

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maude E. Forgie, of Leesburg, Va., writes to Mrs. Pinkham:

"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Mukden, Manchuria, has 40 tranneries and a large fur trade, both local and export. Prices are 15 to 20 per cent lower than a year ago.

How I Cured Sweeney and Fistula.

"I want to tell you how I saved one of our horses that had a fistula. We had the horse doctor out and he said it was so bad that he did not think he could cure it, and did not come again. Then we tried Sloan's Liniment and it cured it up nicely."

"One day last spring I was plowing for a neighbor who had a horse with sweeney, and I told him about Sloan's Liniment and he had me get a bottle for him, and it cured his horse all right, and he goes off now like a colt."

"We had a horse that had sweeney awfully bad, and we thought it was never going to be any good, but we used Sloan's Liniment and it cured it up nicely. I told another neighbor about it and he said it was the best Liniment he ever used."

"We are using Sloan's Sure Colic Cure and we think it is all right." A. D. Bruce, Aurelia, Ia.

BABY'S AWFUL ITCHING HUMOR.

Nothing Would Help Him—Mothers Almost in Despair—Owes Quick Cure to Cuticura.

"Several months ago, my little boy began to break out with itching sores. I doctored him, but as soon as I got them healed up in one place they would break out in another. I was almost in despair. I could not get anything that would help him. Then I began to use Cuticura Soap and Cuticura Ointment, and after using them three times the sores commenced to heal. He is now well, and not a scar is left on his body. They have never returned nor left him with bad blood, as one would think. Cuticura Remedies are the best I have ever tried, and I shall highly recommend them to any one who is suffering likewise. Mrs. William Geeding, 102 Washington St., Attica, Ind., July 22, 1907."

Cheaper Coffins.

Some undertakers, whose customers are poor people, are using coffins made of paper. The coffins are made in all styles of pressed paper pulp, the same as the common paper buckets. When they are varnished and stained they resemble polished wood, and in point of durability it is said they are much better than wooden ones.

WOMEN'S KIDNEYS.

Are the Source of Most of Women's Sickness.

Mrs. Rebecca Mock, 1795 E. Rich street, Columbus, Ohio, writes: "I believe I would still be a victim of kidney troubles but for Doan's Kidney Pills, for when I started using them I was in constant pain with my back, and no other remedy had been of any use. The kidney secretions were irregular, and I was nervous and lacked energy. But Doan's Kidney Pills gave me prompt relief and continued use cured me."

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one cured case of this disease which has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cursrey & Co., Toledo, O. Sold by Druggists, 75c.

Supreme Court Changes. The president of the United States may be an uncrowned king, but there is a power even greater than his, and that is the power of the Supreme Court of the United States. Within the term of the next presidency there will in all probability be four vacancies in the supreme court which will be filled by appointment by the president, and these appointments will in a large measure determine the future bias of the highest judicial body in the country. There are nine members of the supreme court and their average age is 64, four of them being 70 years and over. The youngest member, Judge Moody, who was appointed in 1906, is 55. Three of these members have been appointed by Roosevelt during the last six years, but owing to the great age of several of the members of the court it seems likely that within the next presidential term the rather unusual number of four vacancies will occur. Therefore, the next presidential election will determine not only who shall fill the highest executive office in the land, but will also determine the political and economic bent of the supreme court.—Wall Street Journal.

Frost on the Moon. Changes on the moon's surface, especially near the crater Linnaeus, are now recognized by Pickering, Barnard and others. It is concluded that the diminution of a white patch must be a melting of hoar frost at sunrise and that the deposition and melting of frost must be taking place in other parts of the moon.

BUILT RIGHT Brain and Nerves Restored by Grape-Nuts Food. The number of persons whose ailments were such that no other food could be retained at all, is large and reports are on the increase. "For twelve years I suffered from dyspepsia, finding no food that did not distress me," writes a Wisconsin lady. "I was reduced from 145 to 90 lbs., gradually growing weaker until I could leave my bed only a short while at a time, and became unable to speak aloud. "Three years ago I was attracted by an article on Grape-Nuts and decided to try it. "My stomach was so weak I could not take cream, but I used Grape-Nuts with milk and lime water. It helped me from the first, building up my system in a manner most astonishing to the friends who had thought my recovery impossible. "Soon I was able to take Grape-Nuts and cream for breakfast, and lunch at night, with an egg and Grape-Nuts for dinner. "I am now able to eat fruit, meat and nearly all vegetables for dinner, but fondly continue Grape-Nuts for breakfast and supper. "At the time of beginning Grape-Nuts I could scarcely speak a sentence without changing words around or 'talking crooked' in some way, but my brain and nerves have become so strengthened that I no longer have that trouble." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Frederick the Great. Frederick's father, Frederick William I., was a most brutal old fellow, treating his son almost as badly as they treat the exiles in Siberia. Unable to endure such barbarity on the part of his father, Frederick resolved to run away and seek refuge at the court of his uncle, George II., of England. Ready to assist him in his attempt were his two young friends, Lieutenants Katte and Keith. By the imprudence of Katte the secret was found out and Frederick was placed under arrest. Keith escaped, but Katte was tried by court-martial, sentenced to death and executed. Frederick also was sentenced to death and would have been shot but for the earnest expostulations of the Emperor and the Kings of Sweden and Poland.—New York American.

