Alumni Officers.

Two Good Sermons.

Dr. W. H. Crawford, president of Allegheny College at Meadville, Pa., was in Reynoldsville over Sunday, the guest of Rev. John F. Black, and he preached two very interesting and helpful sermons. Dr. Crawford is an able and scholarly man. He was a candidate for a bishop of the Methodist Episcopal church at the last session of the General Conference.

Did Not Let Contract.

W. Harry Moore, groceryman, whose store was destroyed by fire on the night of December 5th, 1908, advertised for bids for the erection of a two-story, buff front, brick building, but after opening the bids he decided not to let a contract for the building but will buy the material himself and hire men by the day to do the work. There has been so much wet weather this spring that Mr. Moore has not started work on the foundation, but will do so as soon as possible. He will likely have the building ready for occupancy this fall.

Barrooms Close Circus Day.

A circus is booked for Punnxutawney for June 5th, the day of the primary election, and the barrooms will have to close that afternoon and evening. Just think of it! A circus in town and "John Barley Corn" looked up. Will the circus be a success under such conditions? The thirsty crowd will be compelled to slake their thirst with circus "lemonade" or soda fountain "fix." There is one thing sure there will not be as many circus goers get up the following morning with "big heads" as there would be if the barrooms would keep open.

Improved Phone Service.

The Summerville Telephone Company put into service the first of this week two brand new copper lines between this place and Punnxutawney, making three copper lines now in operation between the county seat and the southside metropolis, and affording a much improved service to and through that point to DuBois and Reynoldsville. The Summerville has been spending a lot of money during the past year in improvements in its service, and the patrons of the company are duly appreciative of the efforts being made to give them satisfactory telephone service.—Brookville Republican.

Life in the Big City.

That life in the big city is not the delightful experience that some young people might imagine is shown by some letters received by a metropolitan journal written by a young man from the country who now works in the city and complains that he cannot gain any friends because he is no spender. A girl from the country who went to the city to work also writes that she remains lonesome because she is too quiet and modest to mix with others and so she is ignored by those with whom she might associate. All of this is a warning to discontented young folks to stay at home instead of seeking your fortune in the big city which as a rule is a tough proposition to the ordinary man.—Exchange.

Our window will show you some very dainty styles in summer footwear. Adam's.

ALUMNI BANQUET.

Held in I. O. O. F. Banqueting Hall Thursday Evening, May 13th.

The thirteenth annual banquet and reunion of the Reynoldsville High School Alumni Association held in the I. O. O. F. banqueting hall last Thursday evening was a very pleasant event. The attendance this year was the largest in the history of the association. Promptly at 8.45 p. m. the program of the evening was taken up, which was as follows: Piano duet, Misses Alice Mitchell and Marie Altman; reading by Miss Nula Neale; singing by the Cadenza Club; music by orchestra.

The orchestra played a march and the banqueters fell in line and after marching a couple of times around the two long tables, spread for one hundred persons they were ready for the feast of good things. The two long tables did not accommodate all and a small table was laid for six. H. T. Peters was caterer.

Prof. W. M. Rife, city superintendent of our public schools, was toastmaster, and the following toasts were given: "Heart's Desire," Dr. A. J. Meek; "Ambition," Miss Celia Yost; "Air Castles and their Demolition," Raymond E. Brown, Esq.; "Who's Who?" Miss Florence Harris; "Sunbeams and Shadows," Clement W. Flynn. These persons were booked for toasts and were prepared and each one was very interesting and enjoyable. Dr. J. C. Sayers was the only one present that was called upon for an impromptu speech, but he is always "loaded" and ready to respond to such requests and his short speech was good. The custom in the past of calling on persons who are not prepared and are not afterdinner speakers at best, has to some extent spoiled the good things given by those who go prepared and expect to speak.

This was a very good banquet and reunion. After the tables were cleared away those who wanted to joined in the mazy dance.

Anti-Spitting Law.

The anti-spitting bill passed by the recent Legislature has been signed by the governor. It prohibits expectoration in practically all public places except driveways—the places are listed in the bill—and provides that prominent signs shall be kept posted in such places, calling attention to the law. Where spitting receptacles are provided by the public they must be cleaned after each day's use. Persons violating the act can be convicted in summary proceedings before any magistrate and fined \$1 and costs, to be paid into the municipal treasury; in default of payment the jail sentence is not to exceed five days. Persons, firms or corporations not keeping the warning signs posted and not having the cuspidors cleaned according to the law are to be fined from \$5 to \$50. Constables and other officers of the law may arrest persons violating the act upon view.

Anderson Viaduct to be Eliminated.

Some days ago the B. & P. railroad let the contract for the proposed change of line at Anderson Creek Viaduct on the Clearfield Division, the successful bidder being the Welsh Construction Co., of Davenport, Ia. This change of line will do away with the Anderson Viaduct, which was always considered the best piece of construction work on the C. & M. branch. The viaduct was built in 1892. The contractor was Peter Collins, of Bellefonte. It is a remarkable structure for reason it is a steel structure 795 feet in length, 65 feet high and on an eight degree curve with a seven-teeth grade. The principal reason for the improvements is to provide for the traffic of the Jamestown, Franklin and Clearfield railroad.—Indiana Gazette.
