

PERMANENTLY CURED

Of Kidney Disease by Dr. David Kennedy's Favorite Remedy.

Mr. C. M. Bartholomew, of Kalkaska, Mich., was a sufferer in 1886 with what all, including physicians, called Bright's Disease of the Kidneys. Doctors said there was no help for him. As a last resort he used Dr. David Kennedy's Favorite Remedy. The symptoms disappeared and he was permanently cured by this great remedy. His case was a remarkable one and attracted great attention. Now, in 1906 (20 years after), Mr. Bartholomew writes that he confirms all that he said in favor of Favorite Remedy in 1886, and again indorses its use. Not a "patent" medicine. It removes uric acid from the system, the cause of most Kidney, Liver and Blood diseases. Successful for 35 years. Write Dr. David Kennedy's Sons, Rondout, N. Y., for free sample bottle.

Pugilist's Millions Gone.
Although he says he has made more than a million dollars in the prize ring, "Jem" Mace, the old-time English pugilistic champion, has applied for a pension under the new British old age annuity act. Mace, who is now 77 years old, has a record of 500 appearances in the ring and only two defeats. In recent years he has been giving boxing exhibitions, and a month ago appeared in a sketch entitled "Catching a Tartar," at a Hull music hall, but the money earned has been insufficient to keep him in comfort, and he was helped by friends.

Weston, Ocean-to-Ocean Walker.
Said recently: "When you feel down and out, feel there is no use living, just take your bad thoughts with you and walk them off. Before you have walked a mile things will look rosier. Just try it." Have you noticed the increase in walking of late in every community? Many attribute it to the comfort which Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes, gives to the millions now using it. As Weston has said, "It has real merit." It cures tired, aching feet while you walk. 50,000 testimonials. Order a 25c. package to-day of any Druggist and be ready to forget you have feet. A trial package of Allen's Foot-Ease sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Coyote, Texas Boy's Pet.
A pet coyote belongs to Roy Collo-way, a Dallas boy, who declares that coyotes can be made tamer than dogs. This particular coyote came from Stamford in western Texas when two and a half months old. It is not a little over a year old and fully grown. This pet plays with the children, lying down to be rubbed by them, and frolicking about the yard with them. She likes to play with dogs, but the dogs object.

STATE OF OHIO, CITY OF TOLEDO, ss. LOCAL GOVERNMENT.
FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE. FRANK J. CHENEY. Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1906. A. W. GLAZIER, Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Concrete Used Ages Ago.
Concrete itself is very old. The concrete stairs of Colchester and Rochester castles still show the marks of the increasing boards; the dome of Asirpa's Pantheon, which is 142 feet in diameter, is of concrete, and fragments of concrete buildings are found in Mexico and Peru.

Red, Weak, Watery, Watery Eyes
Relieved by Murine Eye Remedy, Compounded by Experienced Physicians. Conforms to Pure Food and Drug Laws. Murine Doesn't Smart; Soothes Eye Pain.

Ready-Made Verdict.
Fargo, North Dakota, once boasted a composite postmaster and coroner. He was called one day to give his verdict upon the case of a stranger who had been the victim of a fit on the main street. As the man was known to nobody, he was hurried to the much-prized "city Hospital." There the case was diagnosed as appendicitis, but when the operation took place the attending surgeon discovered the patient had been previously relieved of his appendix. The doctor endeavored to retrace his steps, but the strange man died from the effects of the operation. The postmaster-caroner, in rendering his verdict, filled in the space after "Cause of Death" with a rubber stamp which read, "Opened by Mistake."—Success Magazine.

Mrs. Winalow's Soothing Syrup for Children
teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

The man who will never give in often gives out.

The upstart is often downcast.

Household Affairs.

TO KEEP KNIVES CLEAN.
A table may be beautifully set and decorated, but unless the knives are in good condition the general appearance will be spoiled. The blades of the knives should be cleaned with soft flannel. If they are a little rusty use wood ashes rubbed on a newly cut piece of Irish potato. This will remove spots when nothing else will. Never dip the ivory handles in hot water, as the heat turns them yellow. Keep the best set, which is only used for company, in a box, wrapped first in tissue paper, then a covering of linen. This will keep out the dust and dampness.—Indianapolis News.

BURLAP FOR COVERS.
Burlap and craftman's cloth are much used for cushion covers, and really beautiful effects may be brought out with very little effort. A design, conventional or otherwise, cut from cretonne and applied with an embroidery stitch, will make a brave showing at the expense of little time or trouble. Another good design equally simple is of two peacock feathers drawn diagonally across the pillow and worked with mercerized thread in natural colorings. Craftsman canvas is \$1 a yard up, fifty inches wide. Burlap is inexpensive.—New York Telegram.

