the line around his arm and let go the bobstay, and McLean shouted to those on the beach to haul in. By this time the two surfmen had reached the spot where McLean stood, and all three of the rescuers, knowing that they could not retreat quick enough to escape an incoming sea, laid hold of the line. They were none too soon. In another moment a wall of water rushed upon them, bore them down, buried them and with relentless force flung them shoreward. In the course of their journey they were ruthlessly beaten against floating timbers and other wreckage which the sea had torn from the schooner, but through it all they clung desperately to the line. McLean and the surfmen in a bunch and Captain Atwater a few feet further along behind. When the call came to haul in the men on the beach bent to the work with a will, and soon the four men were pulled out of the water "like so many fish hooked through the gills," as Keeper Hennis expresses in his report of the wreck.

—From the report of the United States Life Saving Service.

THE RESCUE OF ATWATER.

The Corinthian was a ninety-four ton gasolene schooner, carrying a crew of twelve men, including her captain, L. E. Atwater, and sailing from Eureka, Cal. The disaster which involved the loss of two members of the crew occurred on June 11, 1906, the schooner having stranded at about 6 p. m. of that day on the western side of the peninsula separating Humboldt Bay from the ocean, two or three hundred yards off shore and three miles northward of the Humboldt Bay life saving station.

Nine trips with the buoy brought in eight men without mishap, the buoy having been hauled up empty once through a misunderstanding of signals. Only the captain now remained on board. The darkness had since the arrival of the station crew become so great that objects on the ship could not be made out from the shore, and rescue operations had to be carried on altogether by signals. When the buoy came back empty it was again quickly sent out, but while the men on the beach stood waiting for the word to haul in the hawser parted and the whipline also came in, parted and without the tail-block. Four men were despatched for another shuttle, a whipline and shots. While waiting for the extra material those who had remained abreast of the wreck cleared up the tangle of hawser, tackle and whipline under the keeper's direction; and made everything ready for sending out another line. The fourth shot carried the line across the vessel's springstay. After several attempts Captain Atwater got the tail-block aboard and secured it, and the breeches buoy was then hauled out without the hawser and with the traveler block detached. The captain got into the buoy and gave the signal to pull away, but in crossing the rail he was swept out and thrown headlong into the surf. Luckily before the seas could wash him away from the vessel he swam around to the schooner's bow and got hold of the bobstay, to which fortunate circumstance he doubtless owed his life.

The keeper did not suspect that anything had gone wrong with Captain Atwater until the buoy had been hauled in empty. As he had distinctly heard the captain's signal he judged that he had placed himself in the buoy all right but that accident had befallen him after leaving ship. This meant that he was somewhere overboard. The buoy was sent out again, however, and McLean and Surfmen Hunt and Nickerson followed it on the heels of an outgoing wave. McLean was first to reach the schooner, and located Atwater by the sound of his voice. HORRIBLE FIGHT TO A FINISH.

Ten thousand persons recently witnessed the most cruel exhibition that has been presented to the border habitues of the bull rings for the past seven years, at the arena at Ciudad Juarez, Mexico. Seven years ago there was a battle between a lion and a bull in which the lion tore the bull to shreds and roared victoriously at the quivering bloody flesh of the vanquished beast.

To-day a buffalo from the plains of North Dakota battled with a fierce long horned bull from the Terrazas ranch in Chihuahua and both are dead. It was the worst battle that has ever been seen. The animals were evenly matched and they fought until both dropped in their tracks.

Their bodies were practically ripped to pieces and their entrails were dragging in the dust of the arena. It was a battle that recalled the tales of the Coliseum at Rome in the times of the Caesars, and strong men sickened at the sight. Men accustomed, week after week, to see matadors dispatch bull after bull, but unaccustomed to such a sight as they saw this afternoon became as women. They were many visiting women among the crowd to-day and they were taken from the ring in an unconscious condition at the sight of the awful conflict; men turned their faces away.

The animals were goaded to fight by bull ring employes, who pricked and speared them until they were angry enough to fight anything. Then as each animal rushed at the other there was a yell from the crowd and a roar of anger from the contestants. Lunge after lunge, the maddened animals made at each other and almost every time the crowd horns went home in some part of the anatomy of the opposing beast. Great wounds were gored in the legs, thighs, necks and sides of the beasts and their loins were ripped open as if they were but paper undergoing the punctures of a penknife.

It was a fierce and bloody contest and Senior Felix Roberts, the owner of the bull ring, pronounced it "The grand attraction." Roberts furnished the bull and laid off the picadores and other fighters for the day. George Phillips of South Dakota, brought the buffalo all the way from the far northwest for the fight. Most Americans witnessed the awful spectacle than Mexicans.

HOUSEHOLD AFFAIRS

SEWER GAS IN HOMES.

The American Analyst gives the following test for the detection in an apartment of sewer gas: Saturate unglazed paper with a solution of one troy ounce of pure acetate of lead in eight fluid ounces of rain water; let it partially dry; then expose in the room suspected of containing sewer gas. The presence of gas in any considerable quantity soon blackens the test paper.

OLD NEWSPAPERS USED.

