SENATOR DOLLIVER WAS HERE.

"The Poor Boy's Country" Was Subject of His Lecture.

Hon. J. P. Dolliver, the noted Senator from Fort Dodge, Iowa, lectured in Assembly Hall last Thursday evening. His lecture was the fifth and last number of the season on the public school course at this place. While Senator Dolliver is not a great orator, yet he is a forceful and fluent speaker. He delivered an excellent lecture and he gave the young men of the audience some very good and practical thoughts for them to consider. The subject of his lecture was "The Poor Boy's Country." Senator Dolliver thinks that a young man who inherits a fortune and life of ease is not to be congratulated, as it is generally a curse instead of a blessing. History proves that most of the great and successful men of the past started in life as poor boys.

More Money for Carriers.

Rural letter carriers will come in for a little extra compensation if a bill introduced in Congress becomes a law. It provides that \$250 per annum additional be allowed for the purchase and maintenance of necessary horses, wagon and equipment. In the average country districts this small allowance would be none too much, for the wear and tear upon a carrier's outfit as he travels over the rough roads in all kinds of weather—like the present, for instance, is very great, and at the present meagre salary he is lucky if he comes out in the end of the year with his head above water, as it were. The rural delivery of mail has come to be very popular with the country people, and it has come to stay, we should hope, hence the carriers should have an adequate compensation, at least a living one.—DuBois Express.

Reynoldsville Man's Assailant Captured

Jack Gallagher Is In the Toils Charged with Robbery Of O. H. Rose.

Jack Gallagher, a local character who has been in trouble with the authorities before, was taken into custody today charged with being implicated in the robbery of O. H. Rose, an old man from Reynoldsville, ten days ago.

It is charged that Gallagher and a companion followed Rose and got off a street car with the stranger near the Mahler glass works, late Monday evening, March 23rd, and after giving him a drink of dope whiskey, robbing him helplessly, robbed him of his gold watch, about \$75 in money and other valuables.

Since the crime the police have been quietly and astutely working on the case with the result that today Gallagher was arrested by Officer Jeffrey. Rose was present at the hearing before Squire Barelay and identified Gallagher as one of the men who gave him the drink.—DuBois Express April 1.

Answer to Roosevelt.

Mr. Roosevelt recently made a very bitter attack on Socialism in the columns of the Outlook. The attack is unfair for the reason that in seeking to establish what Socialism is Roosevelt does not quote from a single accredited Socialist writer or the official declaration of the party—its platform. On the contrary he quotes from Annie Besant and Proudhon, who never were Socialists; and from Gabrielle Deville, Mrs. Moore and others who are avowed enemies of Socialism. He would not like to have Republicanism defined and represented by people who are enemies of Republicanism.

Then Mr. Roosevelt indulges in abuse rather than argument. It counts for little with thinking people that he should call the Socialists obscene, immoral, dangerous, of nebulous faith, incoherent in statement, particularly as he makes no effort to prove any of these statements. The use of epithets is not argument.

Mr. Roosevelt errs in historical data. He argues that Socialism was tried something over a century ago, when as a matter of fact it is a philosophy that is only a little over a century old.

Mr. Roosevelt makes charges without attempting to prove the charges. He accuses Socialists of working to destroy the home, to wreck civilization, to overthrow all order, and with being dishonest and immoral. These are grave charges. But if such charges were made in court and no effort made to substantiate the charge, they would be thrown from court with indignation that they were ever made.

Now the writer desires to make these denials: Socialism is the friend and not the enemy of the home. Socialism is the friend and not the enemy of real religion. Socialism is seeking to promote justice and to establish a more perfect order. Then, from the constructive side: Socialism is merely popular rule—industrial democracy. Socialism would by ending corporate property, enable all men to have private property.

Socialism is thoroughly American—the completion of the movement for socialized power which was begun in 1776. It provides for Democracy by means of the initiative and referendum, and it is foolish to assert that men and women who make the laws under which they will live will abolish the marriage relation and do the other outrageous things charged by Roosevelt. Put it to yourself—would you?

Duns on Postal Cards.

The postoffice department is now after the secret fraternal societies and others who levy assessments. In years past it has been the custom of the secretary to send out notices to members calling attention to their dues on a postal card. The department has now discovered that it is nothing more than a dun, and that it is a violation of the postal laws to send out a dun on a postal card. Hereafter all such notices must be sent by letter if sent at all, and the several lodges sending such statements will be obliged to dig down and pay two cents instead of one.

Notice to Contractors.

Sealed bids will be received on or after April 5 until 6:00 o'clock p. m., April 24th, by the West Reynoldsville school board for the erection of a public school building according to the plans and specifications prepared by A. L. Lukehart, Falls Creek, Pa. Parties wishing to bid on the work will be furnished with plans upon application to the secretary of the board upon depositing with him \$10.00 which amount will be refunded upon return of the plans. The board reserves the right to reject any or all bids.

Severe on Smokers.

The Way Of It.

A lawyer charges a man \$10 for 10 minutes conversation—the man insists on paying it. A doctor charges \$1 for a prescription and the patient says: "Oh,shaw—is that enough?" An undertaker charges \$100 for conducting a funeral and he is perfectly lovely with everybody inside and outside the family. A man buys a gold brick and apologizes for not having bitten before. An editor walks a mile in the hot sun to get the facts of a death or wedding or social function and spends three hours in writing it up and tells lies, praising people until he hates himself. Then if he makes an insignificant omission, or charges 5 cents straight for three extra copies he is a stingy, careless, good-for-nothing old cuss, who never gets anything right and charges four times the price of city papers twice as large.—Macon (Ga.) Record.