A DOZEN "NEVERS."
Never pour water upon burning fat.
Never cut anything with the knife edge coming toward one.
Never use cracked dishes for food.
Never fill a lamp full.
Never keep lamps on a shelf over a stove.
Never wet caustic in the mouth.
Never apply iodine to the flesh every day; skip a day or two between applications.
Never cut a corn until it bleeds.
Never set a pail of hot water down and leave it, even for a moment, with a child in the room.
Never take medicine or drink anything in the dark.
Never neglect to have a foreign substance in the eye removed at once.
Never step onto the wheel to get into or out of a team.
Remember, and save life or serious injury.—New Haven Register.

A WORKING BASKET.
Get a whole, good cheesebox with cover; take and saw two inches off top of box; split this in two, making two strips one inch wide. Place one at top of box and one at bottom; use small nails or tacks. Get four sticks one inch square, cut to a diamond point at one end for the legs. Now take cover, divide circumference in four as a mark to place the legs. Set cover down two inches at top of leg and box ten inches lower. Smooth with sandpaper and paint any color you like. When dry trim with brass headed tacks and line with any color cheesecloth, and it will make a handy working basket and a very desirable baby basket if box is placed at top and cover at bottom. The box at the top can be used for baby's clothes; cover at bottom for the toilet articles. I have one of each kind in my house and I would not be without them, as they take very little room.—Boston Post.

Colombia Rich in Platinum.
The platinum output of Colombia is second only to that of Russia. This precious metal, washed from the gravels of the Choco, is always found mixed with gold, sometimes one or the other metal greatly predominating. Although platinum occurs to a small extent in other parts of the Choco, its main sources are the Platina and Conoto rivers.

With the Other Crumbs.
"Confound that waiter's insolence!" said Mr. Tightwad.
"What's the matter?"
"When I laid a nickel on the table he swept it into a crumb tray!"—Birmingham Age-Herald.

Baked Corn—One pint of corn; one quart of sweet milk; three eggs; one teaspoonful of sugar; salt and pepper to taste. Bake until done.
Sour Milk Biscuits—One quart flour, one large teaspoonful of baking powder, one-half cup of lard, one cup sour milk, one-half teaspoon soda.
Meat Balls—One bowl of cold meat chopped fine; one-half cup of fresh bread; a small onion chopped fine; two eggs; season with salt and pepper. Form in balls and drop in hot lard.
Scalloped Cabbage—Cut cabbage with a slaw cutter, use a layer of cabbage and one of cracker crumbs (alternately), sprinkle with salt and pepper and butter. Cover with milk and bake one-half hour.
Hominy Fritters—To one pint of hot boiled hominy add two beaten eggs, one-half teaspoon salt, dash of pepper; one-half cup of milk. When cold, add flour to make a thin batter and one teaspoonful of baking powder. Beat and drop in hot fat by small spoonfuls.
Rhubarb Pie—Two cups of rhubarb; pour boiling water over same and let stand five minutes, then pour off and add one cup of sugar; one tablespoonful of flour; yoke of one egg; three tablespoonfuls of water. Str all together and put in a lower crust and bake. Make a meringue of the whites of eggs and sugar; put on top and brown. This is fine.
Walnut Cream—Rub a cream cheese to a paste with a silver fork. If not soft enough add a little melted butter or sweet cream. Season with salt and pepper. Make into small balls and into each press the halves of an English walnut. Lay on young, crisp lettuce leaves and stand where it will get cold. When ready to serve pour over it mayonnaise dressing and send to the table with thin slices of toasted bread.

PRESIDENT TAFT'S BED IN THE WHITE HOUSE.

The accompanying photograph shows the elaborately carved bedstead which was presented to President Taft by the Filipinos, and was used by him in those islands and later in his Washington residence. It has now been installed in the White House. In construction, it suggests the sturdiness of Mr. Taft.—Harper's Weekly.

Improved Clothespin.
If asked the question, the majority of housewives would say that the common clothespin was perfectly satisfactory in its present form. Nevertheless, a glance at the illustration below shows what a decided improvement can be made in these laundry accessories. The improved pin shown

here resembles somewhat the clamps used by photographers to support wet prints while drying. They are made so that any number can be placed on a clothesline, being movable in either direction. The clothes are supported by small jaws, the grip being decidedly firmer than in the ordinary clothespin. In addition, the clothes do not come in direct contact with the clothesline and cannot become soiled, as is often the case with the ordinary line. They are also easier to handle, and after the clothes are removed are allowed to remain on the line.