History of Enameling. It is certain that glazes having the composition of good enamels were manufactured at a very early date. Excellent glazes were still preserved and some of the bricks which have been found among the ruins of Babylon have been ascribed to the seventh or eighth century, B. C. The glaze on the Babylonian bricks was found upon examination to have a base of soda-glass, or silicate of sodium. Glazes of a similar character were also manufactured by the Egyptians as early as the sixth dynasty. There can be little doubt that the Greeks and Etruscans were also acquainted with the art of enameling.

St. Sebastian. St. Sebastian was born about 240 A. D., at Norbonne, Gaul. He was a Roman soldier and martyr, shot to death by order of the Emperor Diocletian, A. D. 288. Later Sebastian was made a saint, becoming the protector against pestilence.

Gas poisoning from gas engines has become so common that German authorities urge that cylinders of oxygen be kept near, and that engineers be taught to apply inhalations to resuscitate victims.

A restoration of the skull of a great horned dinosaur has just been set up for exhibition in Peabody Museum, Yale University. It is nearly nine feet long and about six feet broad, and is said to be the largest skull of any prehistoric land animal.

Experiment has shown that an electric arc can be employed under water for fusing metal. The intense heat turns the water surrounding the arc into steam, thus forming an insulating cushion of vapor. It has been suggested that with proper apparatus the electric arc could be employed by divers for quickly cutting through large chain cables or iron plates under water.

White tissue paper is steeped and perfectly softened in water and by thorough kneading with glue, transformed into a paste, and by means of others (earth colors), colored as nearly as possible to the shade of the wood. To the paste calcined magnesia is then added and it is forced into the cracks or holes. This cement attaches itself very firmly to the wood and after drying retains its smooth surface.

According to a Government botanist at Washington, D. C., there is reason to believe that buds share in the growing old of the parent plant. He illustrates his meaning in this way: Suppose the average life of an individual plant—say a tree—to be 100 years, then a bud removed when the parent plant is fifty years old will also be virtually fifty years of age, and if transplanted by grafting will be able to live on the graft only fifty years more.

Photography of the breath is the latest science. This was explained at the annual meeting of the Roentgen Ray Conference, at Berlin, Germany, during which cinematograph pictures of the breathing of sick and healthy persons were thrown upon a screen. The inventor of the method is Dr. Koehler, of Wiesbaden. His system shows accurately the sympathetic action of the lungs and heart in connection with inspiration and expiration. It is expected that the discovery will play an important role in the diagnosis of tuberculosis and similar respiratory diseases.

Lieutenant Camden, of the revelle service, reports from Alaska that McCulloch Peak on Bogosloy Island, which rose from the sea in 1796, has now, as a result of volcanic disturbances, entirely disappeared. Following the explosion which destroyed the peak have come remarkable changes in the profile of Mt. Makush and the neighboring mountains, in consequence of the deposition upon them of a vast quantity of lava dust, which has rendered them almost unrecognizable. This material, to a depth of hundreds of feet, has been strewn over the whole island.

HAD CATARRH THIRTY YEARS.

Congressman Meekison Gives Praise To Per-na For His Relief From Catarrh.

CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CURES. Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peruna I am cured." Mr. C. N. Peterson, 122 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION. Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peruna advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything." Manufactured by Peruna Drug Manufacturing Company, Columbus, Ohio.

Great Contrast. A greater contrast could hardly be furnished by modern nations than that between the fleet under Commodore Perry, the presence of which in Japanese waters exercised so profound an influence on Japan's destiny at the turning point in its career, and that which is to call at Yokohama on its long homeward voyage from the Pacific coast. The naval demonstration of 1854 marked the beginning of the relations of Japan and the United States, relations which in commerce and diplomacy have been of unbroken friendliness and mutual advantage. There is no present reason to doubt that the coming visit of the fleet, with its impressive revelation of the revolution which has taken place in naval affairs in the half century and more that has elapsed since Perry's sidewheelers churned the waters of the Bay of Yeddo, will cement that friendship on both sides of the importance of preserving that happy relation unbroken and untarnished by distrust and suspicion.—Philadelphia Public Ledger.
