## Alleged Jury Tampering At County Court

Jury Is Suddenly Withdrawn And Case Continued—Arrests May Follow.

After all the cases but a statutory rape case, Commonwealth vs. Robinson, had been disposed of in the criminal court in Brookville last week a jury was called for the statutory rape case, which was to have been taken up on Monday of this week, and the other jurors were discharged. Monday forenoon it was reported to the court that one of the jurors on the case had been tampered with, and the information was strong enough to cause Judge Reed to withdraw the jury, continue the case until next term of court and advise the District Attorney to investigate the report and if correct to have the juror and other guilty person, or persons, arrested.

### Will Enforce Cigarette Law.

The Brookville school board has served notice on the dealers in Brookville that the law forbidding the sale of cigarettes to boys will be enforced. Judging from the number of boys seen on our streets smoking cigarettes some action should be taken here. Following is a copy of the Pennsylvania law on the subject:

Section 1. Be it enacted, &c., That if any person or persons shall furnish cigarettes or cigarette paper to any person or persons under the age of twenty-one years, he or she, so offending, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be sentenced to pay a fine of not more than three hundred dollars, and not less than one hundred dollars. Act of March 16, 1905, P. L. 43.

## BOYS' AGRICULTURAL CLUBS TO BE STARTED UNDER SUPERVISION OF RURAL SCHOOLS

In many counties and states boys' agricultural clubs in connection with the schools have been maintained, and have done much toward improving rural conditions. The movement has passed the experimental stage. The Secretary of Agriculture says: "This movement has shown the boys that it is not all of farming to drudge; that there is abundant opportunity to study, plan, investigate; that intelligence and culture are needed on the farm, and that the proper exercise of these qualities will yield as abundant returns in the

country as in the city. These things are not done by leaps and bounds; a beginning must be made. We will make that beginning in this year by starting the club, and making a specialty of corn raising. Any boy in the county under the age of 18 years who will send his name and address and a one cent stamp to the County Superintendent will be enrolled as a member and will receive a package of seed corn, all that can be sent for one cent postage. He will also receive pamphlets on corn growing and other agricultural subjects. The object of the

club is not only to grow corn but to start observation and investigation of subjects that will have a permanent value both to the boy and the farm. All members will be eligible to compete for the following prizes: First prize, \$8.00 in cash; second prize, library table valued at \$8.00; third prize, a new Victor single barrel shot gun valued at \$6.00; fourth prize, a box of oranges valued at \$5.00; fifth prize, a good pocket knife. Fifteen prizes of one dollar each. Other prizes may be announced later on; any one desiring to encourage this work financially should

communicate with the county superintendent. The corn will be scored and the prizes awarded at the county institute this year. Teachers are requested to call the attention of pupils to this work. The teacher may send the names and addresses, and postage of all from his school, who desire to join.

The co-operation and assistance of all interested in country boys is requested. We believe that much good can be done.—Brookville Republican.