Old newspapers may be made to save a lot of work in the kitchen. They are very convenient, among other things, for peeling vegetables upon. When the work is done the peelings can be rolled up in the paper and put into the fire or the garbage pail. Thus the washing of an extra pan is saved, as the vegetables can be washed off under the faucet as they are peeled.—New York Tribune.

WARNING FOR CHILDREN.

The Illinois State Board of Health urges parents to warn their children not to use white in school pencils, books, etc., of other children, not to put into their mouths pencils, toys or sharpsharps which may have been handled by other children and not to use the school drinking cup without thoroughly rinsing it. These precautions are necessary not only when there is disease in the neighborhood, but at all times.

ABSTINENCE IN SCOTLAND.

A generation ago water-drinking occupants of civic chairs were very rare in Scotland. Total abstainers, however, can claim as a result of the recent elections that 46 Scottish burgs are presided over by abstaining provosts. The list includes Sir William Bisland, Bart, Lord Provost of Glasgow, and Lord Provost Gibson, Edinburgh.

DOCTOR SAID "USE CUTICURA"

For Bad Case of Eczema on Child—Disease Had Reached a Fearful Stage—Order Resulted in Cure.

"When I was small I was troubled with eczema for about three months. It was all over my face and covered nearly all of my head. It reached such a state that it was just a large scab all over, and the pain and itching were terrible. I doctored with as able physician for some time and was then advised by him to use the Cuticura Remedies, which I did and I was entirely cured. I have not been bothered with it since. I used Cuticura Soap and Cuticura Ointment, but do not know exactly how much was used to complete the cure. Miss Annetta Wilson, North Branch, Mich., Oct. 20, '07."

CLEANING SILK BLOUSES.

Silk blouses can sometimes be sponged with soap and water with impunity in order to restore colors which may have faded, but it is always wisest to experiment on an odd remnant of silk or on a small piece which is hidden under the waistline before subjecting the whole of the blouse to this treatment.

If, however, it is evident that silk will not stand an application of tepid soapsuds, French chalk will often have almost as good a result, says Woman's Life. The chalk should be spread somewhat thickly over the surface of the silk and then covered with a large piece of blotting paper, when a weight should be placed on the top and the blouse left for two or three days, this pressing effectually removing dust stains, while grease spots will likewise be eliminated at the same time.

THE EPICUREAN'S CORNER

Popovers—One cup flour, one cup sweet milk, one egg, generous pinch salt. Beat all together with an egg-beater five minutes. Bake in muffin rings in quick oven.

Puffs For Dessert—One pint of milk and cream, the whites of four eggs beaten to a stiff froth, one heaping cup sifted flour, one scant cup powdered sugar; add a little grated lemon peel and a little salt. Beat these all together till very light, bake in gem pans, sift pulverized sugar over them and eat with sauce flavored with lemon.

Codfish Balls—Boil one cup of codfish with four good sized potatoes. When done mash potatoes and fish together, add good sized piece of butter and little pepper and one egg, beaten. Roll in a little flour to form balls and place in frypan. Fry brown on one side, turn and brown on the other side. These are very good. Serve hot on hot platter.

Gingerbread—One-half cup butter, one-half cup sugar, one-half cup molasses, one-half cup sour milk or cold water, one and one-half cups flour, two eggs, not beaten; one tablespoon ginger, one teaspoon soda. The secret of having it light and tender is in beating the soda and molasses together thoroughly and in not beating the eggs. Add molasses and soda before the flour.

Lemon Crumb Pie—Put half a cup of bread crumbs into a bowl, add enough milk to cover and let soak until soft and the milk absorbed. Cream four tablespoons of sugar with two tablespoons of butter, add two beaten eggs and the juice and grated rind of one large lemon; beat well, add the soaked crumbs, turn into a pie tin lined with good paste and bake until brown.

BEAR TREES THREE BOYS.

Mickey McGowan, William Corey and George Barry, the latter colored, were gunning for rabbits near Cahoonzie, writes the Port Jervis, N. Y., correspondent of the New York World, when they came upon a grove of chestnut trees. While filling their pockets with chestnuts, they were startled by a smashing in the undergrowth and the scampering of their dog for cover. Then a big bear, with a chain and steel trap fast to one leg, came into view.

The boys "legged it" for the nearest trees after McGowan had put a charge of birdshot into the animal's shoulder. Barry turned a shade of white, when the bear nearly grabbed his leg as he was going up a tree trunk. The bear retired a few feet and the log, which was fast to the chain holding the trap, caught between two scrub oak trees, holding it fast.

Seeing that the bear was fast, the two white boys slid down from their perches and said they were going home. Barry begged his chums not to leave him. Getting their guns the boys poured a double dose of birdshot into Bruin's hide. The bear, badly wounded, renewed his efforts to release himself.

The noise and the shots attracted George Boyd, who was hunting near by. The boys, having reloaded their guns, they and Boyd poured a fatal volley into the bear's body.

CHINESE WOMAN STUDENT.

A Daughter of Shanghai Enters University of Berlin.

The Berlin University, which among more than 7,000 students, includes 707 women of divers nationalities, has just inscribed upon its registers the first Chinese woman student. Her name is Li Tsu Zung, and she is only 17 years of age.

