

School Notes.

There were only four cases of tardiness in all the schools last week.

We continue to acknowledge contributions to the laboratory fund, from Mr. Bell, Mr. Harris and Mr. Parrish.

Miss Effie Milliren was in Brookville over Saturday.

Col. Gordon's farewell address to the Senate was read before the High School on Friday morning.

A committee representing the Business Men's Association visited the schools on Friday afternoon. They saw a sample of work from every department above the fourth grade. We hope the next committee will give us a full day.

The school board has fitted up the physical laboratory with water, light, heat and has supplied a large case with glass doors for the care and display of the apparatus recently purchased. This apparatus, which is sufficient for the performance of about 30 experiments, will be formally presented to the school on the evening of March 18. The program for the occasion will be announced next week.

Senator Robert Taylor will be here March 15th. The chart for reserved seats will open five days before, March 10th. Mr. Taylor is booked for DuBois the night before his appearance in Reynoldsburg. Admission 50c.

Only 40 school days remain.

The Lash of a Fiend

Would have been about as welcome to A. Cooper, of Oswego, N. Y., as a merciless lung racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough, or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. 50c to \$1.00. Trial bottle free. It's positively guaranteed by H. L. McEntire.

Letter List.

List of unclaimed letters remaining in post office at Reynoldsburg, Pa., for week ending Mar. 5, 1910.

Harold Dillie 2, Peter Hetrick, Mr. Jefferson, Mr. W. T. Tyner, George Wilt.

Say advertised and give date of list when calling for above.

E. C. BURNS, P. M.

A sign of good fitting shoes—Queen Quady for women. \$3.00 and \$3.50. Adam's.

Snow Fall Past Winter.

Several different persons in nearby towns have made public reports concerning the amount of snow that has fallen during the past winter, some of the reports placing the amount to as much as six feet, six inches. However, all these marks have been passed in DuBois and the man that kept tally on the downfall, is one who has been doing so in a scientific way and for the good of the borough. Water Commissioner Lord is the man and his scientific instrument showed a downfall of seven feet, four inches. Mr. Lord did not make his report directly to the public, but to council at the special meeting on Wednesday evening.—DuBois Courier.

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where stomach, liver, kidney and bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, to keep brain and strong body. 25c at H. L. McEntire's.

Illustrated Lecture for Miners.

A business meeting of the DuBois District Mining Institute, which includes Reynoldsville, Sykesville, Rathmel, Soldier and surrounding districts, will be held in the Central Y. M. C. A. rooms, Long Avenue, DuBois, on Friday evening, March 11th, at 7:00. The lecture, "Explosives," will be delivered by Clarence Hall, expert in charge Explosive Section, U. S. Geological Survey, Pittsburgh, Pa., and will be suitably illustrated by stereoscopic views.

Mr. Hall has also promised to bring some of the most approved apparatus from the testing station along with him. As the lecture is free it is hoped that those interested in such work will try and attend, as the lecture is bound to prove full of interest to mining men.

\$25,000 Baseball Sensation.

The Pittsburgh Dispatch announces that it has secured the right to publish serially, commencing next Monday, the book which Christy Mathewson has written, entitled "Won in the Ninth." Every fan knows that Mathewson is the world's greatest baseball pitcher and he is a member of the New York club.

Several weeks ago the newspapers and magazines all over the country were printing articles about Mathewson writing a book and baseball enthusiasts have been looking forward to a great treat, but not anticipating that an opportunity of reading the story in a newspaper would be offered. However, The Pittsburgh Dispatch, ever on the alert for the "best always," surprises the public with the good news that will enable everyone to read the great story before the book is put on sale. No fan should miss it, and to be sure of reading it you had better notify your newsdealer now. Remember the date of the opening chapter is next Monday, March 14th.

Stockholders Meeting.

Notice is hereby given that the annual meeting of the stockholders of the Reynoldsville Brick & Tile Co. will be held at the office of the company at their works in Winslow township, Jefferson Co., at 2 o'clock p. m., Tuesday, April 5, 1910, for the election of directors and the transaction of any other business that may properly come before that body.

CLYDE C. MURRAY, Secretary.

