

Has modern schools and churches, paved streets, water, gas and electric accommodations, convenient trolley service, high and healthful location, varied employment for labor and many other residential advantages.

Offers exceptional advantages for the location of new industries: Free factory sites, cheap and abundant fuel, direct shipping facilities and low freight rates and plentiful supply of laborers.

SHOULD REVOLUTIONIZE GLASS MANUFACTURING

Colburn Machine Can Be Operated at Remarkably Low Cost.

INTERESTING COMPARISONS.

Perhaps many of our citizens are not aware of the fact that the Colburn glass manufacturing machine, with which the Star Glass Company plant at Reynoldsville is being equipped, is the cheapest and most economical glass manufacturing machine that is made today, and those who have seen the machine work are sanguine that it will be a complete success and will enable the Star Glass Company to manufacture good glass at less expense than any of its competitors, which will mean that the plant will run about forty-five weeks each year, make big dividends for the stockholders, and being an important industry in our town. A comparison of the cost of operating the Colburn machine with the cost of operating American Window Glass Cylinder machines, and cost of producing the same amount of glass by blowers at present scale of wages, shows a big saving of expenses in the production of glass by Colburn machine. Here is a comparison of cost of producing glass: Double strength glass, per box 50 square feet, Colburn 10 cents, American machine 50 cents, blowers 80 cents. Single strength proportionately as cheap. This shows that the Colburn machine will produce a 50 sq. ft. box of double strength glass 40 cents cheaper than the American machine and 70 per cent cheaper than with blowers, the old system under which the glass plant here was formerly operated. Quite a saving on the cost of production.

The normal consumption of window glass in the United States yearly, including importation, is about 8,000,000 boxes, 50 sq. ft. each, and it is claimed that one Colburn machine will produce, operating forty-five weeks in a year, approximately 100,000 boxes, so that eighty machines would make all the glass the country demands.

The plant will not employ as many men under the new system as it did under the old system, with glass blowers, but it will run almost continuously and in the year will give average employment to about same number as the plant did under the old system running six or seven months each year, will put about same amount of money in circulation as it did before, and will leave a snug dividend for the stockholders.

Smith's Private Water System

Sykesville Boniface Equips his Place with Complete Water Service.

R. T. Smith, proprietor of Hotel Smith, has just completed a fine new water well, located on the hill near George Buhite's. The new well is an eight-inch hole sunk into the solid rock and has filled up with sparkling aqua to the depth of 38 feet. As soon as the pipe can be laid this well will be connected with Mr. Smith's private water system and will give him an abundance of pure water at all times. He is also figuring on erecting one or more large tanks on the roof of his hotel and by securing a supply of hose being prepared with an ample supply of water in case of fire.—Sykesville Post-Dispatch.

WANT COLUMN.

Rate:—One cent per word for each and every insertion.

FOR SALE—Lumber in a barn. Inquire of S. S. Robinson.

LOST—On road to Prescottville, small blue watch, 12 pearls in back, blue pin hooked on. Return to Miss Olive Johnston, Prescottville, Pa.

FOR RENT—Eight room house on Main street. Inquire of T. D. Hoon.

WANTED—Knitting and crocheting to do. Mrs. C. L. Dunlap, Fourth st.

WANTED—Girl to do general housework. Small family. E. Neff.

Does Not Apply To Non-Residents

Judge John W. Reed Gives A Decision Concerning Poll Tax Assessment.

In 1905 a law was passed providing that in addition to the millage tax in townships or boroughs that \$1.00 be assessed to every resident taxable, and this assessment is in the nature of a poll tax. J. M. Norris, who resides in Winslow township, and pays the additional dollar in that township, owns property in Henderson township and the assessor in Henderson township added the \$1.00 to Mr. Norris' taxes in that township, and Mr. Norris paid the \$1.00 a couple of times under protest, but last year the case was taken to the county court and Judge John W. Reed gave the following decision in the case, which may be of interest to assessors and taxpayers in other townships:

"Every taxable against whom the sum of \$1.00, in addition to the millage tax, shall be assessed as provided in Section 2 of the Act of April 12th, 1905, P. L. 142, means every resident taxable. This \$1.00 assessment is in the nature of a poll tax and cannot be made against a non-resident of the township who may be the owner of real estate therein. This has been repeatedly decided and needs no further elaborations by me. See Independence Township v. Dods C. C. R. 461. In accordance with the case stated judgment is therefore entered for the defendant with costs."

