good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

Swindling and Extortion.

The customs officials estimate that the government has been swindled to the extent of \$8,000,000 to \$10,000,000 in crooked importations in the last 10 years. By means of prosecutions now under way these officials hope to recover at least \$2,000,000 and to put a number of the swindlers in prison. A good effort, truly. But, on the other hand, the government, through the tariff law, indirectly legalizes extortion to the extent of hundreds of millions annually—extortion that would be swindling or robbery but for the government sanction it enjoys. In the matter of sugar duties alone this tariff permits the sugar trust to exact 2 cents per pound more for its standard sugar in this country than it asks in London for the same grade—3 cents a pound on 600,000,000 pounds a year.—Kansas City Star.

MUST BELIEVE IT.

Every Reader Will Concede the Truth of This Statement.

One who suffers with backache or any form of kidney trouble wants a cure, not merely temporary benefit. Rev. Maxwell S. Rowland, of Toms River, N. J., makes a statement in this connection that is worth attention.

Says he: "I was suddenly taken with an attack of kidney trouble, had severe pains in my back and loins and was generally run down. Doctors were not helping me, so I began using Doan's Kidney Pills. They brought me prompt relief, and as I continued taking them the pains in my back disappeared and the kidneys were restored to normal condition."

Would Prevent Suicides. The acting prefect of police for St. Petersburg has applied to the ministry of the interior for permission to apply restrictive and precautionary measures to the sale of certain drugs on account of their widespread employment for purposes of suicide. Self-destruction, so prevalent in Russia during the era of demoralization following the revolution, has become epidemic in St. Petersburg, as many as 20 cases in one day occurring frequently.

Constipation

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every six hours before I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you, I am free from all that this morning. You can use this in behalf of suffering humanity. B. F. Fisher, Rossmore, Ill.

WOMAN'S REALM

In Favor of Girls.

In the late afternoon they come, in thousands, out of stuffy offices and crowded stores and noisy factories. They've been there all day long, patiently taking "dictation" from fretful, perspiring, frowning men, or trying to satisfy a thousand querulous voices over the telephone, or deciphering the wishes of impatient or undecided women across the counter, or with twinkling fingers guiding and feeding insatiable machines.

Their day's work over, they come out. Weary they may be, but who would suspect weariness in these straight, independent, firm stepping figures? Warm they may be, but one might marvel at the visions of coolness they look in their clean, well fitting gowns of white, and pink, and mauve. Troubled they may be, but the sight of them is balm for other people's troubles.

Subordination may have been their place all day, these girls who earn their living. All day they have been under orders and prisoners of rule. But when they come forth in the late afternoon all that is changed. Then they dominate, and all men are subject to the pleasant influence of their dominion. They banish discomfort and quiet complaint and make habitable the cars they crowd. But for the presence of these marvelously neat, calm, unobtrusive, unassuming benefactors, the home-going cars in the evening would be as cages of sulken hyenas these trying days.

That telephone manager back East who said that every girl who is bright and neat and clean is a pretty girl, is everlastingly right.—Kansas City Times.

Athletic Training.

"Mothers," said Mrs. Agnes A. Botha, of the Philadelphia Children's Home Care Society, in the New York

Telegram, "should have more to say about the athletic training of their young boys in our public schools. Many fine boys are being weakened physically and neglected mentally through too much athletics between the ages of ten and eighteen. 'A mother is inclined to let the boy's father decide this matter, but this is all wrong, because nine men out of ten will encourage a boy to stand at the head of his school athletics even at the sacrifice of his other studies. 'Every man likes to stand up with his business associates and brag about what his boy is doing in the school athletic classes. 'As a matter of fact, no boy should be allowed to go seriously into athletics until he is twelve or fifteen years of age. Ordinary play is enough to keep a boy strong and growing naturally without abnormal muscular development. 'The usefulness of public school athletics, in their prevailing extent of development, is more or less open, and there is a considerable difference of opinion as to the best methods of conducting such by-plays of public education. But there is no question of the desirability of placing scholarship unreservedly foremost in the adjustment of conditions. 'In private schools each institution may fairly decide the question of the importance of athletics at it chooses. Parents who do not approve of athletics have the privilege of sending their children to schools where athletics are not exalted—and there are some such. The question of athletics in the public schools, however, is quite a different matter. It appears to be the desire of the public, who support the schools and for whom they are conducted, that athletics shall have a place. But that place must be secondary to the main purpose of popular education."

Our Cut-out Recipe.

Paste in your scrap-book. Fish Turbot.—Make a white sauce by cooking together a tablespoonful of butter and a heaping one of flour, and, when they are blended, pouring over them a pint of unskimmed milk. Add a few drops of onion juice, then pour slowly upon the beaten yolks of two eggs. Season with salt, pepper and a teaspoonful of minced parsley. Into this sauce stir a pint of cold cooked fish that has been freed of bones and flaked very fine. Turn into a greased pudding dish, sprinkle with crumbs and bake for twenty minutes or until heated through.

