STRUCK GOOD WATER WELL.

The Water Company Now Pumping One Hundred Barrels an Hour Out of New Well.

Mention was made in THE STAR last week that the Reynoldsville Water drilled near the power house to keep up the water supply during the present drougth. At the depth of one hundred feet the drillers struck a good supply of soft water and the water company is now pumping one hundred barrels an hour from the new well. With the supply from the new well the company has sufficient water to supply the town people with water for ordinary use. During this drought, when many communities are suffering for water, we should be thankful that we have a good supply of pure water.

Big Potatoes. W. J. Morrison, who went to Mon-Co., Colorado, last March and spent the summer there, returned home last week. That is a good agricultural section and especially excellent soil for raising potatoes. Mr. Morrison brought a few large potatoes home with him, which are now on exhibition in H. L.
