The Fee System Illegal.

It is claimed that the method of paying burgeses on a percentage basis is illegal. The salaries of burgeses of towns of over 3,000 inhabitants, it is claimed, was fixed in 1905 by Act of Assembly, which stipulates that the amount shall not be more than \$50.00 per 1,000 population, taking the figures given by the last Federal census as a basis. There is a movement on foot to have the act regulating the salary of burgeses amended at this session of the Legislature so as to have the population based on the last registration multiplied by five. This would give the burges of Reynoldsville a salary of about \$400.00 a year, but if the act is not amended his salary, according to present act of Assembly, will be about \$200.00 per year.