Sixteen Thousand Patches in Quilt

Punxsutawney Lady Spends Many Years Working On The Article.

Henry Moser, of this place, recently read in a local newspaper an account of a Reynoldsville woman who had completed work on a bed quilt that was made up of 3,042 pieces or patches. The writer of the article intimated that the object he was describing was a perfect "phenom" in its line, and that it would probably capture the first prize at any quilt show or county fair in the country.

Mr. Moser believes that he has a quilt that would put the bug all over the Reynoldsville dry goods in any kind of a contest. It is made of 128 rows of patches, and 128 patches in each row, a total of 16,384 patches, and over five times the number of patches in the Reynoldsville bed decoration.

Mrs. Moser, who made the quilt began work on it when she was a young girl, and the quilt was not completed until several years after her marriage to Mr. Moser. The quilt has been exhibited at several fairs, including those held at Punxsutawney and Dayton, and it has never failed to draw down the blue ribbon.

Mrs. Moser has had some tempting offers for her quilt, but she has declined all of them with thanks.—Punxsutawney Spirit.

Life 100,000 Years Ago.

Scientists have found in a cave in Switzerland bones of men who lived 100,000 years ago, when life was in constant danger from wild beasts. To-day, the danger, as shown by A. W. Brown, of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure sore lungs, colds, obstinate coughs, and prevent pneumonia, its the best medicine on earth. 50c and \$1.00. Guaranteed by Stoke & Felcht Drug Co. Trial bottle free.

Tortured On a Horse.

"For ten years I couldn't ride a horse without being in torture from piles," writes L. S. Napier, of Rugless, Ky., "when all doctors and other remedies failed, Bucklen's Arnica Salve cured me." Infallible for piles, burns, scalds, cuts, boils, fever sores, eczema, salt rheum, corns, 25c. Guaranteed by Stoke & Felcht Drug Co.

Candidate for District Attorney.

Smith M. McCright, one of our legal lights, who is pretty well known among the Republicans of Jefferson county, has decided to be a candidate for the nomination for District Attorney at the primary election in June. Smith is well qualified for the office, is a good fellow, has a host of friends and will be a strong candidate. The district attorneyship "bee" has been buzzing under Smith's hat for some time, but it did not get loose until recently, and now Mr. McCright will enter the political arena with his sleeves rolled up, figuratively speaking, and with a determination to win the nomination and election if possible.

Pomona Grange Met In Brookville

Boys' Agricultural Clubs And Forestry Measure Commended In Resolutions.

The January meeting of Jefferson County Pomona Grange was held in Brookville last Wednesday. An instructive program was carried out, occupying the entire day. The question of life insurance by the State Grange was discussed. Reckless automobilists were also discussed. Rev. Harry G. Peagarden, Ph. D., and Hon. S. B. Elliott delivered addresses. New officers were installed, among whom was K. B. Deemer, of Horn Grange, Secretary; J. M. Norris, of Paradise Grange, Overseer; Miss Tillie Norris, of Paradise Grange, Pomona.

The next meeting of Pomona Grange, second Wednesday in March, will be held in Reynoldsville.

The following Grangers from this section attended Pomona Grange in Brookville: J. M. Norris, Miss Tillie Norris and John Daugherty, of Paradise Grange, William London, W. A. Mulholland and wife, and Mrs. Thomas Rea, of Rathmel Grange, K. B. Deemer, V. L. Moore, Frank Moore, Mrs. Wm. Moore, of Horn Grange.

Since the above was set in type we received a report of the meeting of Pomona Grange from K. B. Deemer, the secretary, but we only publish the resolutions that were included in the secretary's report, which are as follows: Resolved, That we favor the Boys' Agricultural Club now being started by Prof. L. Mayne Jones. We, as Grangers, agree to help urge this movement along for the good of the farmers' boys and girls.

Resolved, That this Pomona meeting is heartily in favor of the bill of the State Forestry Commission in placing a minimum tax value of \$1.00 per acre on all land of the farmers that is planted and growing with trees that are for timber purposes until same is marketable.

