ANOTHER MOTHER GONE.

Mrs Charles E Jones Departed This Life Saturday Afternoon,

At 3 30 p m Saturday, February 29, 1908, Mrs. Charles E. Jones died at the home of her daughter, Mrs. Wm. M. Robertson, on Main street, after a lingering illness from cancer of the stomach. Mrs. Jones had been in poor health for a number of years. The past two years she had suffered considerably but was always a patient sufferer. She realized that this life would soon end for her, but she was not afraid to depart. A few days before she dled she said she loved her home and children, but was ready to go when the Lord called her hence. She sang and prayed frequently while able to do so. Her last whispered words were: "Farewell to earth and all its cares. 'O taste and see that the Lord is good." "

AN EXCELLENT SHOWING.

Commissioners Deserve Credit for County's Financial Condition.

The auditors' report and commissioners' statement of the financ - of Jefferson county for the year 1907 are published on another page of this paper. This report will be found interesting reading to all citizens of the county, who have a right to be interested in the conduct of the county's financial affairs. A careful reading of the report shows a condition very gratifying to the citizens, and one which will bring to the present board of county commissioners a deserved commendstion for their careful management of the county finances.

As will be noted by this report the county funds show a total of \$23,540 38 over all liabilities, in addition to the cash balance on hand at the time of making the settlement, making the total of county assets a little over \$26,000. To this amount should be added the balance in the treasury in the poor fund, amounting to \$12,706 85, and the collectable taxes due that fund, swelling the total in the poor fund to \$18,902 73, a grand total of assets in the two funds of almost \$46,000.00. From this amount should be subtracted the amount due the poor fund from the poor building fund, namely \$4,095 40, leaving assets of about \$42,000 00. The only existing liabilities are the \$75,000 of poor building bonds, which are not redeemable until 1910, so that, in reality, if the books of the county could be balanced to day, the county would be but \$33,000 00 in debt.

That this is an admirable showing for the present board goes without saying. During the past year the commissioners have paid off \$25,000 worth of poor bond and have purchased and added to the equipment of the poor department a farm costing \$5,300. The indebtedness of the county now consists solely of the poor bonds of the 1900 issue, which are not redeemable until 1910, amounting to the \$75,000.00 above mentioned and it will be at once apparent that under the present system of financing this amount will be in the hands of the treasurer and ready for the wiping out of the county indebtedness as soon as these bonds can legally be lifted.

But perhaps the point that will be most apparent to the average citizen is that this reduction of the county debt has been accomplished with a reduction of taxes, and that last year the citizens of the county paid into the county's coffers \$10 573.40 less than they did in 1906, and for the year 1908 they will be called upon to pay \$20,391 78 less than they did in 1906, a reduction of 14 mills from the levy of 1906 having been made for the current year.

The management of the county finances by the present board of county commissioners has been business-like without being parsimonious, and the citizens and taxpayers will not be slow to accord credit where credit is due.-Brookville Republican.

C. M. Dinger for Commissioner

Charles M. Dinger, one of our prominent business men, member of the Reynoldsville Hardware Co., also member of the town council of this borough, is a Democratic candidate for the nomination for county commissioner. He thinks his prospects are very good for the nomination for commissioner. Mr. Dinger is a genial gentleman and he possesses the necessary qualifications to very creditably fill the office he is now asking the Democratic voters to boost

WILL EXTEND SHAWMUT LINE TO PITTSBURG.

Engineers Now at Work on Main Line Surveys Heading for Kittanning.

A gang of engineers, in the employ of the Shawmut Railroad, are now at work in the region south of Brookville making ready for the extension of the main line of the Shawmut through Jeferson and Armstrong counties. The workmen of the company have been argely employed during the past year in the completion of the spur to Conifer, which is now in operating condition, and over which passenger trains will be run commencing Monday of next week. The extension of the main line will give employment to a large number of men, and will open up a considerable section of the county which has not heretofore had railway service. From present indications, it has been decided by the Shawmut interests to push their line through to Kittanning this year and connect with some line to Pittsburg and the west. The Shawmut has a vast field of undeveloped coal in the Kittanning district, which when opened up will largely increase the tonnage over the new road. Already the mines at Conifer and Ramsaytown, where modern electrical plants are in operation, are producing a large daily output, and as the mines are developed the output will probably be the greatest of any operating mines in this end of the state. - Brockwayville Record.

Stricter Regulations for Postoffices.

By virtue of a recent order of the postal department at Washington, stringent orders have been issued to all postmasters not to divulge the names, addresses, or any other information whatever concerning any of the patrons of the office. Heretofore postoffices have been considered local directories, bureaus of information, and depositories for all sorts of neighborly conveniences. If a person wanted an address or list of names it was understood that the postmaster was in duty bound to supply this information, together with the habits, quaracter and general fitness of each individual who may come within observation of the office.

Now all is changed. Postmasters are required to keep all affairs of the office as inviolate as the business of a bank. They are not permitted to give the name nor address of a patron, nor tell whether or not they are a resident of the town or have moved away. Neither are they permitted to transact a parcel checking department for the public, nor to do anything except follow the regulations as set down in the Postal Guide and the numerous bulletins which keep them guessing as to their proper Interpretation -Charleroi Mirror.
