PENNSYLVANIA RAILROAD

BULLETIN

THE EASE OF TRAVEL TO-DAY.

It has just turned a century since the first boat was propelled by steam. There was not a complete locomotive in existence then nor a mile of railroad track. But the pendulum of time has swung rapidly forward within the last two generations. The railroad, the telegraph and the telephone have revolutionized the commerce and the industry of the world and have made neighbors of remote people.

First of all in this work of upbuilding, expansion and development comes the railroad. It is the medium of exchange, the agency of transfer, and wherever it has gone prosperity has followed.

The Pennsylvania Railroad has built thousands of miles of track and equipped it with the best rolling stock. It has constructed or absorbed branch lines and consolidated them with its main stem, thus bringing industrial and manufacturing interests in direct touch with all the centers of trade and affording the people the facilities of travel in all directions. Travel is no longer a dread, it is a pleasure. Comfortable cars by day or night drawn by the best type of locomotives over a roadbed maintained at the highest degree of excellence, eliminate as far as possible the annoyances of travel and make it recreative rather than burdensome. Tickets are sold at the lowest rates consistent with good management and under conditions most accommodating to the passenger. The schedules of the trains are designed to meet the wishes and requirements of the greatest number of travelers, and the equipment, both as to vehicles and employes, is kept at the highest state of efficiency.

It is the object of the management to encourage travel by making it easy. Interchange is the life of the social system. Travel is a tonic to the tired—the lens of observation to all.

The Pennsylvania Railroad sells tickets good for a mile as well as for a trip around the world. It will plan a trip for you or provide tickets for one of your own selection.

It is a fine thing to have a great transportation agency like the Pennsylvania Railroad at your command.