Students from All Lands Enrolled in American Schools.
That the tide is turning in favor of American as against foreign educational institutions is one of the interesting facts revealed in a bulletin prepared by John Fryer, professor of Oriental languages and literature, University of California.
"Already the return wave of student attendance has set in," says Commissioner Brown in an introductory letter, "and a considerable number of students from foreign countries are enrolled in American institutions of learning. It is gratifying to note a growing disposition on the part of South American students as well as those from European countries and from the three remaining continents to seek in this country certain educational advantages which we now have to offer."

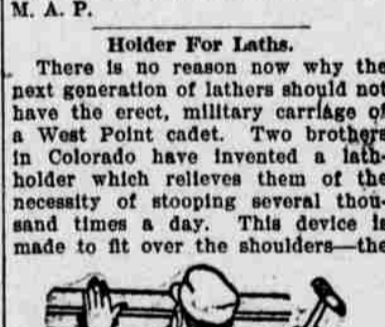

Rheumatism Cured in a Day.
Dr. Detchon's Relief for Rheumatism radically cures in 1 to 3 days. Its action is remarkable. It removes at once the cause and the disease immediately disappears. First dose greatly benefits. 75c. and \$1. At druggists.

A Novelty in Navigation.
A steamer in whose machinery engineers and steamship owners will take a special interest has just made her first voyage across the Atlantic. The Laurentic, built for the Canadian service of the White Star Line, is provided with three screws, the outer ones being driven by reciprocating engines and the middle one by a turbine. The reciprocating engines take the steam from the boilers, partly expand it, and then pass it along to the turbine for its final work. The former operate only at high pressure and the latter operates only at a low pressure. Thus are harnessed together two types of engines which have hitherto been regarded as rivals.—New York Times.

Men and Mustaches.
"In Europe," the barber said, "it is the fashion for men to wear their mustaches long and trained carefully at the ends, in which shape they must be looked after at the cost of much time and trouble. Here it is the fashion for men to wear their mustaches short, which may not be quite so pretty but is vastly more convenient and comfortable, and is characteristic of the country. It is doing away with surplussage and keeping the decks cleared for action."
"No man who has had his mustache trimmed short once," the barber said, "would ever let it grow long again."—New York Sun.

Logical Inference.
Lord Lucas, who is so ably supporting Mr. Haldene in the Territorial scheme, tells a good story of a teacher in a Midland town noted for his patriotic fervor. One day he was explaining to his class what he thought was a sad lack of the proper spirit in the average English boy. "Now, Tommy," he said, "tell us what you would think if you saw a Union Jack waving proudly over the field of battle." "I should think," was the logical reply of Thomas, "that the wind was blowing."—From M. A. P.

Holder For Laths.
There is no reason now why the next generation of lathers should not have the erect, military carriage of a West Point cadet. Two brothers in Colorado have invented a lath-holder which relieves them of the necessity of stooping several thousand times a day. This device is made to fit over the shoulders—the

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. EMMA IMSE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.
Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

AN IMITATION
Takes for its Pattern the Real Article
There was never an imitation made of an imitation. Imitators always counterfeit the real article. The genuine is what you ask for, because genuine articles are the advertised ones. Imitations are not advertised, but depend for their business on the ability of the dealer to sell you something claimed to be "just as good" when you ask for the genuine, because he makes more profit on the imitation. Why accept imitations when you can get the genuine by insisting?

Paxtine TOILET ANTISEPTIC
—NOTHING LIKE IT FOR—
THE TEETH Paxtine excels any dentifrice in cleansing, whitening and removing tartar from the teeth, besides destroying all germs of decay and disease which ordinary tooth preparations cannot do.
THE MOUTH Paxtine used as a mouth-wash disinfects the mouth and throat, purifies the breath, and kills the germs which collect in the mouth, causing sore throat, bad teeth, bad breath, grippe, and much sickness.
THE EYES when inflamed, tired, ache and burn, may be instantly relieved and strengthened by Paxtine.
CATARRH Paxtine will destroy the germs that cause catarrh, heal the inflammation and stop the discharge. It is a sure remedy for uterine catarrh.
Paxtine is a harmless yet powerful germicide, disinfectant and deodorizer. Used in bathing it destroys odors and leaves the body antiseptically clean.
