Here's an illustration of the famous RALSTON last—the last which has given RALSTON SHOES a national reputation for irreproachable style combined with perfect comfort.

As you probably know, all other lasts are flat across the bottoms—not so with Ralston Lasts—in which are represented every mound and every depression of the bottoms of your feet. It is only by combining "sole fit" with "upper fit" that a perfect fitting shoe can be made. That's why Raltons need no breaking in.

If you want real comfort try a pair of Ralston shoes.
