The Williamsport Gazette and Bulletin, performs a good service for the public in cautioning widows of union veterans of the war of the Rebellion against the greedy pension sharks at Washington. These sharks are sending out letters to soldiers' widows, throughout the country, soliciting their applications for pensions under the recent act of congress. The act provides that widows, who have been receiving less than \$12 per month, shall have their pensions increased to \$12. Prospective beneficiaries of this law should take notice that it is not necessary for them to apply to anybody for the increase; the amount will be paid to them when they present their vouchers to the local agents, at the next pay day.
