

Nyal's Worm Wafers. Often a child's general health is good, and yet the mother knows there is something wrong with him—just what, she may be unable to determine. How old is your child? Is he peevish and irritable? Does he grind his teeth? Does his nose itch? Is his breath offensive? Is his appetite abnormal? If the child is four to twelve years old, and has those symptoms it is safe to assume that he is troubled with worms. Nyal's Worm Wafers kill and remove worms. Pleasant to take. Only 25 cents. Would so many people becommending this drug store if it were not above the average? Stoke & Feicht Drug Company

There will be no big Fourth of July celebration in Punxsutawney. The meeting which last night was called for Municipal Hall, to take action in the matter, was not attended by enough merchants and business men to make a baseball nine, and hence so far as the Merchant's Protective Association is concerned, skiddoo's the word.—Punxsutawney Spirit. Mention was made in THE STAR two weeks ago of the marriage of Mrs. Elizabeth Rupert, of Reynoldsville, and Benjamin Taylor, of Turtle Point, McKean Co., Pa. It has been the custom for several years not to hold a union service on Memorial Sunday, but the service is held in the different churches alternately. This year the service was to have been held in the Presbyterian church, but as that church is closed on account of an addition being built to it and some changes in auditorium and the church services are being held in Centennial hall, the Memorial Sunday service was held there.
