ERECTING NEW BUILDING.

Sewer Cleaning Company Business Increasing and Larger Building was Necessary.

The Sewer Clean Co., Ralph D. Albright, manager, is one of the industries of town that is running on small scale at present, but the prospects are bright for a large amount of business being done by this company in the near future. The small building on First street, in which the sewer cleaning compound, liquid soap and devices were manufactured, was too small and an addition 20 x 44 feet, two stories high, is being erected and will be completed within the next two weeks. Mr. Albright has a standing order of one thousand cans per week of the sewer cleaning compound from a New York firm.

The sewer cleaning compound, liquid soap, &c., manufactured by the Sewer Clean Co., is sure to be in big demand when it is well introduced.

Summer Chautauqua a Failure.

The Punxsutawney Chautauqua, after being in session two days, passed out of existence, this decision being arrived at by the guarantors at a meeting held in the theatre Wednesday forenoon. Although the list of entertainments was acknowledged to be of the very best, some of the best and highest priced lecturers in the country being associated with it, Punxsutawney people for some reason did not turn out and every day the affair was going deeper into debt. Those who stood at the head of the affair and guaranteed the money realized that it would be an expensive performance to allow the Chautauqua to continue and consequently took steps to cancel the other numbers on the list. There is already something like \$350 which will have to be paid by the guarantors.—Punxsutawney Republican.

ORDINANCE NOT ENFORCED.

Dogs Running Streets Without Muzzles and Collars as Required by Ordinance No. 83.

We are aware of the fact that people who own dogs are very "touchy" about their dogs, and even calling attention to ordinance No. 83, which requires dogs to be muzzled during the months of July and August of each year, may offend some person, yet no one should become offended because they are requested, or compelled, to muzzle their dogs a couple of months during the year, and thus remove an exposure of danger to the people in general, as no one knows when a mad dog will run our streets. After a dog has bitten some one it is too late to muzzle the dog.

Ordinance No. 83 provides that all dogs running at large within the borough limits must wear a collar, with a number and name of the owner of dog on the collar, all the year, and that during the months of July and August all dogs running on the streets must be muzzled.

Section 3 of this ordinance makes it the duty of policemen and constables in the borough to confine, shoot or destroy all dogs running the streets at any time without collar, or without muzzle during July and August. If the ordinance was enforced to-day a large number of dogs would "bite the dust." How many dogs are muzzled?