Local Institute For Winslow Teachers

Convenes at Rathmel January 23rd, With Morning And Afternoon Sessions.

A teachers' local institute will be held in the school house at Rathmel Saturday, January 23rd. The following program has been prepared:

MORNING SESSION,
1. Discussion on the Value of School Incentives. Opened by Ross Clawges W. M. McAtee, Ruth Williamson.

2. Discussion on the Cultivation of School Virtues. Opened by W. E. Kuselman, Floe Best and Elda Barnett.

3. Discussion of Dr. O. L. Warren's Arithmetic Methods. Opened by Henry Smith, Blanche Pantall and Ray Breakley.

AFTERNOON SESSION,
1. Discussion of Dr. Chas. H. Albert's Geography Methods. Opened by J. E. Brewer, Elvira Johnston and J. M. London.

2. Violin Solo Willie White
3. Address Prof. J. R. Wilson
4. Recitation Lolo Marshall
5. Lecture: "The Successful Life," Prof. W. M. Rife

6. Business Meeting.

Notice to Delinquents.

Some people who are in arrears on the subscription to THE STAR made promises several months ago that have not been fulfilled yet. We must ask all subscribers over one year in arrears to make prompt payment.

Sudden Demise Of Mrs. J. W. Stevenson

Former Reynoldsville Lady Expired In New York City Last Night.

Mrs. James W. Stevenson, of New York City, eldest daughter of Mr. and Mrs. M. M. Davis, of Reynoldsville, died suddenly in New York at 4:30 p. m., yesterday, January 12, 1909, after a short illness with gastritis, causing heart failure and resulting in death. The announcement of her death was certainly a great shock to her parents and host of friends and acquaintances in Reynoldsville. Her parents received a telegram yesterday morning stating that Mrs. Stevenson was very ill, but they did not think her illness so serious. About 4:00 p. m. another telegram announced that she could not live through the night and at 5:30 p. m. they received the shocking news that she had passed out of this life.

The body will be brought to Reynoldsville on the 8:08 a. m. train tomorrow, Thursday, funeral service will be held at home of the bereaved parents on Grant street at 1:00 p. m. tomorrow, conducted by Dr. A. J. Meek, and interment will be made in the Beechwoods Presbyterian cemetery.

Althea Metella Davis was born near Plumville, Indiana Co., Pa., October 28, 1870, and was 38 years, 2 months and 15 days old at time of her death. Her parents moved to Reynoldsville when she was quite young. She graduated in our public schools, graduated in the Bucknell University at Lewisburg, Pa., and afterwards took a special course in the Wilson College at Chambersburg, Pa. She was a bright, intelligent, accomplished and handsome woman. Had a friendly and genial disposition, consequently her friends were legion.

December 21st, 1892, sixteen years

ago last month, Miss Davis and James W. Stevenson, son of Henry Stevenson of Beechwoods, were united in marriage and went to New York City to live, where Mr. Stevenson held a responsible position on the New York World, and they always resided in that city. One son, Marion, was born unto them and he was fifteen years old the 29th of last month.

Mr. and Mrs. J. W. Stevenson have been personal friends of the editor of THE STAR for a number of years and our heart goes out in sorrow and sympathy for the bereaved husband and motherless son in this their time of deep grief.

Reed for Supreme Bench.

Last week's Brookville Republican contained a strong endorsement of Judge John W. Reed, of this county, as a proper man to succeed Justice James T. Mitchell on the Supreme bench of Pennsylvania. Judge Reed's ability as a lawyer, and his long experience and honorable career as a judge, eminently qualify him for promotion to the highest legal tribunal of the state. The Republican says:

"In his judicial capacity Judge Reed has been ideal. Cool, calm and dispassionate, he has at all times preserved the best traditions of the bench and bar, bringing to the solving of the problems which have confronted him an analytical mind, a rare knowledge of the law, and above all a thorough justice which has known neither friend nor foe in his judicial determinations."

