A Burst of Eloquence.

A flash of imagery, a burst of eloquence, and a wealth of glittering thoughts scattered like fireflies over a clover-field-that is Bob Taylor's lecture. A song borne in the wings of some dear old melody, a joke rippling from a fountain of humor, a subtle note of pathos awakening tender, sacred memories-that is Bob Taylor's lecture, Words painted in all the colors of lancy and put together with all the skill of faultless diction, the lights of innocent childhood, and the shadows of somber age developed on the background of common experience-that is Bob Taydistrict to give a man at least two lor's lecture. A radiant smile penetrating the gloom of despondency, a ray of hope arched in every man's horizon, a fragrant flower to brighten and to cheer-that is Bob Taylor's lecture.-Memphis Scimitar, At Assembly hall Tuesday night, Merch 15. MONT ALTO SANITARIUM.

Letter From Reynoldsville Young Lady Who Is There for Treatment.

Mont Alto Camp, Jan. 30, 1910.

Dear Friend Jessie:-Just a few lines right. We got a rig for the mountains without much trouble. It takes about an hour to drive up to Mont Alto from the valley. There is certainly a great difference in the air up here and the air at Reynoldsville. I like it here and like my new home very much. There are eight persons in each cottage. In our cottage there are two married ladies and six girls. They are a jolly crowd and treat me fine.

We don't have as much time to ourselves as I thought we would have. We arise at 6.30 and go to a large building at 7.00 for breakfast. I wish you could see the 725 people that are seated in the dining room at each meal. At 8.00 our nurse comes and takes our temperature, then we make our beds and sweep room. At 10.00 a. m. we go out to another building for milk and eggs, and at 10.30 we have to go to another open building and sit in the cure chair wrapped in blankets, for an hour and a half, then dinner. After dinner we have to go to bed for one hour, then milk and eggs and cure chair again. We certainly get lots of rest. I think we get too much, for I am afraid if I keep on eating three meals a day, and eggs and milk between meals, and taking so much rest that I will get so fat in a few months I will have to be sent home in a box car.

I was examined last Thursday and Dr. McMulten told me that my lungs had been affected for nearly two years. I will have to stay here at least six months. One of the girls from our cottage is going home in three weeks, cured. She has been here six months. She only weighed 107 pounds when she came and now she weighs 135 pounds. Your Friend.