Good Weather After St. Patrick's Day.

The Pittsburgh Gazette-Times said yesterday: "The temperature will gradually rise and continue warm for several days, but the weather man will make no definite prediction as to how long it will last, as he fears to anticipate the conditions that may vary greatly between now and St. Patrick's day. But after March 17 the lion will be chased to his lair and the lamb will then be free to gambol on the green."

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infallible for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25c at H. L. McEntire's.

PENNSYLVANIA :: RAILROAD

BULLETIN

DREADNAUGHT CARS

The nub of railroading is first-class equipment and reliable service. The Pennsylvania Railroad provides this for the public. For many months big all-steel coaches, built like Dreadnaughts, have been operated on all through trains. Their easy riding qualities and steadiness of motion have been widely praised. The all-steel dining cars too have distinct advantages over the wooden ones. They are stronger and sturdier, and the act of eating is made more enjoyable by the smoother movement.

There are also some steel Pullman cars—combined parlor smokers and baggage—in the service now. Travelers like them. They have plenty of elbow room and they glide over the rails. The sleeping cars are coming. Some four hundred parlor and sleeping cars will be in use by Summer.

These steel coaches and cars are the strongest vehicles ever built for passenger transportation. They are fire proof, break proof and bend proof. They represent the climax of safety and the perfection of comfort in railroad travel.

The Pennsylvania Railroad has always been the leader in all manner of improved equipment as well as in all methods of making their patrons more comfortable. This is why it is known and honored as The Standard Railroad of America.

Easter Garments Made to Measure

Half the Usual Price

We show all the new styles, all the new fabrics of the American Ladies Tailoring Co., Chicago. The variety is almost unlimited. The prices are amazingly low. We take your measurements and guarantee you service exactly as good as you could get if you went to Chicago.

All Done Right at Home.

We have in our store now the Spring Portfolio of the American Ladies Tailoring Co., the leading concern in its line.

In this book there are shown, in actual colors, a wealth of the smartest styles for spring. There are 66 separate styles—the very finest creations—in suits, skirts, dresses and capes.

We also show samples of 238 fabrics, all this season's weaves. And we offer you the choice of any garment made in any fabric—a far larger variety than you can find in any tailoring shop in the country.

How It is Done.

You pick out your style here, and choose your fabric, just as you would if you went in person to the American Ladies Tailoring shop.

An experienced fitter in our store takes all your measurements. Then a diagram is made showing your figure, style and carriage—all the facts which a tailor needs.

The tailors who make the garments have all the information which they could have if you stood there before them. The garments are not only fitted to your figure. They are fitted to your style, your individuality. You get all the distinctiveness, and all the perfections which are possible in man-tailored garments.

And you get this right at home, at prices which run from a half to a third what smaller ladies' tailors charge.

No Better Tailoring.

You cannot at any price get better service than we offer to you in this way. That we guarantee. If anything proves unsatisfactory—fit, style, workmanship or materials—we will return the garment to the makers. You will not be asked to accept it.

But you will be more than satisfied. You will be amazed at what a garment you can get for the money.

The work is all done by the best of tailors. It is directed in person by Monsieur Kayser, one of the masters of this craft. Not a garment is sent out by the American Ladies Tailoring Company until a dozen inspections prove its utter perfection.

The Amazing Prices.

The American Ladies Tailoring Co. makes a thousand garments to the usual tailor's one. They buy their materials direct from the mills, and in enormous lots. Everything is done on such a scale that the cost is reduced to a minimum.

We will show you suits which will be made to your measure as low as \$13.50, as high as \$45.00. Coats from \$8.00 to \$30.00. Dresses, \$9.50 to \$30.00. Capes from \$9.50 to \$22.00. Skirts from \$5.00 up.

These prices will average not more than one-half the usual prices of ladies' tailors. Yet no one can offer you anything better than you can secure in this way.

See Our Styles and Fabrics.

We have ready to show you 66 styles and 238 fabrics. Come and see which you like best and learn what it costs.

No garment requires more than ten days to two weeks in the making, so we can promise you prompt service. Please come at once—see what this system means to you. Then, if you decide on a garment we can have it here when you want it.