The daughter of a Chinese physician at Shanghai, she frequented a modern school until the age of 14, and then took private lessons. Miss Li Tsu Zung dresses in the European fashion, speaks German and English well, and her intention is to follow the English and German literature classes at the Berlin University.

Why Sloan's Liniment and Veterinary Remedies Are the Best to Use.

Let me tell you why Sloan's Liniment and Veterinary Remedies are the safest and most practical on the market today. In the first place, Dr. Earl S. Sloan is the son of a veterinary surgeon, and from his earliest infancy he was associated with horses. He bought and sold horses while yet very young. He practised as a veterinarian for twenty years, and has battled successfully with every disease to which that animal is subject.

All his remedies are the result of experiments made to save life or relieve suffering while he was practicing his profession.

Any reader, by writing to Dr. Earl S. Sloan, 615 Albany street, Boston, Mass., will receive "Sloan's Treatise on the Horse," free. This book tells how to treat horses, cattle, hogs and poultry.

RESTORING RUINS.

The famous ruins of Tintern Abbey, Monmouthshire, England, are being restored as far as the four great arches are concerned, and more excavations are being made around it in the hope of finding new buildings.

Only One "Bromo Quinine"

That is Laxative Bromo Quinine. Look for the signature of E. W. Grove. Used the world over to Cure a Cold in One Day. 25c.

Pure Food for Animals.

George B. McCabe, Solicitor of the Department of Agriculture, remarks that the national pure food law is for the benefit of flowers as well as human beings. The following example is cited. Suppose a farmer living in Indiana, near Chicago, should haul his hay into the Illinois metropolis for marketing. Suppose, also, that this farmer claims his hay to be timothy. If he sells it under this claim and the purchaser discovers that the hay contains red top, the farmer is liable to prosecution under the pure food law. Quite proper. Likewise, presumably, the faithful horse who at the dinner hour finds shoe pegs served, when the man calls for oats, will have quite as good a ground for complaint under the law as the unsuspecting housewife upon whom the unscrupulous pedlar foists nutmegs made of basswood. In this war on the sale of fraudulent foods let no guilty man escape.—Rochester Democrat and Chronicle.

Po-ru-na Almanac in 8,000,000 Homes

The Peruna Lucky Day Almanac has become a fixture in over eight million homes. It can be obtained from all drug stores free. Be sure to inquire early. The 1908 Almanac is already published, and the supply will soon be exhausted. Do not put it off. Speak for one to-day.

Vienna's Circle of Green.

The city of Vienna has recently undertaken, at an estimated expense of \$10,000,000, to surround itself with a belt of forests. The existing forests near the city are to be preserved, and others, together with broad, green meadows, are to be established in such a way as completely to encircle the city. Land is being reserved for the new plantations, which are to be connected with the celebrated Plater, which already forms a green border for the Austrian capital on the east. This idea is enthusiastically urged for the beautifying of the suburbs of other cities, which are now, in many cases, not only unattractive, but often hideous.

An Indian Critic.

Dr. Carlos Montezuma, an Apache Indian, writes to the Philadelphia Public Ledger a two-column communication denouncing the present administration of the Carlisle Indian School. He points out that the original purpose of the school, to give Indian boys and girls the advantages of a thorough and practical education, and to place them on an equal footing with the whites, has been lost sight of, and that the institution is now conducted largely as a military post. Dr. Montezuma declares that the army officers in control of the school have no interest in their work, and that their attitude toward the Indian is that of the commandant of a station on the West ern plains.

TRUTH AND QUALITY

appeal to the Well-Informed in ever, walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

If afflicted with weak eyes, use Thompson's Eye Water

NO MORE MUSTARD PLASTERS TO BLISTER

THE SCIENTIFIC AND MODERN EXTERNAL COUNTER-IRRITANT

Capsicum-Vaseline.
EXTRACT OF THE CAYENNE
PEPPER PLANT TAKEN
DIRECTLY IN VASELINE

DON'T WAIT TILL THE PAIN COMES—KEEP A TUBE HANDY

A QUICK, SURE, SAFE AND ALWAYS READY CURE FOR PAIN.—PRICE 15c.—IN COLLAPSIBLE TUBES MADE OF PURE TIN—AT ALL DRUGGISTS AND DEALERS. OR BY MAIL ON RECEIPT OF 15c. IN POSTAGE STAMPS.

A substitute for and superior to mustard or any other plaster and will not blister the most delicate skin. The pain-appeasing and curative qualities of the article are wonderful. It will stop the toothache at once, and relieve Headache and Sciatica. We recommend it as the best and safest external counter-irritant known also as an external remedy for pains in the chest and stomach and all Rheumatic, Neuralgic and Gouty complaints. A trial will prove what we claim for it, and it will be found to be invaluable in the household and for children. Once used no family will be without it. Many people say "it is the best of all your preparations." Accept no preparation of vaseline unless the same carries our label, as otherwise it is not genuine.

Send your address and we will mail our Vaseline Booklet describing our preparations which will interest you.

17 State St. CHESEBROUGH MFG. CO., New York City
