Lost His False Teeth.

A DuBois man who had imbibed too much "fire water" and was in such a hilarious frame of mind that it was necessary for the police to give him a room in the city bastle, got "sea sick" after he was denied the privilege of the fresh air and he tried to turn himself inside out. In the strenuous effort to relieve himself he lost his set of false teeth and was let out of "cooler" before he missed the teeth, and he hid away home without the teeth. He can get the teeth if he comes after them. Of course if he don't call for them in a reasonable length of time the teeth will be sold at a bargain to any person who wants to buy.

Father and Son Drown.

Wednesday afternoon of last week John Bouvier, aged 44, and son, Joseph Bouvier, aged 20, employed in the glass plant at Punxsutawney, were drowned in Mahoning creek at that place. Joseph was in swimming and was seized with cramp. The father, who could not swim, waded into the creek to help his son out and the son seized the father and they both went down into a deep hole together.

Executed at Indiana.

Joe Veltra and Bruno Carbono, of Wishaw, Jefferson county, Wednesday of last week, at 10.20 o'clock a. m., in the Indiana county jail, paid the penalty for having committed the highest crime known to men, when on July 18, 1908, they shot to death, near Glen Campbell, Indiana county, Robert Tozier, an old soldier of Baxter, who with about \$800 on his person, was on his way to visit friends near the place where he was murdered.

J. H. Waters, the dog catcher, made information against Will P. Nolan before Squire P. A. Smith at Soldier Monday for assault and battery. Waters, who is the dog police, caught Mr. Nolan's bull dog running on the street Thursday evening without a muzzle on and Waters grabbed the dog, and according to reports, choked it, and then Mr. Nolan choked Mr. Waters, and hence the charge of assault. Mr. Nolan gave bail in Squire Smith's court yesterday for a hearing on Monday, July 26.

A married woman, who is employed at the National Hotel in this place, drank the contents of a small bottle of iodine between ten and eleven o'clock last Thursday night with suicidal intent, but a doctor was called quickly and he administered an antidote before the poison had taken effect. The mines at Rossiter have been shut down for an indefinite period, throwing 1,400 men out of employment. Inability to meet competition at a profit is the reason given in the official notice. Will Run Machine for Stockholders.

An adjourned meeting of the stockholders of the Star Glass Company will be held in Reynoldsville to-morrow and at that time the machinery at the factory will be in operation so that the stockholders can see it working. We understand that the factory will not be open for the public in general nor for idle spectators. Only those interested will be admitted to the factory. This will be an important meeting, the result of which should mean that the fire will be lighted at an early date.

Woman Taken to Jail.

Last Thursday Constable W. W. Higgins arrested a woman on charge of keeping a disorderly and bawdy house. She was taken to the county jail to await trial at the August term of court. There are others who will be arrested if sufficient evidence can be secured. The officers find it difficult to get evidence to convict such people, and for that reason are frequently unjustly criticised. The law requires evidence in such cases same as for any other crime. It is not what you suspect, but can you prove it?

Shot With Skyrocket.

Joe Schillace, Italian groceryman of this place, has been nursing a very sore hand since the celebration at Reynoldsville July 5. An intoxicated chap from Punxsutawney, whose name is unknown, said, "I'll shoot you," and pointed a lighted skyrocket at Mr. Schillace's face. He threw up his left hand to protect his face and the fire ball from rocket struck him in palm of hand, burning in almost to the bone. That fool needs a lesson he will not soon forget, and if Mr. Schillace can get his name the fellow will be arrested.

WELSH CIRCUS STRANDED.

Struck "Financial Rocks" at Sligo Saturday and Will Not Show at Reynoldsville.

Last week our town was billed for Col. M. H. Welsh's circus to be in Reynoldsville to-day, July 14, but the expense of the show was greater than the receipts and the circus was wrecked on the "financial rocks" at Sligo Saturday and, hence, the show will not come to our town to-day, much to the disappointment of the small boy and older people who enjoy a circus. Judging from the flaming posters and the statements on the handbills advertising the show it would have been a good one, but lack of patronage forced the circus to go out of business.

Call Issued for a Meeting Tuesday Night, July 20th.

President Caldwell has issued a call for a meeting of the Business Men's Association at 8.15 Tuesday night, July 20th, in the regular room in the I. O. O. F. hall. During the past six weeks no meetings have been held owing to the fact that many of the members were actively engaged in pushing the big Independence Day celebration to success. The officers have been busy however and at the Tuesday night meeting several important matters will be presented.

The Best Macaroni in Market.

The Jefferson Macaroni factory at this place is working to full capacity all the time and the reason for this is that the factory turns out the finest and best grade of macaroni on the market to-day, whether imported or made in the United States. The big demand for the Reynoldsville macaroni keeps the supply fresh all the time and that makes it much better than the old macaroni imported. The Jefferson Macaroni factory uses a good grade of flour and everything is neat and clean about the factory. A trial sample of the Reynoldsville macaroni, if the person knows how to cook it, means that no other kind will be used if the Jefferson macaroni can be bought. Have you ever tried it?
