Talk of New Schedule.

It is reported that the Pennsylvania Railroad Company will put a new schedule into effect on the Low Grade Division about the first of May that will make several important changes in the passenger service. If rumors are correct, the train arriving here at 9.40 p. m. and now stops at DuBois, will have a Pullman car attached and will run through to Driewood, making connection with the P. and E. Division for Philadelphia, Washington and New York. This would make a very convenient train for people traveling east. Under the present schedule it is necessary to leave here at 6.08 and lay at Driewood about three hours and a half to travel east at night. There will be several other important changes, perhaps, in the running of passenger trains when the schedule goes into effect.

The legislature would be doing a real good thing if it would pass a law compelling all the able bodied men in our county to work at some suitable employment every week day when the weather is favorable. They would then cease to be a burden on the county, and their numbers would grow smaller year by year. As it is now, some persons prefer going to jail in the winter to staying out and working.—Brookville Democrat

In the issue of March 6, 1909, of the American Lumberman, published in Chicago, Ill., appeared an excellent picture of C. H. Prescott, Jr., of Cleveland, Ohio, and an able address given by him before members of the National Wholesale Lumber Dealers' Association annual meeting in Philadelphia March 2nd, Mr. Prescott being the retiring president of the association. The address would be interesting reading for many of our readers, but we did not have space for it. Mr. Prescott, a nephew of Mrs. John H. Corbett of this place, and an erstwhile Reynoldsville boy is now a prominent figure in the lumber interests of the country.

Policeman Called.

The law abiding citizens of Railroad street found it necessary to call a policeman about nine o'clock Sunday night to restore peace and quietness in that neighborhood. The disturbance being caused by some young fellows who would blush to have their names published and a statement made of the whyfore of their presence in that immediate section. It is high time that the moral conditions of Reynoldsville receive special attention. There are a few denizens here that it would be better for the town if they were compelled to move out of Reynoldsville.

WATCHMAN KILLED.

Thomas Neal, of North Point, Run Down By a Freight Train Monday Night

Thomas Neal, the B. & P. night watchman at Robinson Cut, between Loop and Goodville, was struck and almost instantly killed Monday night about 2.30, by a freight train coming east. Neal lived near North Point and had a shanty at Robinson Cut. That night he gave shelter to two tramps, and when he heard the train coming he ran out in the darkness and across the railroad tracks. The train was nearer than the watchman had calculated, for it was upon him as soon as he stepped on the tracks. The tramps heard him scream and rushed out, but could do nothing until the train had passed. Then they found Mr. Neal and carried him into the little house and one hastened to Loop and informed William Barrett of the accident. When they returned to the shanty Mr. Neal was dead. His skull was fractured and legs were broken. The next morning the body was taken to the Neal home at North Point. The deceased was about 63 years old and has been watchman at that crossing for over two years. He was the son of Abram Neal and a brother of Andrew Neal of this place. A widow and eight children survive him—Punxsutawney News.

Another Legal Holiday.

The State Senate has passed finally the House bill making October 12 a legal holiday, to be known as Columbus Day, the idea being that Christopher Columbus was born on that day. It would seem that the anniversary of the birth of the man who discovered America should be properly celebrated, but nobody knows the day, nor the month, nor the year in which Columbus was born. The cyclopedias, dictionaries and biographies agree that the great navigator came into this world somewhere between 1436 and 1457. The most trustworthy evidence seems to show that he was born not long before March 25, 1446. But that is really immaterial.—Punxsutawney Spirit.