Black satin revers and cuffs are to remain in style. The all-black hat still retains much of its popularity. Zibeline, serge and the chevrets are popular for coats. The military cape is much used for driving and motoring. Bronze slippers are quite stylish for evening housewear. Shimmering silk stuffs in two-tone effects will be seen through the season. Travel hats of the lightest possible make of felt have made their appearance. Quills are much used to trim walking hats. They are very long and very odd. Ottoman cloth—a woolen material with a slightly raised rib—is very fashionable. One of the new shades has at least a charming name to recommend it—lime blossom. The new raw silks are woven with a rough finish that makes them look at first glance like some new genre of crepe de chine. They are beautiful and will be effective in reception gowns and theatre dresses.

Younger girls still cling to the Windsor tie. Crocheted buttons are more in the style than ever.

where she visited was an aged man, of silver hair and benignant countenance, whose many years of loyal service in the family had earned their full reward of affection and respect. He felt an almost fatherly degree of responsibility for the manners and behavior of the younger members of the family, especially upon ceremonial occasions. At a large reception the American guest overheard him speaking to the youngest grown daughter, under pretense of bringing her a lace scarf:

"Miss Hedith! Miss Hedith! The hold gentleman by the 'earth' as'n't 'ardly been noticed by anybody for 'alf an hour."

Miss Edith not displaying any eagerness to hasten to the relief of the neglected one, a fat, bald-headed, unattractive little man, he continued, reproachfully:

"'E's a person of himportance if 'e is helderly. I've 'eard 'e's much respected in the 'ouse. Besides, Miss Hedith, in the words of the poet, 'Kind 'earts are more than coronets;' and I 'aven't a doubt, if 'e'd happened to think of it, 'e'd 'ave haddad 'and brainy 'eads than 'air!'"

The conjunction of hard and butler was sufficient to recall Miss Edith to her duty as a daughter of the house, and she was soon successfully entertaining the bald but distinguished member of parliament.—Youth's Companion.

WHAT WOMEN ARE WEARING

New York City.—The simple tucked blouse is always a pretty one. This model can be utilized either for the odd waist or for the gown, and it can be made from crepe, chiffon, moure or other similar material, and also from the simpler lingerie sort. It can be trimmed with contrasting bands as il-

lustrated or with any fancy material that may be preferred. Also it can be made either with the sleeves that are slightly full and laid in pleats at the wrists or with plain ones. Tucks are arranged on becoming lines and provide just sufficient fullness at the front. Crepe de Chine with trimming of messaline and pretty buttons is the material illustrated.

The blouse consists of the lining, which is optional, front and back. The tucks can be stitched by machine or sewed by hand as liked, and just enough of them extend to yoke depth only to mean pretty folds and fullness. The sleeves illustrated are made in one piece each, the plain ones with upper and under portions. The quantity of material required for the medium size is three and a half yards twenty-one or twenty-four, two and a quarter yards thirty-two or two and an eighth yards forty-four inches wide, with one-half yard of silk for trimming.

Of a Green Color. Green is being pressed as a color for the season, the olive and soft shades for street wear, and pale green for evening gowns. The green beaver hat of a remarkable velvet softness is heralded in an alpine shape, trimmed with one huge bobochon of wide ribbon velvet in the same green.

Five-Gored Yoke Skirt.

Every form of the yoke skirt is to be much worn this coming season, and this one is graceful and very generally becoming. It can be either gathered or tucked, and consequently it suits a variety of materials. In the illustration it is made from one of the new silk and wool crepes with trimming of folds of the material. Almost everything fashionable is soft, however, and the list of available fabrics is a long one. The yoke means perfectly smooth fit over the hips, while the skirt falls in graceful lines and folds, and this is true whether it is gathered or tucked. For the long skirt, which is suited to occasions of dress, the many pretty silks and silk

FINANCE AND TRADE REVIEW

WEEKLY NEWS SUMMARY
Reports from the Country Over Indicate Year of Unequalled Business Ahead.

New York.—R. G. Dun & Co.'s "Weekly Review of Trade" says: "Without exception the reports of trade, both wholesale and retail, in all parts of the country, are more than satisfactory and hold out the promise for 1910 of a year of unequalled business. What this means, expressed in almost inconceivable figures, is that the United States is now increasing its wealth at a rate never before achieved. Neither the high prevailing prices nor the discussion of disputed economic policies seem in any way to shake confidence or check the industrial progress. In all the principal cities the advances are of an excellent retail distribution, and the outlook for the holiday trade is very bright. The extraordinary advance and speculation in cotton is the most conspicuous adverse development.

"The remarkable progress in iron and steel is maintained, and in October all previous records as to the amount of actual business booked were surpassed. In practically every division orders are received in heavy volume, and many mills are falling steadily behind in deliveries. Bookings by the steel companies are especially large and some important contracts are pending. "There is a further large gain in the movement of dry goods. The removal of restrictions in purchasing is particularly noticeable in some of the larger retail centers. "The demand for footwear shows further improvement and the price question is less of a disturbing factor."