"His ability is not alone a matter of comment in his home district, but he has been called to serve in a special capacity upon the bench of many of the counties of the state, and wherever he has appeared he has been pronounced one of the ablest, most prompt and thoroughly competent judges of the state. In thirteen years of active experience upon the bench he has made a most enviable record in the matter of affirmations by the Superior and Supreme Courts of the state, his judgments upon the legal points of a case being almost unanimously upheld."

\$300,000 TROLLEY PROJECT

Line Will Eventually Connect Clarion and Pittsburg, Via Butler.

ARNOLDS ARE ITS PROMOTERS

Last Monday night the council passed an ordinance granting to the Clarion and East Brady Electric Railway Company a franchise covering the streets of this borough for the use of that company. The ordinance is so made that the company must have their charter and to have started the work within two years and have cars in operation within six years. The parties asking for the franchise are G. E. Arnold, F. M. Arnold and T. S. Arnold, all of this place. The line proposed is from this place to East Brady, via Sligo and Rimersburg, a distance of 25 miles. At East Brady they will connect with the line being built from Butler to that place. At Butler they will connect with the line to Pittsburg. This will give us a connection with Pittsburg in 86 miles. We understand that the gentlemen have ample financial assistance to make the road a success. The road will cost about \$300,000. Of this \$2,000 for every mile of proposed road and ten per cent of the capital stock must be paid in before the charter is granted. It would be wise for the townships and boroughs through which they will pass to aid this project as it will mean much to each community.—Clarion Republican.

Sewer Clean and Sewer Clean Double XX

To be the best chemical compound on the market to-day for the purpose of keeping all sewer and drain pipes clean and thoroughly disinfected and in a perfect sanitary condition, and also to remove all stoppages in pipes without digging them up—thus saving a large plumbing bill and a big muss—we have contracted with Mr. R. D. Albright to take all his SEWER CLEAN products, advertise them and place them upon the market. Few people know the value of this compound. We will endeavor to make you better acquainted with it as the weeks go by. It is now being sold in several States in the union and in Canada. Sewer Clean will absolutely do all we claim for it and it has not failed in an instance in this town, and we can produce a good many testimonials to that effect. It is on sale at our office and at the Sewer Clean manufactory on Water Street. We solicit a trial. We are also going to do a

GENERAL REAL ESTATE BUSINESS

And invite all having any kind of property for business for sale to come and see us and let us list it up and find you a buyer. We will thoroughly advertise it and with our large acquaintance and business connections over several states we will be in position to do you some good. We handle all property on commission basis and will put you next the buyer or seller. We will also find you renters for your properties through our means of advertising. Come and see us and make known your wants.

Reynoldsville Chemical Co.

ROBT. Z. PARRISH, Manager.

The girls who debated in the Literary Society on Friday afternoon on the question: "Resolved, That the Sophomore studies are more beneficial and interesting than the Junior studies," deserve special commendation for their excellent work in public speaking. Although the decision of the judges was given in favor of the Junior studies, each speaker rendered her part well and showed that she had spent much time in preparation. These debates are of much help to the pupils of the high school.

Wednesday morning, Jan. 11, 1909, the ladies of the W. C. T. U. presented to the Reynoldsville public school a handsome portrait of Miss Frances E. Willard. These services were held in the chapel at which not only the students of the high school were present, but also the rooms taught by Misses Robinson, Black, Morgret, Meek, Clark and McEntee. Mrs. McKay, who presented the picture, gave an interesting talk in which she told the students of this distinguished woman, the mother of the W. C. T. U. The picture was accepted by Dr. J. C. Sayers in behalf of the board of directors, of which he is president. The students, on motion of Celia Yost, of the Senior class, gave a unanimous vote of thanks to the members of the W. C. T. U. The ladies present who represented this society were, Mesdames McKay, Williams, Phillips, Prescott, Carl, McCright and Carberry.

Mr. Passmore, of DuBois, visited our schools last week.

"Don't leave your seats between classes."

"Miss McClure, I fear I can't take 'no' for an answer."

No room was without tardiness last week.

Two weeks until Ladies' Common-wealth Orchestra. They are a high priced attraction. In bringing your tickets for the third number, be sure they are "No. 3."

Prof. Rife and Mr. Wilson will speak at the local institute at Rathmel January 23rd.

The melancholy days are come, the saddest of the year; all nature mourns in sympathy—exams will soon be here.
